

# FIRETROL Protection Systems

June 16, 2010

State of Oklahoma - Department of Central Services  
Attn: Lee Johnson  
Office – 405-522-5395

**RE: Pricing Proposal for State Contract # SW403 for 2010**

Thank you for the opportunity to offer you this proposal for the above referenced project.

**Scope of Work:**

Firetrol Protection Systems will provide design, installation, repair, service, inspection and maintenance required for the following fire/life safety systems per the attached pricing schedule. Equipment, installation material and spare parts required to facilitate the repair, replacement or upgrade of the following systems will be available for purchase and will be priced upon request. All pricing will have similar discounts to that of the Firetrol GSA Contract.

- Fire Sprinkler Systems (wet/dry/underground/standpipes)
- Fire Alarm Systems
- Special Hazard Systems
- Kitchen Hoods& Extinguishers
- Inspection & System Certification
- Service/Repair/Maintenance

Pricing will be based on the attached Firetrol GSA Schedule (GSA Contract Number GS-06F-0063S) with the noted modifications. Items not on GSA Schedule (Extinguisher and Special Hazards) are priced separately upon request.

See Attached.

1. GSA Labor Rates for GS-06F-0063S
2. GSA Schedules for GS-06F-0063S
  - a. Mechanical/Suppression Systems
  - b. Addressable Fire Alarm Systems
  - c. Conventional Fire Alarm Systems
3. Firetrol – Scope - Annual Full Maintenance
4. Firetrol – Extinguisher and Special Hazards Systems Pricing

Firetrol Protection Systems understands that the terms of the existing statewide contract (#SW403) will apply to this proposal. Travel to be at the federal rate for any travel outside the three Oklahoma metropolitan areas (Oklahoma City, Tulsa, and Lawton).

If you have any questions or if I can be of any further service please feel free to call.

Sincerely,

*Richard Felton*

Richard Felton  
District General Manager

FIRE PROTECTION AND LIFE SAFETY SPECIALISTS

**Scope - Annual Full Maintenance - Includes the following:**

1. **SERVICE CALLS:** This agreement provides for service calls. Standard Service provided during normal business hours (Monday through Friday 8-5). This provision includes Labor, travel, and mileage charges for repairs associated with normal equipment failures. This provision covers labor to troubleshoot and diagnose system problems, and to replace panel components and failed peripheral devices (smoke detectors, heat detectors, manual pull boxes, addressable relays, control modules, discharge components, discharge heads, audio visual devices, etc.).

Critical and Non-critical Service Calls Initial response to repair calls will be based on the nature of the repair, whether, in the opinion of the Ordering Official and Authority Having Jurisdiction, it is Critical or Non-critical in nature. Critical Service Calls are those service calls affecting the continued occupancy of a building, or certain operations in a building, which are critical in nature.

- a. Critical Service Call Response. Due to the emergency nature of Critical Service Calls, the Ordering Official and Authority Having Jurisdiction will normally make the requests for service calls verbally. Requirements for critical service calls include:
    - i. After being notified of a repair request, the Contractor shall have a qualified technician on-site within 6 hours, and complete the repair within 24 hours.
    - ii. If the fire alarm system cannot be repaired within 24 hours, the technical specialist shall notify the Ordering Official and Authority Having Jurisdiction with a schedule for completing the work. The schedule may be approved verbally.
  - b. Non-Critical Service Calls. Requirements for Non-critical Service calls include:
    - i. After being notified of the need for service, the Contractor shall have a qualified technician on-site within 48 hours, and complete the repair within 96 hours.
    - ii. If the fire alarm system cannot be repaired within 96 hours, the technical specialist shall request a time extension from the Ordering Official and Authority Having Jurisdiction. The request may be approved verbally.
2. **PANEL PARTS/ COMPONENT PARTS REPLACEMENT:** Additionally, this agreement covers component replacement on the central processing unit, to include reprogramming of system due to failure, replacement of circuit boards, and all components in the control panels, and peripheral devices (smoke detectors, heat detectors, manual pull boxes, audio visual devices, relays, control modules, releasing modules etc. plus discharge components, ) associated with system. This provision includes the cost of labor to install components, travel and mileage charges for service calls. Provision covers only equipment listed. Battery replacement is covered.
  3. **REPAIRS AND UNSCHEDULED WORK:** Definition of Repairs. Repairs are defined as unscheduled work to repair or modify a system, or to correct recurring system issues and/or equipment malfunction(s).
  4. **REPAIRS NEEDED PER INSPECTION DEFICIENCIES:** Definition of Repairs. These repairs are defined as scheduled work to repair a fire alarm system, or to correct system's equipment deficiencies.
  5. **CLARIFICATIONS AND EXCLUSIONS:**
    - a. Does not include any repairs due to negligence, acts of God, Vandalism. Etc.
    - b. Does not include repairs on non listed equipment. (Equipment tied to the special hazard fire system).
    - c. Propriety (third party) programming limited to four hours per panel per year.
    - d. Does not include after hour and weekend service.
    - e. Does not include repairs or replacements to obsolete equipment.
    - f. Does not include replacement of system wiring.

**Note. 24/7 service is available at an additional cost.**
