It offers the new product add-on of Real Time Incarceration Records as well.

CLEAR Transactional Plan 2N

Formerly known as CLEAR Option 3, Plan 2N is identical to the way it was, except that it now includes an option for Real-Time Incarceration Records.

Concourse Plan 20

Concourse is a new platform that enables one product's information to connect to other products' data that are related to the same matter. A multi-tiered approach accessible anytime, anywhere.

a. The first Concourse tool being recommended for Oklahoma is "Matter Room." This is a secure, cloud-based environment, which -- because of its integration with an individual's desktop computer and MS Outlook --facilitates matter-centric document collaboration with outside counsel.

b. The other key component is called "Legal Hold." This is a powerful, easy to -use tool that helps implement and automate the legal hold process. Concourse Legal Hold provides a repeatable and defensible method for tracking and reporting on the delivery of hold notifications and the corresponding custodian acknowledgments.
