Global Satellite Service(Includes 8816 and 8817)	\$8.51	\$8.51			

Notes:

- * Different rates apply for calls terminating on mobile or like access in the specified countries. Where no Mobile rate is listed for a country, the Landline rate applies.
- + Rate Table also applies to NRA calls originating in Canada and terminating outside the United States other than at a GSDN location.
- <AM> Mileage based on the distance in airline mileage between the pricing points (e.g., Rate Centers, AT&T Central Offices, etc.) involved on the particular call.
- <MKR> The mobile termination rates for Monaco also apply to mobile-terminated calls to Kosovo.
- <NRA> Also for NRA calls originating in Canada and terminating either in the United States or Canada (other than at a GSDN location).
- <S12> For calls to Mexico, the Schedule 1 rate applies for the portion of the call between the station in the US Mainland and a point of connection at the international boundary. The Schedule 2 rate applies for the portion of the call between the point of connection at the international boundary and the station in Mexico. The total charge for the call includes both the Schedule 1 charges and the Schedule 2 charges

Rate Table SDN-IOB-D: International Outbound from the United States

EXHIBIT C4 EQUIPMENT PRICING SHEET

All new equipment proposed must be the current offering of the manufacturer and be receiving the highest level of standard support offered by the manufacturer. Vendor may also provide pricing for factory refurbished or used equipment which is in 'new condition' as well as OEM certified, and in compliance with the equipment manufacturer's specifications. Vendors shall submit an itemized equipment list with applicable category discounts in the following format. Include any equipment description, information or brochures.

	New ("X")	Manufacturer	Equipment Type	Discount%	Annual Maintenance Discount%
