## **H. PRICE AND COST (ALSO SEE C.1.1 OF THE SCOPE)**

**The State of Oklahoma is requesting pricing for dump bodies, lifts, lift hook, service utility bodies, and crane bodies. The pricing matrix is a percentage off the Manufacturer's list price. Vendors can submit actual pricing schedules for their equipment though, with the percentage discount already figured.**

**As stated in C.1.1 this contract has previously been awarded as one brand, several models, to one vendor per contract. Central Purchasing is tasked with providing statewide contracts to customers for equipment they normally purchase, saving them time and administrative costs. By collectively purchasing from statewide contracts, all government entities stand to benefit from the lower pricing achieved by volume purchasing.**

**Although a complete number of sales is not available, the State of Oklahoma has 77 counties, The Department of Transportation is the largest state agency user of the contract, and any city, municipality, school, university or college within the state will avail themselves of the contract. There is no minimum guarantee of how many of any product will be purchased within the next year.**

The State of Oklahoma has been a leader in the push for State use of CNG-powered vehicles. Sometimes the bodies will have to be specially outfitted for CNG tanks which will require a special build.

The manufacturer's price list date that you are being asked to provide is considered the "starting point" of the contract and is to be used as a measurement of price increases throughout the contract. (i.e. at the end of the contract year, the purchases will be compared to annotate any price changes that were made.) You will be expected to provide brochures and descriptive literature to those customers who request it and the contracting officer responsible for the maintenance of the contract. Although you will not be required to send actual pricing sheets as the prices are updated, unless you have provided actual pricing, you will be required to notify the contracting officer when there are price increases and a note will be made to the website where your contract will be located.

Government entities who will be buying from this contract will be expected to provide their accounting offices with a pricing sheet or pricing sheet reference date at the time they prepare their payment method. This pricing sheet will clearly state the Price Book/Catalog Number and Date. This sheet is to be attached to the quote provided by the Supplier. The quote will reference the Statewide contract number being used for the purchase. All set up charges, testing, and freight charges are to be included in the total price less discount offered.

Discounts offered will remain the same or can be increased throughout the contract period. This can be accomplished by special incentives such as end of season sales. Multiple Unit discounts are encouraged.

Vendors are asked to price options when possible, especially those options/accessories/incidentals that are in addition to the standard options/accessories/incidentals that come with the base product but are not a customized, special requested size or configuration, i.e. toolboxes, bed liners, common items requested by customers to be added to the dump or service body, discounted as a value-added incentive given by the vendor.

Vendors please fill in the Excel spreadsheet on a computer and save it to a flash drive or cd or dvd and send it in with your response. If you want to expand on the information asked for, such as to provide pricing lists and/or options/accessories/incidentals lists and discounts or pricing, please do so.

**All installations must be performed within the State of Oklahoma.**

Some of these items have not been on the previous statewide contract for dump bodies and service trucks so please provide as much information as possible. **Any extra types of equipment you describe and price in your response may or may not be considered.**

The pricing sheet is in Microsoft Excel format. The specifications provided for the dump bodies and utility trucks were developed by the Department of Transportation and used as the basis of the previous contract awards. Those specifications are included for comparison purposes only and not to be used as the basis for award. They are provided as a guideline for vendor submission of their products. There are no specifications to compare for the Aluminum dump bodies, platform truck bed, crane body, or lift hook or bucket lift products as they have not been included in a statewide contract prior to this. Please submit your pricing spreadsheet on a cd or flash drive.

For comparison purposes The previous contract provided for 10, 14, and 15 foot dump beds. The brand was Godwin, Models 300U, 400T, 500T and the service bodies were for 8500 GVW truck chassis, single and dual wheels, 10,000 GVW and 15,000 GVW, the Brand was Stahl.
