The price list with the updated pricing is enclosed

Suppliers were queried the reasons for the exceptional high request for price increases and supplied the following:

- Hardwood & Softwood fiber cost increased more than 20% in 2017.
- Freight cost – implementation of the Electronic Logging Device rule, driver shortage, increased demand for trucking have limited truck availability and increased cost.
- Paper mill closures and paper machine conversions to non-printing grades have created a tight (some grades allocated) supply. Remaining mills are at near capacity, extending lead times, reducing product offering. Demand for coated papers has increased, reducing uncoated paper availability from those mills.
