GLOBAL M3

GLOBAL M3

The Global M3 3-Wheel Sweeper Sets The Standard

- ▶ **Reliable / Durable Equipment**
- ▶ **Innovative Engineering / Design**
- ▶ **Industry Leading Reputation**
- ▶ **Dedicated Customer Service**
- ▶ **Outstanding Sales Professionals**
- ▶ **Fast Parts and Service**
- ▶ **National Dealer Network**

Reliable • Affordable • Innovative

GLOBAL M3

PERFORMANCE

- ▶ The high-performance **Global M3** has unsurpassed pick-up ability across its full 125" sweeping path, even when faced with the heaviest workloads.
- ▶ The performance matched equal-width pickup broom and elevator system eliminates choke points and improves sweep speeds.
- ▶ In-cab gutterbroom down pressure controls combined with a self-adjusting pickup broom give superior sweeping ability.
- ▶ The large 5.6 cubic yard hopper has a ribbed design which eliminates rust traps and is mid-mounted for balanced weight distribution and superior loading characteristics.

ENGINE

- ▶ Powered by a fuel-efficient 4-cylinder, turbocharged 115-horsepower John Deere diesel engine, which is the largest in its class delivering outstanding performance and reliability.
- ▶ Low-maintenance drive system with twin wheel motor design reaches road speeds of up to 25 mph and handles steep grades up to 21 degrees. No need to ride the brakes to creep along for heavy sweeping. Operator has smooth control at all speeds.

HOPPER

- ▶ 5.6 cu/yd versus 3.5 cu/yd for competitive machines, increases curb miles swept between dump cycles.
- ▶ Optional stainless steel is covered by a Lifetime Warranty, ensuring the lowest Cost of Ownership with a greater re-sale value.
- ▶ The extra large hopper can be discharged into roll-off containers or dump trucks with heights up to 9' 6".
- ▶ Dumping the large 12,000 lb payload is easily done and is visible from within the cab for increased operator safety and efficiency.

A BALANCED SWEEPING SYSTEM

- ▶ Dirt conveying system is 58-inches wide and features an overthrow system which helps to collect more debris.
- ▶ Full 125-inch sweeping path offers unsurpassed pick-up ability even when handling the heaviest of workloads.
- ▶ Performance matched equal-width pick-up broom and dirt conveying system delivers faster loading and sweeping speeds.
- ▶ In-cab adjustment of dirt conveyor aperture allows pick up of leaves and bulkier materials.

▶ PERFORMANCE. SAFETY. RELIABILITY. AFFORDABLE.

The **Global M3** three-wheel sweeper sets the standard. Purpose-built designed with reliability, safety, low maintenance, ease of use, and the lowest operating cost per swept mile, are the fundamental attributes of this high-performance street sweeping machine.

▶ THE BEST THREE-WHEEL SWEEPER IN THE INDUSTRY

The **Global M3** offers many enhanced features not found on most three-wheel sweepers. An amazing 12 1/2-foot turning radius, low center of gravity, exceptional visibility, and dual front wheel design provide the best in overall operator driveability. A large capacity hopper and exceptional in-cab controls make the **Global M3** a great choice for cities requiring simplicity, power, and performance.

EXCEPTIONAL VISIBILITY

ABOVE Industry leading exceptional visibility increases operator and pedestrian safety over competition.

Global M3 versus old style three-wheel depth of visibility.

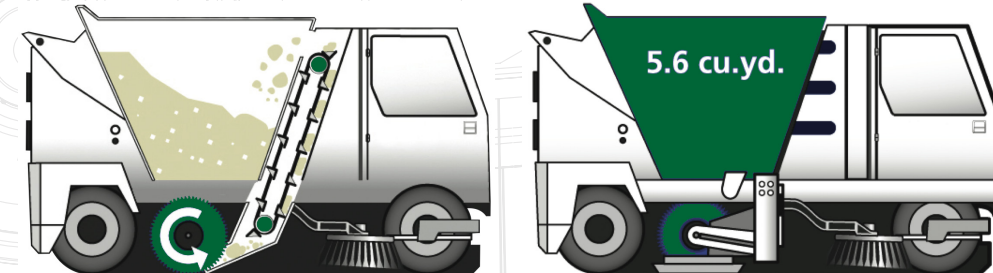

LEFT The **Global M3** offers the best maneuverability in its class with its tight turning radius that allows the operator to maneuver easily in cul-de-sacs and close quarters.

BELOW Huge 47" gutterbroom versus 36" for the competition. Aggressive forward-facing digger design.

BELOW Elevator Type: 7 Flight squeegee with replaceable corded rubber tips; Continuous molded rubber belts. Hydraulic Motor: Direct drive: Variable Forward and Reverse; Displacement – 15.8 cu. in./rev. 5.6 cu/yd hopper capacity compared to 3.5 cu/yd for competitive machines resulting in more curb miles swept between dump cycles.

▶ THE PERFORMANCE YOU NEED

Performance matched equal-width pickup broom and dirt-conveying system delivers faster loading and sweeping speeds. The purpose-built chassis is based on years of experience of designing the most effective, and safe, street sweeper. Unmatched visibility from the cab increases safety by providing drivers a much larger viewing area, parabolic mirrors, and a depth of view unequaled by any other street sweeper in its class.

▶ SAFETY IN DESIGN

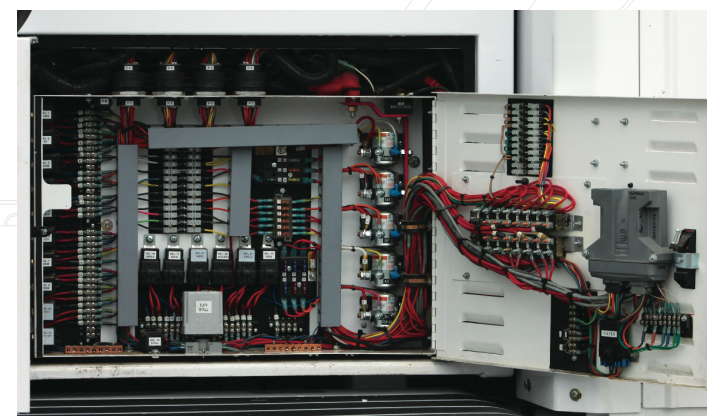

Exceptional visibility, incredible turning radius, low center of gravity, and dual front wheel design provide greater stability and effectively reduces chance for a rollover compared to other manufacturers three wheel sweepers.

SIMPLY MAINTAINABLE

ABOVE The **Global M3** is designed to make routine maintenance easy, so your sweeper spends more time on the street and less time in the garage. Two swing-out center body panels provide unrestricted access for elevator adjustment, maintenance and daily cleaning.

RIGHT A centralized, weatherproof systems locker fully protects electrical components from the elements while it allows maintenance staff easy accessibility for inspection and troubleshooting.

RIGHT The **Global M3** features many maintenance-friendly attributes, such as a rear swing-out radiator, easy access front mounted AC condenser, brake and windshield washer fluid reservoirs, and cab fresh air filter.

OUTSTANDING AGILITY

- ▶ With front-wheel steering, the **Global M3** handles like a car, moving in and out around parked vehicles with ease and agility.
- ▶ Unlike rear-wheel steering sweepers that have rolled-over onto their sides, the **Global M3** low center of gravity and front-wheel design provides greater stability.

EXCEPTIONAL VISIBILITY

- ▶ Increases operator and pedestrian safety.
- ▶ The **Global M3** offers the best operating visibility of any three wheel street sweeper on the market.
- ▶ Front-and-center cab location provides an unobstructed view of the street, curb and gutter brooms at all times.
- ▶ Maximum visibility means increased sweeping efficiency, better operator effectiveness and faster, safer sweeping performance.

COMFORT AND CONVENIENCE TO REDUCE OPERATOR FATIGUE

- ▶ Inside the **Global M3**, your operator is afforded every comfort and convenience to reduce fatigue and increase productivity.
- ▶ An ergonomically designed instrument panel and suspension seat provide superior ride comfort, resulting in reduced operator fatigue throughout the work day.
- ▶ The forward control cab, with over 3,800 square inches of tinted safety glass, gives the operator outstanding visibility.
- ▶ Fingertip controls activate climate zone features such as heater, defroster and air conditioning.
- ▶ Integral parabolic mirrors and side window defrosters make it easy for the operator to monitor the gutterbrooms in any weather.
- ▶ Plush interior is finished with sound absorbing upholstery and door trim so your operator can stay alert and avoid fatigue.

Global M3 OPTIONS

- ▶ All-Wheel Suspension
- ▶ Stainless Steel Hopper
- ▶ In-Cab Gutterbroom Tilt
- ▶ High-Performance Sweep Pack
- ▶ AM/FM/CD Stereo
- ▶ Air-Ride Seat
- ▶ Elevator Flusher
- ▶ Autolube
- ▶ PM-10 Water System for improved air quality.
