Description of Amendment:

a. This is to incorporate the following:

The following questions have been submitted by suppliers, this amendment is issued to incorporate clarifications and to share this information with all suppliers. The questions and subsequent answers are numbered and in bold type for clarity.

Question #1 - Can you please provide pictures and/or drawings for each of the items described / mentioned in the solicitation?

Answer #1 – We don't have pictures to share. Our school zone standard drawing is available at <http://www.okladot.state.ok.us/traffic/traffic2009/T-212-Regulatory%20and%20Warning%20Sign%20With%20Flashing%20Signal-RWSF1-1-01.pdf> but does not show the components in the controller cabinet box nor the solar panel. We expect manufacturers to have their own pictures and/or drawings.

Question #2 - Pg. 16 – Section H.1 – Is the “maintenance and repair “ for the items that will be newly provided from this bid only, or will it be for previous existing items(if any) provided and installed from a previous contract, as well? Is pricing for “maintenance and repair” to be included and provided separately, in addition to providing pricing for new parts or items?

FLASHING LED SIGNS
SW190685 – AMENDMENT TWO
PAGE TWO

Answer #2 - “Maintenance and repair” can be used for both, i.e. existing devices or new devices but need repair. No, pricing should be just for the new parts only and shall not include cost of maintenance and repair.

Question #3 - What are the quantities for each item in Attachment A, the State of Oklahoma is looking for, or anticipates on purchasing?

Answer #3 - [Hebret] This is a new idea and depends on availability of funding, thus it’s difficult to anticipate on quantities at this time.

Question #4 - Does the State of Oklahoma currently have any of the types of items mentioned in the solicitation installed? If so, which ones and what are the names and models of the items currently used in the State of Oklahoma?

Answer #4 - The parts listed are generic and should be easily understood by manufacturers and/or authorized distributors. We may have less than 5 school zones and/or crosswalks installed by the State using the existing contract. For models, please review existing *Flashing LED Signs* statewide
