Works for Business™

Connections that matter are only a call away.

UberConference is a flexible business conferencing solution offered by Sprint to enhance your G Suite experience by making collaboration simpler.

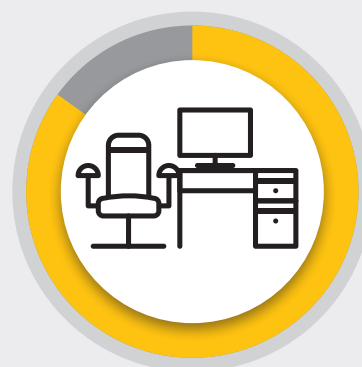

What is it?

UberConference is a professional, high-quality audio conferencing solution that extends Google Hangouts to up to 100 callers and has the ability to support stand-alone online meetings.

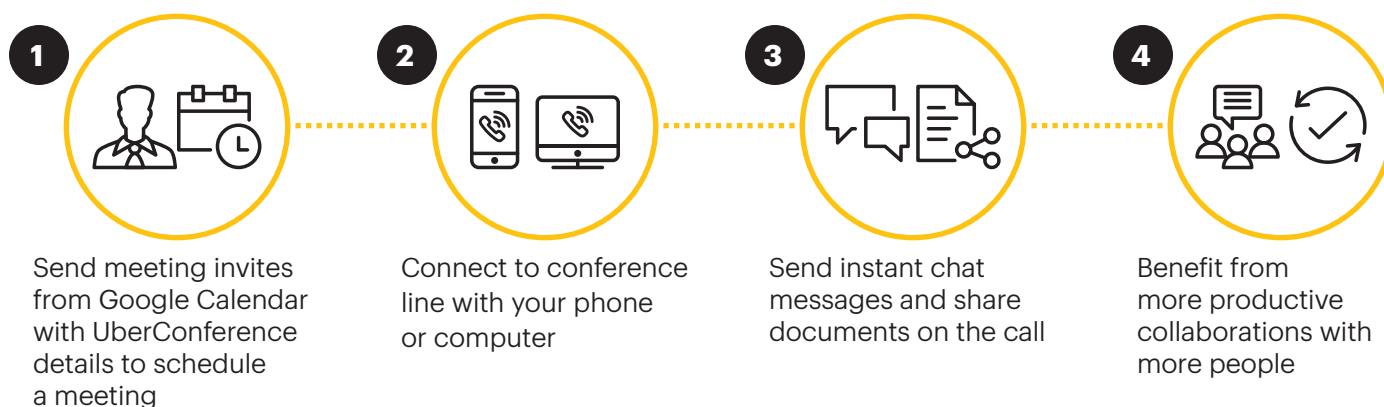

What's included?

- **Audio conferences:**
Extend Google Hangouts to have up to 100 dial-in participants
- **Web conferences:**
Enable users to call in to online meetings from desktop and mobile smart device
- **Conference control:**
Monitor loud background noise by muting disruptive callers
- **Document sharing:**
Display important documents on your screen
- **Text chat:**
Communicate with individual guests on the call
- **Automatic calling:**
Stay on-schedule by opting for UberConference to start your meeting
- **HD Audio:**
Experience high call quality and clarity available when joining UberConference from a web browser that fully supports WebRTC
- **Call Recording:**
Save conferences as MP3s for easy playback

84% of employees are reported to work away from their desks regularly*
