### Description of Amendment:

a. This is to incorporate the following:

**Q.1. C.5.2.** Installation combined with initial onsite operator training on method development and preventative maintenance must be included and must be a minimum of two (2) days.

For method development – is that how to set up a method on the instrument, or how to develop a new method?

**A.1.** Set up a method on the instrument.

**Q.2. C.5.3.** During installation the vendor must demonstrate operational qualification by validating the system performance.

Is this a request for compliance documentation for example, for the FDA or for whoever may be requiring compliance, or is this confirming the operation and system performance with checkout test sample verification?

**A.2.** Confirming the operation and system performance with checkout test sample verification.

b. All other terms and conditions remain unchanged.
