**Attn: Susan Kahle**

Dear Ms. Kahle,

Microsoft is pleased to submit this response to Solicitation 19512, Minnesota WSCA-NASPO Computer Equipment. We have carefully reviewed the RFP and its Amendments, and are confident we have developed a thorough and responsive bid. We look forward to continued discussion with WSCA-NASPO and the Lead State Minnesota on this important bid.

As of October, 2012, Microsoft added our Surface computing device to our broad portfolio of technology products and services that we provide to public sector customers. Since that time, we have sold tens of thousands of Surface devices to State/Local Government and Education (SLED) customers. We are very excited to have the opportunity to add Surface to the WSCA contract with discounted pricing to these customers.

Microsoft has a long history of success with SLED customers. Our technology solutions are being used, via special government pricing contracts, by more than 25,000 SLED customers. We have the marketing and contracting infrastructure to support this large customer base – infrastructure which will help us manage this WSCA hardware contract as well.

Microsoft is a partner-centric company. We have a global partner program that includes more than 500,000 partners; more than 95% of our SLED software business is managed by our channel partners. Microsoft does have significant internal capability to sell directly to SLED customers via Microsoft stores – this is the foundation of our proposal. We believe our partner community is unique in the SLED business, and will be a significant asset helping to make our WSCA hardware contract successful.

Microsoft supports WSCA contracts for SLED customers. Microsoft software and cloud services solutions are already available to SLED customers via WSCA contracts – through our partners. We have the experience to help ensure that WSCA contract requirements are met, reporting needs are addressed and we have the right communication channels in place to identify and resolve any issues with our customers.

On behalf of Microsoft's Public Sector organization, I respectfully submit this proposal.

Sincerely,

**Raamel Mitchell**

## 2.12 VPAT – Web Content Accessibility

Microsoft is an industry leader when it comes to accessibility and supports the government's obligation to provide accessible technologies to citizens with disabilities as required by Section 508 of the Rehabilitation Act of 1973, and its state law counterparts.

Microsoft has created an internal process known as Quality Essentials, which requires every product and website at Microsoft meet certain criteria standards before it is shipped or made available to the public. The Quality Essential process requires adherence to many things such as security, but also must meet Microsoft Accessibility Standards (MAS) which map directly to VPAT and WCAG standards.

Microsoft has incorporated industry accessibility standards & requirements into the Microsoft Accessibility Standards (MAS). MAS is the guiding set of requirements that will be applied to the websites developed or deployed as part of this RFP in order to meet WCAG 2.0 A and AA standards ("success criteria") as defined at <http://www.w3.org/TR/WCAG20>. The comments below indicate which of the 73 MAS contain the guidance to meet the respective WCAG 2.0 Success Criterion.

Microsoft will adhere to, and fully support, Level A and Level AA of the Web Content Accessibility Guidelines version 2.0. As stated in Section 3. D 8 on page 68 of the RFP, Microsoft will have 30 days after Master Agreement award to provide a sample URL of the Master Agreement webpage to the Lead State for review and approval. After award of a Master Agreement Microsoft will confirm which tools we will use and which the Lead State prefers. At that time Microsoft's offering will adhere to the WCAG 2.0 standards. Currently, the site is under development and we cannot articulate the confidential and proprietary details of how we will meet the standards as requested without the information being covered under a Non-Disclosure Agreement. However, Microsoft would be happy, under NDA, to share the specifics of the quality essentials and the MAS standards to the WSCA review committee if required.

Additionally, the Voluntary Product Accessibility Templates ("VPATs") for the Microsoft technologies used in providing the online services can be found at [Microsoft's VPAT page](#). Further information regarding Microsoft's commitment to accessibility can be found at [www.microsoft.com/enable](http://www.microsoft.com/enable).

## Principle 1 – Perceivability

Standard	Description	Apply Yes/No	Meets Yes/No	Comments (mandatory)
<i>Guideline 1.1 Text Alternatives: Provide text alternatives for any non-text content so that it can be changed into other forms people need, such as large print, braille, speech, symbols or simpler language.</i>				
1.1.1	<p>Non-text Content: All non-text content that is presented to the user has a text alternative that serves the equivalent purpose, except for the situations listed below (Level A).</p> <ul style="list-style-type: none"> <li>• Controls, Input: If non-text content is a control or accepts user input, then it has a name that describes its purpose. (Refer to Guideline 4.1 for additional requirements for controls and content that accepts user input.)</li> <li>• Time-Based Media: If non-text content is time-based media, then text alternatives at least provide descriptive identification of the non-text content. (Refer to Guideline 1.2 for the additional requirements for media.)</li> <li>• Test: If non-text content is a test or exercise that would be invalid if presented in text, then text alternatives at least provide descriptive identification of the non-text content.</li> <li>• Sensory: If non-text content is primarily intended to create a specific sensory experience, then text alternatives at least provide descriptive identification of the non-text content.</li> <li>• CAPTCHA: If the purpose of non-text content is to confirm that content is being accessed by a person rather than a computer, then text alternatives that identify and describe the purpose of the non-text content are provided, and alternative forms of CAPTCHA using output modes for different types of sensory perception are provided to accommodate different disabilities.</li> <li>• Decorative, Formatting, Invisible: If non-text content is pure decoration, is used only for visual formatting, or is not presented to users, then it is implemented in a way that it can be ignored by assistive technology.</li> </ul>	Yes	Yes	Met via WCAG Success Criterion which is incorporated into MAS 40 Programmatic Access

<i>Guideline 1.2 Time-based Media: Provide alternatives for time-based media.</i>				
1.2.1	<p>Audio-only and Video-only (Prerecorded): For prerecorded audio-only and prerecorded video-only media, the following are true, except when the audio or video is a media alternative for text and is clearly labeled as such (Level A):</p> <ul style="list-style-type: none"> <li>• Prerecorded Audio-only: An alternative for time-based media is provided that presents equivalent information for prerecorded audio-only content.</li> <li>• Prerecorded Video-only: Either an alternative for time-based media or an audio track is provided that presents equivalent information for prerecorded video-only content.</li> </ul>	Yes	Yes	Met via WCAG Success Criterion which is incorporated into MAS 63 Pre-Recorded Audio-Only Content

1.2.2	Captions (Prerecorded): Captions are provided for all prerecorded audio content in synchronized media, except when the media is a media alternative for text and is clearly labeled as such. (Level A)	Yes	Yes	Met via WCAG Success Criterion which is incorporated into MAS 62 Pre-Recorded Media Captioning and Audio Descriptions
1.2.3	Audio Description or Media Alternative (Prerecorded): An alternative for time-based media or audio description of the prerecorded video content is provided for synchronized media, except when the media is a media alternative for text and is clearly labeled as such. (Level A)	Yes	Yes	Met via WCAG Success Criterion which is incorporated into MAS 62 Pre-Recorded Media Captioning and Audio Descriptions
1.2.4	Captions (Live): Captions are provided for all live audio content in synchronized media. (Level AA)	Yes	Yes	Met via WCAG Success Criterion which is incorporated into MAS 64 Live Media Captioning
1.2.5	Audio Description (Prerecorded): Audio description is provided for all prerecorded video content in synchronized media. (Level AA)	Yes	Yes	Met via WCAG Success Criterion which is incorporated into MAS 62 Pre-Recorded Media Captioning and Audio Descriptions
1.2.6	Sign Language (Prerecorded): Sign language interpretation is provided for all prerecorded audio content in synchronized media. (Level AAA)	No	No	
1.2.7	Extended Audio Description (Prerecorded): Where pauses in foreground audio are insufficient to allow audio descriptions to convey the sense of the video, extended audio description is provided for all prerecorded video content in synchronized media. (Level AAA)	No	No	
1.2.8	Media Alternative (Prerecorded): An alternative for time-based media is provided for all prerecorded synchronized media and for all prerecorded video-only media. (Level AAA)	No	No	
1.2.9	Audio-only (Live): An alternative for time-based media that presents equivalent information for live audio-only content is provided. (Level AAA)	No	No	
<i>Guideline 1.3 Adaptable: Create content that can be presented in different ways (for example simpler layout) without losing information or structure.</i>				
1.3.1	Info and Relationships: Information, structure, and relationships conveyed through presentation can be programmatically determined or are available in text. (Level A)	Yes	Yes	Met via WCAG Success Criterion which is incorporated into MAS 40 Programmatic Access

1.3.2	Meaningful Sequence: When the sequence in which content is presented affects its meaning, a correct reading sequence can be programmatically determined. (Level A)	Yes	Yes	Met via WCAG Success Criterion which is incorporated into MAS 05 Visual Focus Indicator and Focus Order
1.3.3	Sensory Characteristics: Instructions provided for understanding and operating content do not rely solely on sensory characteristics of components such as shape, size, visual location, orientation, or sound. (Level A)	Yes	Yes	Met via WCAG Success Criterion which is incorporated into MAS 14 Sensory Indicators
<i>Guideline 1.4 Distinguishable: Make it easier for users to see and hear content including separating foreground from background.</i>				
1.4.1	Use of Color: Color is not used as the only visual means of conveying information, indicating an action, prompting a response, or distinguishing a visual element. (Level A)	Yes	Yes	Met via WCAG Success Criterion which is incorporated into MAS 16 Using Color
1.4.2	Audio Control: If any audio on a Web page plays automatically for more than 3 seconds, either a mechanism is available to pause or stop the audio, or a mechanism is available to control audio volume independently from the overall system volume level. (Level A)	Yes	Yes	Met via WCAG Success Criterion which is incorporated into MAS 12 Audio Auto-Play
1.4.3	Contrast (Minimum): The visual presentation of text and images of text has a contrast ratio of at least 4.5:1, except for the following: (Level AA) <ul style="list-style-type: none"> <li>• Large Text: Large-scale text and images of large-scale text have a contrast ratio of at least 3:1;</li> <li>• Incidental: Text or images of text that are part of an inactive user interface component, that are pure decoration, that are not visible to anyone, or that are part of a picture that contains significant other visual content, have no contrast requirement.</li> <li>• Logotypes: Text that is part of a logo or brand name has no minimum contrast requirement.</li> </ul>	Yes	Yes	Met via WCAG Success Criterion which is incorporated into MAS 17 Visible Text Contrast
1.4.4	Resize text: Except for captions and images of text, text can be resized without assistive technology up to 200 percent without loss of content or functionality. (Level AA)	Yes	Yes	Met via WCAG Success Criterion which is incorporated into MAS 13 Support for Accessibility User Settings
1.4.5	Images of Text: If the technologies being used can achieve the visual presentation, text is used to convey information rather than images of text except for the following: (Level AA) <ul style="list-style-type: none"> <li>• Customizable: The image of text can be visually customized to the user's requirements;</li> <li>• Essential: A particular presentation of text is essential to the information being conveyed.</li> </ul>	Yes	Yes	Met via WCAG Success Criterion which is incorporated into MAS 15 Images of Text

1.4.6	<p>Contrast (Enhanced): The visual presentation of text and images of text has a contrast ratio of at least 7:1, except for the following: (Level AAA)</p> <ul style="list-style-type: none"> <li>• Large Text: Large-scale text and images of large-scale text have a contrast ratio of at least 4.5:1;</li> <li>• Incidental: Text or images of text that are part of an inactive user interface component, that are pure decoration, that are not visible to anyone, or that are part of a picture that contains significant other visual content, have no contrast requirement.</li> <li>• Logotypes: Text that is part of a logo or brand name has no minimum contrast requirement.</li> </ul>	No	No	
1.4.7	<p>Low or No Background Audio: For prerecorded audio-only content that (1) contains primarily speech in the foreground, (2) is not an audio CAPTCHA or audio logo, and (3) is not vocalization intended to be primarily musical expression such as singing or rapping, at least one of the following is true: (Level AAA)</p> <ul style="list-style-type: none"> <li>• No Background: The audio does not contain background sounds.</li> <li>• Turn Off: The background sounds can be turned off.</li> <li>• 20 dB: The background sounds are at least 20 decibels lower than the foreground speech content, with the exception of occasional sounds that last for only one or two seconds.</li> </ul>	No	No	
1.4.8	<p>Visual Presentation: For the visual presentation of blocks of text, a mechanism is available to achieve the following: (Level AAA)</p> <ul style="list-style-type: none"> <li>• Foreground and background colors can be selected by the user.</li> <li>• Width is no more than 80 characters or glyphs (40 if CJK).</li> <li>• Text is not justified (aligned to both the left and the right margins).</li> <li>• Line spacing (leading) is at least space-and-a-half within paragraphs, and paragraph spacing is at least 1.5 times larger than the line spacing.</li> <li>• Text can be resized without assistive technology up to 200 percent in a way that does not require the user to scroll horizontally to read a line of text on a full-screen window.</li> </ul>	No	No	
1.4.9	<p>Images of Text (No Exception): Images of text are only used for pure decoration or where a particular presentation of text is essential to the information being conveyed. (Level AAA)</p>	No	No	

## Principle 2 – Operable

Standard	Description	Apply Yes/No	Meets Yes/No	Comments
<i>Guideline 2.1 Keyboard Accessible: Make all functionality available from a keyboard.</i>				
2.1.1	<p>Keyboard: All functionality of the content is operable through a keyboard interface without requiring specific timings for individual keystrokes, except where the underlying function requires input that depends on the path of the user's movement and not just the endpoints. (Level A)</p>	Yes	Yes	Met via WCAG Success Criterion which is incorporated into MAS 36 Keyboard Interfaces

2.1.2	No Keyboard Trap: If keyboard focus can be moved to a component of the page using a keyboard interface, then focus can be moved away from that component using only a keyboard interface, and, if it requires more than unmodified arrow or tab keys or other standard exit methods, the user is advised of the method for moving focus away. (Level A)	Yes	Yes	Met via WCAG Success Criterion which is incorporated into MAS 07 Focus Trapping
2.1.3	Keyboard (No Exception): All functionality of the content is operable through a keyboard interface without requiring specific timings for individual keystrokes. (Level AAA)	No	No	
<i>Guideline 2.2 Enough Time: Provide users enough time to read and use content.</i>				
2.2.1	Timing Adjustable: For each time limit that is set by the content, at least one of the following is true: (Level A) <ul style="list-style-type: none"> <li>• Turn off: The user is allowed to turn off the time limit before encountering it; or</li> <li>• Adjust: The user is allowed to adjust the time limit before encountering it over a wide range that is at least ten times the length of the default setting; or</li> <li>• Extend: The user is warned before time expires and given at least 20 seconds to extend the time limit with a simple action (for example, "press the space bar"), and the user is allowed to extend the time limit at least ten times; or</li> <li>• Real-time Exception: The time limit is a required part of a real-time event (for example, an auction), and no alternative to the time limit is possible; or</li> <li>• Essential Exception: The time limit is essential and extending it would invalidate the activity; or</li> <li>• 20 Hour Exception: The time limit is longer than 20 hours.</li> </ul>	Yes	Yes	Met via WCAG Success Criterion which is incorporated into MAS 10 Adjusting Time Limits
2.2.2	Pause, Stop, Hide: For moving, blinking, scrolling, or auto-updating information, all of the following are true: (Level A) <ul style="list-style-type: none"> <li>• Moving, blinking, scrolling: For any moving, blinking or scrolling information that (1) starts automatically, (2) lasts more than five seconds, and (3) is presented in parallel with other content, there is a mechanism for the user to pause, stop, or hide it unless the movement, blinking, or scrolling is part of an activity where it is essential; and</li> <li>• Auto-updating: For any auto-updating information that (1) starts automatically and (2) is presented in parallel with other content, there is a mechanism for the user to pause, stop, or hide it or to control the frequency of the update unless the auto-updating is part of an activity where it is essential.</li> </ul>	Yes	Yes	Met via WCAG Success Criterion which is incorporated into MAS 11 Auto-Update and MAS 09 Animated Content
2.2.3	No Timing: Timing is not an essential part of the event or activity presented by the content, except for non-interactive synchronized media and real-time events. (Level AAA)	No	No	
2.2.4	Interruptions: Interruptions can be postponed or suppressed by the user, except interruptions involving an emergency. (Level AAA)	No	No	
2.2.5	Interruptions: Interruptions can be postponed or suppressed by the user, except interruptions involving an emergency. (Level AAA)	No	No	
<i>Guideline 2.3 Seizures: Do not design content in a way that is known to cause seizures.</i>				
2.3.1	Three Flashes or Below Threshold: Web pages do not contain anything that flashes more than three times in any one second period, or the flash is below the general flash and red flash thresholds. (Level A)	Yes	Yes	Met via WCAG Success Criterion which is incorporated into MAS 08 Seizures

2.3.2	Three Flashes: Web pages do not contain anything that flashes more than three times in any one second period. (Level AAA)	No	No	
<i>Guideline 2.4 Navigable: Provide ways to help users navigate, find content, and determine where they are.</i>				
2.4.1	Bypass Blocks: A mechanism is available to bypass blocks of content that are repeated on multiple Web pages. (Level A)	Yes	Yes	Met via WCAG Success Criterion which is incorporated into MAS 27 Efficient Navigation and Interaction
2.4.2	Page Titled: Web pages have titles that describe topic or purpose. (Level A)	Yes	Yes	Met via WCAG Success Criterion which is incorporated into MAS 20 Describing Content, Controls, or Links
2.4.3	Focus Order: If a Web page can be navigated sequentially and the navigation sequences affect meaning or operation, focusable components receive focus in an order that preserves meaning and operability. (Level A)	Yes	Yes	Met via WCAG Success Criterion which is incorporated into MAS 05 Visual Focus Indicator and Focus Order
2.4.4	Link Purpose (In Context): The purpose of each link can be determined from the link text alone or from the link text together with its programmatically determined link context, except where the purpose of the link would be ambiguous to users in general. (Level A)	Yes	Yes	Met via WCAG Success Criterion which is incorporated into MAS 20 Describing Content, Controls, or Links
2.4.5	Multiple Ways: More than one way is available to locate a Web page within a set of Web pages except where the Web Page is the result of, or a step in, a process. (Level AA)	Yes	Yes	Met via WCAG Success Criterion which is incorporated into MAS 27 Efficient Navigation and Interaction
2.4.6	Headings and Labels: Headings and labels describe topic or purpose. (Level AA)	Yes	Yes	Met via WCAG Success Criterion which is incorporated into MAS 20 Describing Content, Controls, or Links

2.4.7	Focus Visible: Any keyboard operable user interface has a mode of operation where the keyboard focus indicator is visible. (Level AA)	Yes	Yes	Met via WCAG Success Criterion which is incorporated into MAS 05 Visual Focus Indicator and Focus Order
2.4.8	Location: Information about the user's location within a set of Web pages is available. (Level AAA)	No	No	
2.4.9	Link Purpose (Link Only): A mechanism is available to allow the purpose of each link to be identified from link text alone, except where the purpose of the link would be ambiguous to users in general. (Level AAA)	No	No	
2.4.10	Section Headings: Section headings are used to organize the content. (Level AAA)	No	No	

## Principle 3 – Understandable

Standard	Description	Apply Yes/No	Meets Yes/No	Comments
<i>Guideline 3.1 Readable: Make text content readable and understandable.</i>				
3.1.1	Language of Page: The default human language of each Web page can be programmatically determined. (Level A)	Yes	Yes	Met via WCAG Success Criterion which is incorporated into MAS 41 Language of Content
3.1.2	Language of Parts: The human language of each passage or phrase in the content can be programmatically determined except for proper names, technical terms, words of indeterminate language, and words or phrases that have become part of the vernacular of the immediately surrounding text. (Level AA)	Yes	Yes	Met via WCAG Success Criterion which is incorporated into MAS 41 Language of Content
3.1.3	Unusual Words: A mechanism is available for identifying specific definitions of words or phrases used in an unusual or restricted way, including idioms and jargon. (Level AAA)	No	No	
3.1.4	Abbreviations: A mechanism for identifying the expanded form or meaning of abbreviations is available. (Level AAA)	No	No	
3.1.5	Reading Level: When text requires reading ability more advanced than the lower secondary education level after removal of proper names and titles, supplemental content, or a version that does not require reading ability more advanced than the lower secondary education level, is available. (Level AAA)	No	No	
3.1.6	Pronunciation: A mechanism is available for identifying specific pronunciation of words where meaning of the words, in context, is ambiguous without knowing the pronunciation. (Level AAA)	No	No	

<i>Guideline 3.2 Predictable: Make Web pages appear and operate in predictable ways.</i>				
3.2.1	On Focus: When any component receives focus, it does not initiate a change of context. (Level A)	Yes	Yes	Met via WCAG Success Criterion which is incorporated into MAS 06 Focus Handling
3.2.2	On Input: Changing the setting of any user interface component does not automatically cause a change of context unless the user has been advised of the behavior before using the component. (Level A)	Yes	Yes	Met via WCAG Success Criterion which is incorporated into MAS 21 Change of Context
3.2.3	Consistent Navigation: Navigational mechanisms that are repeated on multiple Web pages within a set of Web pages occur in the same relative order each time they are repeated, unless a change is initiated by the user. (Level AA)	Yes	Yes	Met via WCAG Success Criterion which is incorporated into MAS 26 Consistent Navigation
3.2.4	Consistent Identification: Components that have the same functionality within a set of Web pages are identified consistently. (Level AA)	Yes	Yes	Met via WCAG Success Criterion which is incorporated into MAS 25 Consistent UI
3.2.5	Change on Request: Changes of context are initiated only by user request or a mechanism is available to turn off such changes. (Level AAA)	No	No	
<i>Guideline 3.3 Input Assistance: Help users avoid and correct mistakes.</i>				
3.3.1	Error Identification: If an input error is automatically detected, the item that is in error is identified and the error is described to the user in text. (Level A)	Yes	Yes	Met via WCAG Success Criterion which is incorporated into MAS 22 Correcting Input Errors
3.3.2	Labels or Instructions: Labels or instructions are provided when content requires user input. (Level A)	Yes	Yes	Met via WCAG Success Criterion which is incorporated into MAS 19 User Input Instructions
3.3.3	Error Suggestion: If an input error is automatically detected and suggestions for correction are known, then the suggestions are provided to the user, unless it would jeopardize the security or purpose of the content. (Level AA)	Yes	Yes	Met via WCAG Success Criterion which is incorporated into MAS 22 Correcting Input Errors

3.3.4	Error Prevention (Legal, Financial, Data): For Web pages that cause legal commitments or financial transactions for the user to occur, that modify or delete user-controllable data in data storage systems, or that submit user test responses, at least one of the following is true: (Level AA) <ul style="list-style-type: none"> <li>• Reversible: Submissions are reversible.</li> <li>• Checked: Data entered by the user is checked for input errors and the user is provided an opportunity to correct them.</li> <li>• Confirmed: A mechanism is available for reviewing, confirming, and correcting information before finalizing the submission.</li> </ul>	Yes	Yes	Met via WCAG Success Criterion which is incorporated into MAS 23 Input Error Prevention for Services
3.3.5	Help: Context-sensitive help is available. (Level AAA)	No	No	
3.3.6	Error Prevention (All): For Web pages that require the user to submit information, at least one of the following is true: (Level AAA) <ul style="list-style-type: none"> <li>• Reversible: Submissions are reversible.</li> <li>• Checked: Data entered by the user is checked for input errors and the user is provided an opportunity to correct them.</li> <li>• Confirmed: A mechanism is available for reviewing, confirming, and correcting information before finalizing the submission.</li> </ul>	No	No	

## Principle 4 – Robust

Standard	Description	Apply Yes/No	Meets Yes/No	Comments
<i>Guideline 4.1 Compatible: Maximize compatibility with current and future user agents, including assistive technologies.</i>				
4.1.1	Parsing: In content implemented using markup languages, elements have complete start and end tags, elements are nested according to their specifications, elements do not contain duplicate attributes, and any IDs are unique, except where the specifications allow these features. (Level A)	Yes	Yes	Met via WCAG Success Criterion which is incorporated into MAS 40 Programmatic Access

In addition, Microsoft randomly selects 1 order per business week (Saturday – Friday) to audit.</i></p> <p><i>For each audit order, a resource from the contracts audit group (referred to as the “actuals auditor”) follows a detailed process of computing the price charged to the customer, identifying the list price at time of order placement, computing the discount percentage, and documenting the audit using the contract pricing audit report form. Concurrent to the initial discovery and documentation process, a separate auditor (referred to as the “contracts auditor) does an independent manual review of the purchaser details to determine precisely which Master Agreement is relevant. Following determination of the applicable Master Agreement, the contracts auditor reviews the pricing schedule for that specific agreement and order quantity to determine the correct discount percentage. Finally, the results of the actuals and contracts auditor are compared by a third auditor (referred to as the “select auditor”) to confirm that the findings of the independent actuals and contracts auditors are consistent. All results are documented by the select auditor for final reporting to the WSCA administrators.</i></p> <p><i>In the unlikely event that there is a mismatch in the findings of the two audit streams, the audit is repeated by new resources in all three roles. The ability to provide electronic funds transfer and/or a seamless electronic interface to governmental accounting systems should be thoroughly described.</p> <p><i>Microsoft recognizes that the WSCA members will need secure, easy-to-use, and reliable solutions for executing orders online. The WSCA members will need to be able to purchase using both purchase orders and purchase cards using the WSCA Portal powered by Microsoft 24x7 365 days per year. The capabilities for accepting both will be managed to high service availability levels (minimum 99.9% uptime). Automated monitoring of these capabilities is included in the overall site management and operations plan. In addition to the technical and capability availability monitoring, the WSCA portal will be supported by a business desk customer service team who can assist with usage and support questions.</i></p> <p><i>The purchase order process is initiated by an Experian driven credit check process for all new accounts. Once accounts are verified using this real-time approval process, they are authorized for a specified amount of credit. Purchase orders (POs) can be submitted using the online purchase order submission process. Once submitted, PO requests (PORs) will be reviewed (service level 2 business hours or less) and then authorized. Authorized Purchase orders will appear in the accounts payment method lists and can be used to tender orders until depleted at which point a new PO must be submitted for review and processing. Orders submitted on purchase order will be invoiced upon shipment of product from Microsoft operated distribution facilities. Microsoft Invoice Exchange (MSIE) will submit electronic invoices using the prescribed format, timing, and method for the WSCA participant based on their state or jurisdiction (if special rules exist for their nexus). Payments may be made for such invoices using EFT, wire, check, or payment card. All payments are managed using Payment Card Industry (PCI) grade standards for information management, privacy, and security.</i></p> <p><i>Online purchases using payment cards are managed using existing Microsoft payment gateway and processes. These processes meet the highest level Payment Card Industry (PCI) compliant standards. Payment cards are authorized (funds are marked as held for the purchase) upon completion of the order transaction. Funds are captured using the payment cards upon shipment of contents of the order. Partial shipments result in partial capture pending the rest of the shipment when the remaining capture occurs. Any returns or other refunds are made back to the same payment cards referencing the original transaction.</i></p> <p><i>Detailed transaction level reporting is available through the WSCA Portal powered by Microsoft. **Attn: Susan Kahle**

Dear Ms. Kahle,

Microsoft is pleased to submit this Cost Proposal response to Solicitation 19512, Minnesota WSCA-NASPO Computer Equipment. We are excited about the opportunity to participate in this important master contract. We strived to put together a price proposal that brings great value to our government and education customers.

We have carefully reviewed the RFP and its Amendments, and are confident we have developed a thorough and responsive bid. We look forward to continued discussion with WSCA-NASPO and the Lead State Minnesota on this important bid.

On behalf of Microsoft's Public Sector organization, I respectfully submit this proposal.

Sincerely,

**Raamel Mitchell**

# 4 Cost Proposal

	<b>COST PROPOSAL</b>	<b>M = MANDATORY</b>	<b>MEETS UNDERSTAND &amp; WILL COMPLY?</b>
1	<p><b>PRICE STRUCTURE.</b> This RFP will employ a MINIMUM discount-off list price structure, with categorized exceptions for each band. It is understood there may be categories within a band which carry a different discount than the minimum stated. For example, the minimum discount for the laptop band could be 50%. The responder may name an additional category of laptops "Laptop Brand X" at 45% and "Laptop Brand Y" at 60%. Responder may categorize these exceptions by naming as categories and identifying the associated discounts in the price workbook. These discounts must remain firm, or the discount may be increased, during the term of the Master Agreement. This minimum discount and categorized exceptions will be applied to all "quantity one" procurements. It will also serve as verification for the WSCA Master Agreement Administrator upon submittals of product additions. An end user will be able to verify pricing using the base line price list and the minimum discounts with the categorized exceptions provided. The responder must designate a "Base Line Price List e.g. MSRP, education price list. The price list submitted must be dated: November 15, 2013. A discount schedule is to be provided for each band in the Price Workbook. Responders may define additional categories within a band. The category discounts may be higher or lower than the than the band discount. Responder must describe all available options for pricing services in the Price Workbooks such as discount off list, hourly fees, per unit fees, etc.</p> <p><i>Microsoft has proposed a minimum discount-off list price structure. Please refer to the Product and Service Schedule in Section 5 and Pricing Workbooks in Section 6 of this document for the discount schedules and available options for pricing services in the Laptop band and Tablet band respectively.</i></p>	M	YES <input checked="" type="checkbox"/> NO <input type="checkbox"/>
2	<p><b>PRICE WORKBOOKS.</b> Price Workbooks will be used to evaluate. Responders will be evaluated on the Price Workbook which includes a market basket for each band. For each band proposed, the Responder must complete the Price Workbook which includes several worksheets. The market basket includes selected configurations, services, peripherals, third party products to fairly evaluate discounted pricing.</p> <p>The Contract Vendor will maintain the discount structure as bid throughout the term of the Master Agreement.</p> <p>For the purpose of comparing pricing across a standard group of products, the prices provided by the responder in the Price Workbooks will be utilized to calculate cost points. Vendors must use the minimum percentage discount stated from a published or base line price listing for a "<b>quantity one</b>" purchase in the Pricing Workbook.</p> <p>Minimum specifications are provided in the PriceWorkbook.</p> <p>Manufacturer specific items may be substituted for the minimum specification if the manufacturer is able to provide an approved equal. The responder must provide ONE HARD COPY and ONE ELECTRONIC COPY (USB DRIVE OR CD) of the dated Baseline Price List with the response. The dated Baseline Price List provided shall be used for completing the price workbook when "List/MSRP" price is requested.</p> <p><b>Base Line Price of MSRP</b> <i>Microsoft has included Base Line MSRP below, dated November 15, 2013.</i></p> <p><i>(For embedded Workbook, please see after Section 6 for printed hard copy)</i></p>  <p>Baseline MSRP Price List for WSCA_Nover</p> <p><i>Upon award and in fulfillment of the Master Agreement, Microsoft will include dated versions of the Product and Service Schedule in the Microsoft WSCA specific website for access by end users, contract administrators and other approved individuals with the approved access rights.</i></p>	M	
4	<p><b>MINIMUM DISCOUNTS.</b> The Contract Vendor will provide a <b>MINIMUM</b> discount off base line price list for each band with categorized exceptions. It is understood there may be categories within a band which carry a different discount than the minimum stated. For example, the minimum discount for the laptop band could be 50%. The responder may name an additional category of laptops "Laptop Brand X" at 45% and "Laptop Brand Y" at 60%. Responder may categorize these exceptions by naming as categories and identifying the associated discounts in the price workbook. These discounts must remain firm, or the discount may be increased, during the term of the Master Agreement. This minimum discount and categorized exceptions will be applied to all "quantity one" procurements. It will also serve as verification for the WSCA Master Agreement Administrator upon submittals of product additions. An end user will be able to verify pricing using the base line price list and the minimum discounts with the categorized exceptions provided. The named category exception discounts may be higher or lower than the than the minimum band discount. These discounts must remain firm, or the discount may be increased, during the term of the Master Agreement. This minimum discount and categorized exceptions will be applied to all "quantity one" procurements. 	<i>Microsoft has provided a MINIMUM discount off base line price list for the Laptop band and the Tablet band.</i>		
5	<p><b>THIRD PARTY PRODUCTS.</b> Third party products may be offered as peripherals and options in the Price Workbook. Third Party products will be approved upon finalization of the PSS. Contract Vendors are not able to offer another Contract Vendor's product as a third party without approval. If third party products are offered, a third party product minimum discount will be stated in the price workbook.</p> <p><i>At this time, Microsoft will not be offering third party products.</i></p>		YES <input checked="" type="checkbox"/> NO <input type="checkbox"/>
6	<p><b>REFRESH STRATEGY.</b> Describe your recommended refresh strategy for your product line.</p> <p><i>When available and in line with the applicable WSCA processes, Microsoft will continue to add new Surface products and services to the WSCA contract. Microsoft recently released the second generation of our Surface products.</i></p>		YES <input checked="" type="checkbox"/> NO <input type="checkbox"/>
7	<p><b>MAINTAINING COMPETITIVE PRICING.</b> Proposers will provide an initial <b>MINIMUM</b> discount with categorized exceptions off baseline price list for a quantity of one unit. Proposers are to base discounts on the collective volume of potential purchases by the participating entities. Further bulk/quantity savings may be obtained when additional quantities are requested. In order to maintain competitive pricing throughout the full life of the Master Agreement, Contract Vendor and Participating entities must understand it is the expectation to provide competitive pricing at the quantity one level. Additional savings are expected when recompeting the awarded vendors for volume pricing.</p> <p><i>Microsoft understands and supports this requirement. Our cost proposal has been prepared in accordance with this term.</i></p>	M	YES <input checked="" type="checkbox"/> NO <input type="checkbox"/>
8	<p><b>PRODUCTS AND SERVICES SCHEDULE (PSS).</b> Responders must submit with their <b>COST proposal a proposed Product and Services Schedule including all the products and services offered within each band for this solicitation.</b> The PSS should be submitted in Excel format. A sample has been provided in the attachments for reference, but is only an example. Other formats are acceptable. Submission of a product and/or service on the sample PSS does not guarantee that it will automatically be approved as being included in the resulting Master Agreement. The products, services and format for the final PSS will be finalized during negotiations.</p> <p><i>Please refer to Section 5 'Proposed Product and Services Schedule' of this document for the sample Product and Services Schedule for the Laptop band and the Tablet band respectively.</i></p>	M	YES <input checked="" type="checkbox"/> NO <input type="checkbox"/>

	<b>COST PROPOSAL</b>	<b>M = MANDATORY</b>	<b>MEETS UNDERSTAND &amp; WILL COMPLY?</b>
9	<p><b>BULK PRICING.</b> Utilize the Price Workbook to provide additional volume based pricing for consideration. These will allow for deeper discounts for per transaction and cumulative volume purchases. Examples of bulk pricing models are included in Section 6. Responders must propose how they will provide deeper discount including, but not limited to:</p> <p><b>1. Per Transaction Multiple Unit Discount.</b> Responders may propose a contractual volume discount program or plan based on dollars in a single purchase order or combination of purchase orders submitted at one time by a Participating Entity or multiple entities conducting a cooperative purchase. Include a table indicating the additional discount percentage to be earned by volume purchased at one time.</p> <p><b>2. Cumulative.</b> Responders may propose a cumulative volume discount based on dollars resulting from the cumulative purchases by all governmental purchasers for the duration of their Master Agreement. Include a table indicating the additional discount percentage to be earned by cumulative volume purchased.</p> <p><b>3. Other Discounts</b> Describe additional discounts available to States or Participating Entities.</p> <p><i>Microsoft will provide additional volume-based pricing discounts to States and Participating Entities whose purchase qualifies on a per transaction multiple unit basis. The discount program is based on the number of device units of a single SKU purchased in a single purchase order, p-card, or credit card transaction. The additional discount percentage to be earned begins at five (5) device units of a single SKU. In addition to the provided bulk pricing discount, Microsoft plans to offer product and service promotions throughout the year which will have special pricing and additional discounts beyond the per transaction multiple unit basis pricing discount.</i></p>	M	YES <input checked="" type="checkbox"/> NO <input type="checkbox"/>
10	<p><b>PREMIUM SAVINGS PACKAGE PROGRAM.</b> Contract Vendors are encouraged to participate in the Premium Savings Package (PSP) Program. If intending to participate, propose and describe commitment to offer and maintain deeply discounted standard configurations. Participants in the PSP program will commit to maintain and upgrade (keep pace with the advance of technology) the standard configurations for a stated period of time or intervals, as determined by the Participating Entities. The standards currently are refreshed every six months (May and November). Refresh schedule is subject to change. See current configurations: <a href="http://www.wnpsp.com/index.html">http://www.wnpsp.com/index.html</a>.
