Statement of Warranty – Equipment

The JonesZylon Company, LLC. (Seller) warrants to the original purchaser, subject to the exceptions and conditions below, that JZ equipment shall be free from defects in material or factory workmanship, under ordinary use for the purpose for which it is designed. The effective warranty period is as follows:

PARTS: Seller will furnish without charge to the original purchaser, FOB Sellers' factory, replacement parts for repairs to all new standard catalog products and factory custom /modified units, which in Seller's sole judgement, prove defective in materials or workmanship under normal and proper use with the reserved right to request the return of any part claimed to be defective, prior to issuing replacement part or authorizing warranty service, for a period of one (1) year from date of original shipment from Seller's plant.

LABOR: Seller's labor warranty shall be performed by a Seller-approved Service Agency who must contact Seller to obtain a Warranty Service Authorization (WSA) number prior to performing any repairs. If service is required during overtime periods, the difference between overtime and standard labor rates shall be paid by the purchaser. Seller does not assume any responsibility for any charges not expressly authorized, incidental to the repair or replacement of equipment covered by this warranty, nor charges exceeding, in Sellers sole judgement, normal and customary amounts. Only approved travel charges will be allowed. Seller's labor warranty shall be from the date of original shipment date from Seller's plant for a period of one (1) year.

This warranty is for normal usage and does not apply to any product or parts thereof that have been misused, altered, or where Seller's operating instructions or specific voltage is not observed; nor shall this warranty apply to defective products or parts resulting from accident following date of original shipment, nor extend to or cover removal, installation, reinstallation or calibration, or service calls or cost of repairs undertaken by a customer. This warranty is also subject to the following:

1. Check for shipping damage before the carrier leaves your facility. If damage is discovered or a shortage is found, note this on the bill of lading (all copies) prior to signing. Save all packaging material in the event of damage.
2. Giving immediate notice of any allegedly defective part or product to Seller; and
3. Customer, at Sellers request, returning said defective parts or product to Seller.

This is the sole warranty applicable to the merchandise. It is expressly understood that Seller's liability hereunder is limited to the repair or replacement, at Seller's option, of products or parts, defective materials or workmanship as provided above. Seller's judgement as to the cause and nature of any defect will be final. Seller shall in no case be responsible for special or con-sequential damages or any other obligation or liability with respect to products sold by Seller.

This warranty, as stated above, applies to equipment installed in the Continental United States. JZ equipment installed outside the Continental United States shall carry 100% parts coverage. All labor costs are approved on a discretionary basis, based on like repairs in the Continental U.S. This warranty shall stand in whole or in part as allowed by law. Any exclusion of a part of this warranty, as may be allowed by law, shall not void balance of warranty.

This is a limited warranty pursuant to the Consumer Product Warranties Act, 15 U.S. Code. section 2303.

TERMS AND CONDITIONS OF SALE
(Revised October 2017)

1. Payment Terms: We accept MasterCard and Visa. For customers with an account with our company, terms are net 30.
2. Prices do not include federal, state, or local taxes or duties. These additional charges will be added to your invoice or included in pricing, unless an exemption certificate is provided.
3. All prices are subject to change without notice. Price at time of order will be honored until delivery of that order. We reserve the right to change or discontinue the color or design of any item in this catalog without notice at any time.
4. Minimum order for dinnerware and kits is one full case to one destination.
5. A tax exemption certificate must accompany the initial order for a new customer, if applicable.
6. a) All metal (stainless steel and aluminum etc...) equipment is FOB destination within CONUS.
b) All plastic dinnerware is FOB destination within CONUS.
7. Any extra shipping charges incurred because of a customer's request will be the responsibility of the customer (e.g. Lift gate service, Next Day Air, 2nd Day Air, etc.).
8. Orders requiring Next Day Air or 2nd Day delivery must be placed before 12:00 noon and cannot be guaranteed.
9. Thoroughly inspect all shipments as soon as received. Do not accept any shipments that are short or damaged until the freight agent makes a notation on your freight bill. Buyer will be responsible for all shipments with freight bill signed free and clear. If concealed loss or damage is discovered, notify our Customer Service Department immediately for inspection. This is absolutely necessary. We are not responsible for loss or damage and cannot issue credit when you sign a clear freight bill.
10. No merchandise will be returned without authorization. To receive authorization, call 1-800-848-8160 and request a return authorization from Customer Service. Merchandise returned without authorization will be refused and returned to the customer at your expense. On authorized returns there will be a restocking fee of 20%. Requests for returns of merchandise beyond 90 days from original shipping date or merchandise for exchange must be submitted for evaluation by the Sales Department on an individual basis.

Customer Service Program

JonesZylon has been selling correctional dinnerware items, to include trays/lids, dinnerware, and flatware for 18 years. Then the offering was expanded to include full meal delivery systems by adding drying racks, pan racks, and heated/refrigerated equipment for a little over the last 10 years.

The organization has 8 direct employees. Two customer service representatives with 19 years and 5 years of experience, one warehouse manager with 43 years of experience, two sales people with 13 and 21 years of experience, the CEO and President with 5 years of experience and a bookkeeper with 5 years experience. The business is also supported with two manufactures reps with 40 years of experience and 5 years of experience and a consultant specifically for the Federal Bureau of Prisons with about 40 years of experience.

The development of the dinnerware line of products came with an acquisition of an injection molder that manufactured these types products for the healthcare market. The line was expanded to include many more variations of dinnerware products and a GSA contract was established. Since the beginning of that contract, there have been many new products developed. While in the government facilities, customer needs were identified for meal delivery equipment to compliment the dinnerware offering. That product offering was established and new improved products introduced many times throughout the last ten years. At this point, JonesZylon is the primary provider of our type of equipment to the BOP and recognized for our industry leadership position.

The company is managed by the co-owners – Tracey Zachrich, CEO and Robert Zachrich, President. Tracey oversees the back office support to include, HR, accounting, purchasing, office management, inventory and pricing. Robert is responsible for sales and marketing, technical support, quality, new product development and vendor relations. The financials are managed with an EPR software package called Great Plains. Tracey provides monthly statements and conducts all of the banking and an independent firm provides audited financials on an annual basis.

All of the dinnerware items (trays/lids, flatware and other dinnerware) are produced off of company owned injection mold tooling. The manufacturing is outsourced to a custom molder that has been doing a good job for over 13 years. If necessary, there are many alternative custom injection molders to move the tools to if a new supplier is needed. The carts are outsourced to an industry leading aluminum fabricator using JonesZylon proprietary designs. The equipment is outsourced to an industry leading food warming equipment manufacturer using JonesZylon proprietary designs. The company utilizes a 15,000 sq ft warehouse to hold inventory in sufficient quantities to meet lead times.

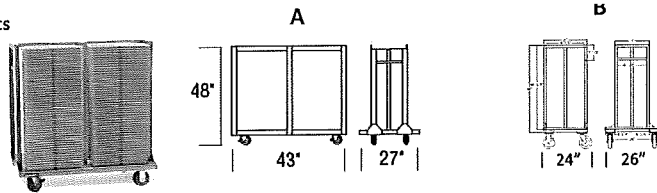

JonesZylon's sales team makes direct sales calls to clients to get first-hand information on their needs. In addition, we provide periodic product updates and promotions via e-mail and snail mail. Also, JonesZylon participates in various trade shows.
