In the event of a delay in equipment or vehicle availability, technicians will notify the Orbital Project Manager immediately, so a resolution that will quickly restore productivity can be discussed with Oklahoma Customer, AssetWorks project personnel immediately. All delays are categorized by cause so the responsible party (Orbital, Oklahoma Customer, AssetWorks) can be held accountable and subject to delay costs.

Per project request Orbital will responsibly recycle the old equipment being removed and replaced with the new Geotab fleet tracking AVL system. Recycling will be done via an approved responsible electronics recycling company in Oklahoma.
