KEY DEFINITIONS

Throughout this Contract, the following key terms are defined below.

Automatic Product Substitution - An order fulfillment process whereby Products that are not available at the time of order placement, may be automatically substituted with another equivalent (brand, generic or private label) Product substitute, contingent upon written consent by the ordering MMCAP Member.

Commencement Date - The date the Vendor is fully operational and ready to accept and ship orders from MMCAP Members as applicable to the service area designated in the Contract.

Confirmation Printback/Order Confirmation - An electronic confirmation report generated from the Vendor's ordering system, which is sent back electronically to the ordering facility, indicating that the requested Products are available, on Manufacturer Backorder, out of stock, or deleted, etc.

Core Products - Products determined by MMCAP that produced the highest volume in sales, and highest quantity shipped during a given one (1) calendar year period. These Products are identified in *Attachment A, Products Pricing*, under the *Brand Label Core Products* and *Private Label Core Products* tabs.

Drop Shipment(s) - Products ordered by MMCAP Member through the Vendor, and shipped directly to the MMCAP Participating Facilities, from the Manufacturer. The Manufacturer notifies and bills the Vendor, who then invoices and receives payment from the MMCAP Member.

Effective Date - The date the Contract is fully executed.

Emergency Product Delivery - An off-schedule delivery of the Products required by the MMCAP Participating Facilities, which may include orders of Product for patient-specific medical treatment, or to ensure the facility has sufficient Product to remain operational until the next-scheduled delivery day.

List Price - Vendor's internal (non-published) Government List Price which is a price for commercial items that are sold in substantial quantities to various Federal, state and local Government entities. Importantly, Vendor's Internal Government List Price reflects market and Manufacturer price adjustments (increases or decreases) for items sold to both Government and Commercial Customers so the list price provided to MMCAP will reflect changes in the marketplace.

Manufacturer: Any supplier, of medical Products (including Medical Equipment), who has a contract to supply the Vendor with Products, purchased by MMCAP Members.

Manufacturer Backorder(s) (MBO) - An order placed by the Member or Vendor to a Manufacturer or Supplier, which is not shipped to the Vendor or Member, due to industry wide shortages or other supply issues.

Medical Equipment – The following definition, as provided by the Association for the Advancement of Medical Instrumentation, expands on the FDA definition, and clarifies what “Medical Equipment” is in the United States, and in this Agreement. This definition applies to instruments and software as supplied by industry Manufacturers, once such products have been cleared by the FDA.

“Medical devices that have been cleared by the FDA, that are intended to be used for diagnostic, therapeutic, or monitoring care, provided to a patient by a health care organization.

**STATE OF MINNESOTA
DEPARTMENT OF ADMINISTRATION
MINNESOTA MULTISTATE CONTRACTING ALLIANCE FOR PHARMACY**

This contract is between the State of Minnesota, acting through its Commissioner of Administration on behalf of the Minnesota Multistate Contracting Alliance for Pharmacy (“MMCAP”) and McKesson Medical-Surgical Inc., located at 9954 Mayland Drive, Suite 4000, Richmond, VA 23233, McKesson Medical-Surgical Minnesota Supply Inc., located at 8121 10th Avenue North, Golden Valley, MN 55427, and Moore Medical, LLC, located at 1690 New Britain Ave., Farmington, CT 06032 (collectively, “Vendor” or “Contractor”).

ARTICLE 1: RECITALS

2.2. Member Participation Agreements (MPAs)

In order to access this Contract some Members require jurisdiction-specific additional paperwork or contract language. Vendor must not sign any Member documents without prior MMCAP review and approval. If needed, MMCAP will issue a Member-requested Participation Agreement (MPA) that will be amended into to this Contract. No other mechanism of modifying or “attaching to” MMCAP contracts is authorized. The MPA, which will only apply to the requesting Member and must be signed in the following order: Member, Vendor, then MMCAP. Vendor is not required to agree to any additional

McKesson Medical-Surgical Contract MMCAP MMS18000

terms; however, by not agreeing to the MPA Vendor may be precluded from doing business with that Member. In the event a Member requires a fee be added to the Contract price (e.g., Member levied procurement fee or system use fee), that fee must be added on top of the MMCAP-contracted pricing. Vendor may not absorb the fee. Vendor must not pay a Member levied fee without first collecting the fee through increased Product costs. The fees will be set aside and paid to the Member as would be detailed in an MPA.

Except as provided in a Member-Requested Participation Agreement (MPA) approved by MMCAP and executed by an MMCAP Member, Vendor and MMCAP, all orders placed by MMCAP Members with Vendor will be priced and offered by Vendor per the terms and conditions of this Contract, and no other terms provided by the MMCAP Member will apply to such orders.

For each state requiring state specific language, a further Exhibit shall be attached to *Attachment C: MMCAP Member Participation Agreements*.

2.2.1. Should any of the terms set forth in any attachment conflict with any terms set forth in the Contract document, the terms of the Contract document shall prevail, except when such conflict arises from the state-specific terms set forth in *Attachment C: MMCAP Member Participation Agreements*, in which case the order of precedence set forth in *Article 2, Section 2.2.2*, shall apply.

2.2.2. Should any terms in the Contract document or other attachments conflict with the state-specific terms set forth in *Attachment C*, the terms set forth in *Attachment C* shall take precedence over the terms of the Contract document, but only as between the Vendor and the MMCAP Member and/or MMCAP Participating Facility bound by said state-specific terms. No other State shall be bound by the terms set forth in any other State's state specific language set forth in the Exhibit provided by an MMCAP Member State and attached to *Attachment C*.

2.2.3. MMCAP and the State of Minnesota shall not be bound by non-Minnesota state-specific terms set forth in any Exhibit included in *Attachment C* at any time, nor when bringing any enforcement action on behalf of MMCAP or the State of Minnesota.

2.3.4. During the term of this Contract other MMCAP Member States may request the MMCAP Office or the Vendor to amend this Contract to include terms and conditions specific to the requesting MMCAP Member State by attaching an Exhibit to *Attachment C* specific to that State. If a MMCAP Member State requests an amendment to this Contract to include their state specific requirements, the Vendor must work with the MMCAP Member State and the MMCAP Office to execute an amendment to this Contract in a reasonable period of time. No verbal or written instructions from the MMCAP Member States, MMCAP Participating Facilities, or any of their staff or state officials to change any provision of this Contract will be accepted by the Vendor without the prior written approval of the MMCAP Office. The Vendor will promptly report any such requests to the MMCAP Office.

MMCAP intends to carry out its responsibility for requiring affirmative action by its Vendors.

30.1. Covered Contracts and Vendors

If the Contract exceeds \$100,000 and the Vendor employed more than 40 full-time employees on a single working day during the previous 12 months in Minnesota or in the state where it has its principle place of business, then the Vendor must comply with the requirements of Minn. Stat. § 363A.36 and Minn. R. Parts 5000.3400-5000.3600. A Vendor covered by Minn. Stat. § 363A.36 because it employed more than 40 full-time employees in another state and does not have a certificate of compliance, must certify that it is in compliance with federal affirmative action requirements.

30.2. Minn. Stat. § 363A.36

Minn. Stat. § 363A.36 requires the Vendor to have an affirmative action plan for the employment of minority persons, women, and qualified disabled individuals approved by the Minnesota Commissioner of Human Rights ("Commissioner") as indicated by a certificate of compliance. The law addresses suspension or revocation of a certificate of compliance and contract consequences in that event. A contract awarded without a certificate of compliance may be voided.

30.3. Minn. R. 5000.3400-5000.3600**a. General**

Minn. R. 5000.3400-5000.3600 implement Minn. Stat. § 363A.36. These rules include, but are not limited to, criteria for contents, approval, and implementation of affirmative action plans; procedures for issuing certificates of compliance and criteria for determining a Vendor's compliance status; procedures for addressing deficiencies, sanctions, and notice and hearing; annual compliance reports; procedures for compliance review; and contract consequences for non-compliance. The specific criteria for approval or rejection of an affirmative action plan are contained in various provisions of Minn. R. 5000.3400-5000.3600 including, but not limited to, parts 5000.3420-5000.3500 and 5000.3552-5000.3559.

b. Disabled Workers

The Vendor must comply with the following affirmative action requirements for disabled workers.

1. The Vendor must not discriminate against any employee or applicant for employment because of physical or mental disability in regard to any position for which the employee or applicant for employment is qualified. The Vendor agrees to take affirmative action to employ, advance in employment, and otherwise treat qualified disabled persons without discrimination based upon their physical or mental disability in all employment practices such as the following: employment, upgrading, demotion or transfer, recruitment, advertising, layoff or termination, rates of pay or other forms of compensation, and selection for training, including apprenticeship.
2. The Vendor agrees to comply with the rules and relevant orders of the Minnesota Department of Human Rights issued pursuant to the Minnesota Human Rights Act.
3. In the event of the Vendor's noncompliance with the requirements of this clause, actions for noncompliance may be taken in accordance with Minnesota Statutes Section 363A.36, and the rules and relevant orders of the Minnesota Department of Human Rights issued pursuant to the Minnesota Human Rights Act.
4. The Vendor agrees to post in conspicuous places, available to employees and applicants for employment, notices in a form to be prescribed by the commissioner of the Minnesota Department of Human Rights. Such notices must state the Vendor's obligation under the law to take affirmative action to employ and advance in employment qualified disabled employees and applicants for employment, and the rights of applicants and employees.
5. The Vendor must notify each labor union or representative of workers with which it has a collective bargaining Agreement or other contract understanding, that the vendor is bound by the terms of Minnesota Statutes Section 363A.36, of the Minnesota Human Rights Act and is committed to take affirmative action to employ and advance in employment physically and mentally disabled persons.

a. Consequences

The consequences for the Vendor's failure to implement its affirmative action plan or make a good faith effort to do so include, but are not limited to, suspension or revocation of a certificate of compliance by the Commissioner, refusal by the Commissioner to approve subsequent plans, and termination of all or part of this contract by the Commissioner or MMCAP.

b. Certification

The Vendor hereby certifies that it is in compliance with the requirements of Minn. Stat. § 363A.36 and Minn. R. 5000.3400-5000.3600 and is aware of the consequences for noncompliance.

31. Certification of Nondiscrimination (In Accordance with Minn. Stat. § 16C.053)

The following term applies to any contract for which the value, including all amendments, is \$50,000 or more: Vendor certifies it does not engage in and has no present plans to engage in discrimination against Israel, or against persons or entities doing business in Israel, when making decisions related to the operation of the Vendor's business. For purposes of this section, "discrimination" includes but is not limited to engaging in refusals to deal, terminating business activities, or other actions that are intended to limit commercial relations with Israel, or persons or entities doing business in Israel, when such actions are taken in a manner that in any way discriminates on the basis of nationality or national origin and is not based on a valid business reason.

32. Contingency Fees Prohibited

material or transportation shortages that are beyond that party's reasonable control. A party defaulting under this provision must provide the other party prompt written notice of the default and take all necessary steps to bring about performance as soon as practicable.

Except for provisions of this Contract relating to protection of Trade Secrets and the obligation of payment, neither party will be liable for non-performance caused by circumstances beyond their reasonable control, including, but not limited to (i) Acts of God, explosion, flood, lightning, tempest, fire or accident; (ii) war, hostilities (whether war is declared or not), invasion, acts of foreign enemies; (iii) rebellion, revolution, insurrection, military or usurped power or civil war; (iv) riot, civil commotion or disorder; (v) acts, restrictions, regulations, refusals to grant any licenses or permission, prohibitions or measures of any kind on the part of any local, state, national, governmental or supra-governmental authority; (vi) state government shutdown; (vii) import or export regulations or embargos; (viii) defaults of subcontractors where such default is itself caused by force majeure.

34. Severability

If any non-material provision of the Contract, including items incorporated by reference, or any application of the terms thereof, shall be found to be illegal, invalid, unenforceable, or void, then both MMCAP and the Vendor will be relieved of all obligations arising under such provisions. The remainder of the Contract, including all provisions and the application of such provisions, shall not be affected thereby and shall be enforced to the greatest extent permitted by law.

35.3. Escalation of Dispute

If the Parties are unable to resolve the issue in a timely manner, as specified above, either the MMCAP Participating Facility or Vendor may escalate the resolution of the issue to a higher level of management. When escalated to MMCAP, a teleconference will be scheduled with the MMCAP Office and the Vendor's MMCAP Primary Account Representative to review the briefing document and develop a proposed resolution and plan of action. The plan and timeline must be agreed to by all relevant parties to the dispute including; the MMCAP Office, the MMCAP Participating Facility, and Vendor.

**ATTACHMENT E:
VENDOR'S CONTRACT IMPLEMENTATION AND TRANSITION PLAN**

In order to properly implement your business, Vendor typically requires thirty (30) days from the time of award. This allows time to set up account numbers, load pricing and contracts, increase inventory in our distribution centers and implement the desired technology approach. At time of award, we will work with MMCAP to create a detailed, mutually agreed upon timeline for implementation including major milestones and the resources necessary. Vendor has previous experience on-boarding large providers. We have resources dedicated to the on-boarding process to assist in a seamless integration. Upon award, Vendor can provide a Sample Implementation Plan if requested by MMCAP.

Vendor's MMCAP Member onboarding procedure will include standard account setup, MMCAP Membership ID verification, loading MMCAP Member account to MMCAP-specific price sources and completion verifications. If there are any questions or discrepancies in the account setup request inquiries are sent directly to the MMCAP Member or to MMCAP for verification or confirmation.

Vendor will review MMCAP's Membership roster to ship-to locations with Vendor's customer listing to identify those Members that are not attached to the MMCAP Contract. If a Member on the roster is not currently associated in the Vendor's listing with the MMCAP Contract, Vendor will take the steps to input the Member information in our system and load the necessary pricing once an account is created. Vendor cannot share our entire customer listing with MMCAP.

Vendor's MMCAP Member onboarding procedure will include account setup, MMCAP Membership ID verification, loading to MMCAP-specific price sources and completion verifications. If there are any questions or discrepancies in the account setup request inquiries are sent directly to MMCAP for verification or confirmation. The same process is followed for transitioning accounts, with the exception of account setup. Existing customers follow the same confirmation and verification process and then are moved from their current price source to the MMCAP-specific price source.

MMCAP Member's account will determine the appropriate contact information for customer service and the dedicated sales representative or support staff to assist with Member inquiries. Upon award, Vendor will provide detailed contact information for each entity responding in this Proposal.

Vendor verifies on-boarding of new customers to help ensure compliance with contractual pricing and performs random, periodic price reviews. Quarterly Business Reviews are also used to review general contract compliance. Vendor's quarterly random price reviews will include invoice review, where warranted. McKesson Minnesota Supply and McKesson Medical-Surgical customers can utilize a variety of reports found in McKesson SupplyManagerSM to monitor purchases and pricing. MMCAP Members have access to contracted pricing which allows Members to compare to invoices. Moore Medical customers may contact the dedicated contract administration team for reports. Vendor is available, upon request, to research any further inquiries.

Additionally, Vendor will provide the requested Sales Data Usage Report. The McKesson MMCAP Project Manager and Sales Team dedicated to government will be educated on the awarded contract to ensure compliance and so that they may inform existing MMCAP Members and potential Members of the MMCAP Contract. Moore Medical's dedicated contract administration and management team will take the necessary measures to ensure the timely reporting, training and promotion of the MMCAP Contract occur.

McKesson Medical-Surgical Contract MMCAP MMS18000

ATTACHMENT J: VENDOR'S PRODUCT RECALL PROCEDURES/POLICIES

RECALLS PROCESSING

May 10, 2017

Dear Customer:

You have requested information on our procedures for handling a Product recall. As a domestic distributor of medical surgical supplies, McKesson Medical-Surgical Inc., McKesson Medical-Surgical Minnesota Supply Inc., and Moore Medical, LLC (collectively, "McKesson") has deployed processes for the administration of the recall of Products, whether such recall is initiated by a Manufacturer voluntarily or is directed by the U.S. Food and Drug Administration ("FDA"). These processes are designed to (i) support compliance with Medicare quality standards as well as state and federal regulatory requirements, (ii) help respond to public safety concerns and (iii) support our service goals to our customers.

Our Recall Policy:

As a wholesale distributor of drugs, biologics and devices, McKesson Medical-Surgical Companies ("MMS") will respond promptly to and cooperate with a Product recall ("recall") notice received from a Manufacturer, supplier or importer (collectively hereafter referred to as "Manufacturer") with an express interest in protecting public safety and promoting a customer's knowledge of the recall and ability to effectively respond. This policy applies to all MMS locations including distribution centers. To the extent that individually identifiable health information (or Protected Health Information) of MMS customers or MMS' customer's patients is relevant to a recall, MMS will maintain the confidentiality of the Protected Health Information in accordance with HIPAA privacy and security standards. Recall documentation will be maintained in accordance with MMS' Records Information Management Policy and Records Retention Schedule.

Our recall process involves multiple steps and guidelines for managing the many stages involved in a Product recall. The content of this document focuses on our process as it pertains to you, our customer.

Our recall process includes:

- Internal review of the Manufacturer notification letter.
- Notification to McKesson distribution centers of the recall and the affected lot numbers, when there is inventory and/or sales history records for the subject Product(s) of the recall.
- When necessary, segregation of affected stock in our warehouses and containment actions are taken to address the disposition of the affected Product(s) accordingly.
- Notification to potentially affected customers, usually via written notice.
- Review for other considerations or actions related to FDA regulations for the specific recall.

Customer Notification:

Notifications provided to McKesson customers are based on our sales history records. Our analysis is based on the subject Product(s) of the recall and the timeline provided by the Manufacturer including shipments from when the affected Product distribution began. McKesson tracks all individuals and entities to which it has distributed the affected Products. When McKesson receives written notification from a Manufacturer regarding a Product recall, McKesson will send a recall notice to all customers who potentially purchased affected Product(s), rather than just notifying customers that purchased a specific lot number of affected Product(s). This process results in our customers having a higher awareness of recalls and the ability to validate if they have affected Product(s).

For McKesson customers, whose patients or end-users that receive drop shipments of medical-surgical Products, any recall notification from McKesson, will be sent to the billing address of the customer account on file with McKesson at

McKesson Medical-Surgical Contract MMCAP MMS18000

the time of the notification; not to the patient or end-user address.

Recall Information Provided to Customers:

The notification sent to McKesson's customers contains the following information:

- A summary of the Product issue and the potential health and/or safety impact to end-users of the Product.
- Specific identification of the Product(s) purchased from McKesson, including NDC code, Manufacturer item number, McKesson item number, Product description, affected lot numbers(s) and expiry date(s), as applicable.
- Instructions to the customer including screening for any affected inventory at their location, updated use instructions and return or disposal, as applicable to the subject recall.
- When a Product return is specified or optional, directions for return (as applicable) to (i) the Manufacturer, (ii) a third party logistics service or (iii) to McKesson via contact with our customer service teams.
- Contact information needed to execute any required Product handling instructions, or to direct inquiries to the Manufacturer for clinical or Product use related concerns.

The customer notification is usually sent via U.S.P.S. mail and includes reply forms (when applicable) and any additional documentation provided by the Manufacturer to complete the Product recall communication.

Shipment details such as a listing of Products shipped, including dates, quantities and ship-to locations, are not provided as a normal course of administering the recall process. However, customers may later request a detailed listing, including drop shipments made on their behalf, for the time period outlined in the recall notification. The foregoing provides a high-level summary of McKesson's policy and procedure and is not intended to be all-inclusive.

The recall process is administered by the Compliance and Regulatory Affairs (CARA) Department.

Sincerely,

Brian Green

Further Details on Our Business Continuity Program

To help ensure our response to business disruptions meets expectations for safeguarding our customers, people and property, McKesson has implemented a cross-functional approach to business continuity:

McKesson Medical-Surgical Contract MMCAP MMS18000

Emergency Response

- Each facility has a dedicated Emergency Response Team.
- Each facility has a unique Emergency Response Plan which addresses multiple crisis scenarios.

Disaster Recovery

- IT processes and technologies have recovery and failover plans.
- Critical facilities and business processes have dedicated Incident Response teams who handle immediate response to business disruptions.

Business Continuity

- Dedicated Business Continuity Coordinators support inter-departmental response to disruptions.
- Coordinators maintain protocols for inter-departmental response to multiple possible types of business disruptions.

Example Response to a Typical Business Disruption

McKesson responds to multiple business disruptions every year, including hurricanes, snow storms and other events. Here is a summary of the steps we take to prepare for and recover from a typical weather-related emergency.

Event Detection and Preparation

Our facility leaders and business continuity coordinators monitor local and regional weather conditions. If potential threats are detected:

- Local and regional Incident Response teams are notified of the possible event. These teams include Members from the Distribution Center, Transportation, Customer Service, and Information Technology departments.
- Once notified, local distribution center teams and other facilities will prepare for the event and create operating plans in conjunction with local business partners.
- Our Customer Service department will also prepare by developing a staffing plan and working with customers as needed to pre-order goods.

Event Management

During the event, our Incident Response teams meet regularly to share status updates, modify operating plans and respond to any specific failures. Examples of these responsibilities include:

- If a facility is damaged or is inoperable, the facility's Emergency Response Team will manage evacuations, building repairs or other activities as necessary to restore service as quickly as possible.
- Distribution center leaders, transportation leaders, and customer service representatives work closely together to respond to local requirements, reroute and prioritize deliveries and monitor fleet operations.
- Distribution center and transportation leaders work with our carrier partners to ensure service disruptions are minimized for our customers.
- Twice a day, our Business Continuity Coordinator:
 - o Hosts a call with our Incident Response teams to discuss the ongoing nature of the disruption, as well as impact on our facilities, employees and customers; and
 - o provides a summary communication to our senior leadership and other department leaders regarding status and actions taken.

Event Resolution

Once the event is resolved:

- Our team reviews the impact of the event and any outstanding impacts to customer orders;
- our Incident Response Team works to complete any outstanding orders as quickly as possible; and
- finally, our Incident Response Team reviews the management of the event for continuous improvement.

The following sections provide additional details on how our departments are prepared to handle business disruptions, which may affect our customers.

McKesson Medical-Surgical Contract MMCAP MMS18000

Sales Order Management

Receiving customer orders is critical to the McKesson Business Continuity program. In the unlikely event our online ordering system fails, we have an alternate plan for taking manual orders through our Customer Service Department. We currently offer a variety of methods for you to complete orders with us during an emergency or business disruption, including:

- Our website at: mms.mckesson.com, which also provides alerts regarding current business disruptions;
- place your orders directly with your sales representative via phone or fax; and
- place your orders directly with our customer service representatives via phone or fax.

In the unlikely event our core sales order management system experiences an outage, the McKesson web-based ordering system can be used to capture orders. These orders will be held and submitted when the core sales order management system becomes available.

Information Technology and Cyber Security

McKesson maintains Disaster Recovery plans covering software failures, failures of our data-centers, and servers supporting our Enterprise Resource Management system and our distribution centers. These plans allow us to provide continuity in systems operation and availability and include the following key items:

- Redundancy in our autonomous distribution centers and Customer Service facilities;
- backup procedures detailing how Customer Service, Information Technology, and Operations collaborate so customer orders are placed, processed and shipped in the event of a system failure;
- complete system failover capability ensures we can migrate complete system functionality to an alternate site; and
- Cyber security preparedness, testing, and response.

Redundant Technologies for Customer and Internal Information Systems

McKesson maintains separate instances of its Corporate Information systems in dual state-of-the-art data-centers. Further, we help ensure all customer-facing technologies have redundant backups in case the primary system has a failure.

- Our databases employ failover technology to protect against a service outage should we encounter a hardware failure.
- Each distribution center has a dedicated server so the distribution center can operate independently of the core system (distribution centers can continue to receive orders if the central system is operative).
- The core Enterprise Resource Planning system is housed in a separate location from our distribution centers to provide protection from impacts affecting select geographies.

Complete System Disaster Recovery Services

McKesson has contracted with a leading third-party recovery Services provider as a disaster recovery partner. This means if our data-centers, Enterprise Resource Planning system or other information technologies experience a complete failure, we can restore complete service at the partner's site. Services include:

- *Alternate Site Recovery:* In the event of a disaster, our computing environment would be restored at a separate geographic location;
- *Comparable Computing Equipment and Hardware:* Our recovery partner provides hardware comparable to those currently in use in our in-house production environment;
- *Recovery Management Services:* Our recovery partner provides experienced recovery technicians knowledgeable in all operating system platforms; and
- *Annual Testing:* In conjunction with our recovery partner, we conduct an annual disaster recovery exercise to test our current capabilities and procedures.

Cyber Security

McKesson maintains an Information Security and Risk Management program based on the internationally recognized ISO 27001 framework. By implementing a defense-in-depth strategy, our approach is to ensure our IT environments are protected against cyber threats and to mitigate the impact of a potential system outage due to an attack.

Order Fulfillment and Distribution Centers

McKesson operates a network of distribution centers across the United States. Each distribution center maintains a Business Continuity Plan including objectives and responsibilities during business disruptions. In the event of a business disruption, these plans allow our distribution centers to quickly communicate with carriers, Customer Service, Sales Support and other departments to maximize service availability and communication with customers.

Logistics and Transportation

The Transportation Team leverages a variety of options to get orders to your door including national and local carriers, private fleet, direct shipment, and other alternatives. During a business disruption, our team monitors service interruptions and coordinates communications between our carriers and distribution centers frequently to provide up-to-date communications to our Customer Service teams. We work to ensure prompt notifications for all affected deliveries. We recognize timely deliveries are imperative for our customers and work through all possible service options to resolve delivery issues and get the Product to its destination as quickly as possible.

Customer Service and Support

McKesson operates a network of call centers with automated failover across the United States. This allows our customer service representatives to quickly respond to customer requests regardless of the situation or location. Our customer service representatives work directly with local Sales Support and Operations to provide the best level of support in placing emergency orders or identifying orders impacted by a business disruption.
