### Cutting Edge Talent Differentiators:

- **Communication** – Clear and open client communications are high priorities for Cutting Edge Talent. This is the only way that you can be assured that your IT needs are being met.
- **Skill Matching** – not only do we align the technical skills and experience needed for your project, but we also match the soft skills that align with the cultural fit of your organization.
- **Flexibility** – we offer flexible staffing models such as temp, temp-to-perm or project-based options. We feel that these options provide the best approach for our customer's project needs and/or budget requirements.
- **Competitive Advantage** – part of our vetting process includes selecting candidates who are:
  1. Willing to share innovative ideas with the latest technologies.
  2. Offer process improvement ideas that may add value to a project.
  3. Willing to work with customers who want to include Green IT initiatives.

Cutting Edge Tech Talent has an unwavering commitment to excellence in collaborating with our customers. We are dedicated to delivering unparalleled value to our customers and stakeholders
