Section 9 - Project Matching	
<i>O.A.C. 310:641-5-1 (G) states: If the proposal proposes the use of matching funds, points shall be awarded consistent with the following formula:</i>	
Matching fund formula: Total encumbered matching dollars / total project amount = % of matching dollars. Encumbered matching dollars means the total dollar amount of both in hand and in kind matching funds.	
Total project amount is the sum of the total encumbered matching dollars and the amount of requested funds from Section 7.	
Example: \$25,000.00 (Total encumbered matching dollar)/\$100,000.00 (Encumbered and requested funds) = 25% matching dollars	
Entities providing matching funds shall provide documentation that verifies a commitment to provide matching funds and the amount to be provided. There are two types of matching funds: 1) "In Hand", which are funds set aside to accomplish the goals and benchmarks of the project; and 2) "In kind" contributions, that have been received to complete the proposal. In-kind matching funds will be required to have a monetary value for budgeting purposes.	
In kind matching funds are services or goods that are donated to the grantee agency by a third party. Note: One division/department within an agency/organization CANNOT donate goods or services to another division/department with that same agency/organization.	
Examples of "In kind" matching funds or contributions include: 1) Personnel time given to the project (no cash payment for time); 2) Person on loan from another organization/corporation; 3) Use of existing equipment; 4) Use of existing laboratory equipment or facilities; 5) donations from a third party- (excluding cash)	
The matching fund allocation will need to be detailed in the proposed expenditures in Section 10 of this application.	
Failure of the applicant to clearly detail the budget, to include matching funds and expenditures, may result in the application being rejected.	

Scoring Criteria	Points	√	Scoring Criteria	Points	√

Section 13 - Benchmarks

A benchmark is a standard by which a measurement can be made. It is a point of reference for evaluating performance. Benchmarks must be stated in measurable terms.

- Regulatory Text: (b) Each proposal shall include a section setting forth the criteria that will be used to evaluate the success of the project. The criteria shall include:*
- (1) Specific, objective metrics for evaluation of the project. For example: a percentage decline in response time or improvement in the number of available EMTs within a region, measured against the same metric at the start of the project.*
 - (2) A clear methodology and a description of data sources for computing the performance measures proposed in the project plan, for example, comparing responder response times or the total number of EMTs in a region against the same metric at the end of the project.*
 - (3) Benchmark measures for each of the following assessment levels:*
 - (A) Significantly improved.*
 - (B) Improved.*
 - (C) Not Improved.*
 - (D) Worsened.*

Revolving Fund (OERSSIRF) - Fiscal Year 2025

Introduction

What is the Oklahoma Emergency Response System Stabilization and Improvement Revolving Fund, or OERSSIRF?

OERSSIRF was created through statute for the purposes of:

1. Funding Assessment Activities,
2. Stabilization and/or reorganization of at-risk emergency medical services,
3. Development of regional emergency medical services,
4. Training for emergency medical directors,
5. Access to training frontline emergency medical services personnel,
6. Capital and equipment needs.

The following individuals or organizations can apply for these funds?

Any person or organization or any combination of:

1. licensed, certified or approved by the Department as part of the EMS system, such as EMS personnel, certified emergency medical response agencies, licensed ambulance services,
2. approved training institutions,
3. approved emergency medical dispatch agencies, approved medical directors
4. or their associations or sponsoring organizations, such as EMS districts, cities or counties that operate certified emergency response agencies or licensed ambulance services,
5. or education systems operating EMS training institutions.

How are the funds awarded, earned, or won?

- This is a competitive scoring process. The Department must release it through a "Request for Proposal" (RFP) process because of the scoring process.
- Each response is a submission to the Department to enter into a contract with the Department.
- After the scoring process, the "Contracts" are awarded to the "vendors" that scored higher in the ranking of scores.
- These are contracts, and the expectation is that the vendor will complete the terms in the contract
- The terms of the contract are the deliverables.
- Invoices will then be submitted from the Vendors to the Department periodically, so that reimbursement can be made.
- The vendor must be able to show documentation that the deliverable was completed by the vendor.

Application and Process for FY 2025

OERSSIRF Key Terms

Application means the section of the solicitation that is used for scoring purposes.

At risk is not defined within the regulation, but is part of the scoring process. If the applicant asserts they are at risk, then adequate documentation is required for the reviewer to be able to award points for at risk categories

Benchmark refers to the measurement of success from the proposal. The agency defines how success will be measured, and the Department will review the grant activities to determine what benchmark should be awarded.

Deliverables means these are the items within the proposals that the qualified entity states will be accomplished if awarded. Each deliverable will need a way of measuring success. Each vendor must maintain documentation that the deliverable was completed by the vendor.

Department means The Oklahoma State Department of Health

Matching Funds means encumbered or assigned funds that are dedicated to the completion of the proposal. For OERSSIRF, there are two types of matching funds: 1) funds encumbered to the project and 2) donated labor, time, material, or donated money dedicated to the completion of the project

OERSSIRF Regulations mean Oklahoma Administrative Code 310:642

OERSSIRF Statute means O.S. Title 63 § 1-2512.1

Request for Proposals also known as the RFP means the process by which the Department is able to solicit vendors to provide goods or services to the Department.

Response to the RFP means documents received as a response to the RFP. The initial documents are reviewed for essential criteria. If the initial response is complete, then the completed proposals are then sent to the panel for review.

Reviewers' means the panel of volunteers that will be used to review the proposals submitted to the Department. There are nine reviewers on the panel.

Solicitation means the request for the RFP.

“The applicant asserts- the reviewer validates”- is a statement used during the review process. Each application is an assertion or statement that the applicant has earned the points declared within the proposal. Reviewers will score the applications based on the contents, and their understanding of the contents. The contents of the response must support the assertions. If the contents do not support the assertions, then the individual reviewers cannot validate the assertions.

Guidebook for the Oklahoma Emergency Response System Stabilization and Improvement
Revolving Fund (OERSSIRF) - Fiscal Year 2025

Vendors are the qualified entity that is awarded a contract.

Considerations regarding how to respond to the solicitation

- Read the guidebook
- Read all directions for the solicitation and application
- Please read the attachments
- Prepare a list of documents you will need to send.
- Ensure you know who will need to sign the solicitation
- Consider what you need that will “Stabilize and Improve” Emergency Medical System in your community, or region.
- When you are listing and detailing your needs, determine how you will measure success.
- Use the application fields to answer questions and provide narratives
- Always remember, as a response to the RFP, you are asserting how you will “Stabilize and Improve” EMS in your area and Oklahoma. Use the fields next to the point values to not only serve as a check list and a way to show the reviewers what you are asserting. After reading the assertions, the review panel will validate your assertions and provide a score.
- Do not assume the reviewers will understand what you are submitting. The narrative of the proposal is as important as the documents provided. The narrative will explain what you will use the money for and explain the supporting documents. The supporting documents are used to validate the assertions made in the application and narrative.
- If the vendor is working with another agency or entity to complete a deliverable, (e.g. as an agency working with a dispatch center for improvement), be sure to include letters of support or commitment from your “partners”. This deliverable will also need to be detailed in the benchmarks.
- If the vendor is working with another agency in a type of cooperative agreement, then each vendor must receive a service, item or product from the cooperative agreement.
- Nine (9) copies and the original are required to be submitted. An application will not be sent forward for review if the original and nine copies are not submitted.

Solicitation and RFP Award Process

A “RFP” is released because the Department is “Soliciting” responses and proposals from “Qualified Entities” to “Stabilize and Improve” the Emergency Medical Services within the State of Oklahoma.

The “Response” from a “Qualified Entity” to the “Solicitation” contains what will be done to “Stabilize and Improve” EMS in Oklahoma.

Prior to the RFP closing date, a pre-proposal conference will be held to provide an open forum to provide information to potential applicants.

In this conference, questions may not be answered, but they will be collected for the purposes of responding in accordance with State of Oklahoma Procurement Statutes and Regulations.

Guidebook for the Oklahoma Emergency Response System Stabilization and Improvement
Revolving Fund (OERSSIRF) - Fiscal Year 2025

The application process is:

1. Responses are received in Procurement before the RFP closes
2. The response must include five (5) copies and the original
3. Documents are reviewed for Procurement Criteria
4. Documents are reviewed for Emergency Systems Criteria
5. Documents that contain all required criteria are proposals that are submitted to the panel for review and scoring
6. Each scored proposal is then ranked and awards are based on rankings

What does this mean?

Before a response will be considered for review, the Department will evaluate each submittal to determine if it includes the following:

- A. Is the response from a legal and qualified entity?
- B. Does the response contain the required signatures for the solicitation?
- C. Does the response include appropriate statutory purposes?
- D. Does the response include complete responses for Local need, support, and Priority with Statewide needs and public interest.
- E. Does the response include complete responses regarding the availability of other funding or other assistance.
- F. Does the response include complete responses regarding economic and project feasibility?
- G. Does the response include a section setting the criteria that will be used to evaluate the project?
- H. Does the criterion include specific, objective (measurable) numbers or data?
- I. Does the criterion include a clear methodology and a description of the data sources used to compute or determine the performance measures within the project?
- J. Are Significantly Improved, Improved, Not Improved, and Worsened, measurements included in the criteria?

If the answer is no to any section, then the response will not be sent to the review panel, based on the following regulations:

***O.A.C. 310:642-3-1-(b) Criteria applicability, and
O.A.C 310:642-7-1 Content of proposal***

OERSSIRF Sections

General Directions:

Each section asks for specific information. The information is provided in the narrative space and supported by any required documentation. In the sections that have awardable points, the applicant is asked to complete the self-score section. These self-scores assists the reviewers to look for specific information in the narrative and documents. It also serves as a type of checklist for the person completing the application. More specific directions are below.

Total cost of project is how much money will be spent IN TOTAL to complete all the deliverables within the submission. This is the amount of money requested from OERSSIRF and matching funds the entity contributes.

Requested OERSSIRF Amount is how much money is needed from OERSSIRF to complete all the deliverables. This is the amount of money to accomplish the deliverables minus any matching funds.

Person completing application is the person that completes the application.

Signature is from the person that has the responsibility to ensure the deliverables is completed.

Date signed is when the signature was affixed to the response.

Statement:

Each application is a single response to a Solicitation for Request for Proposals released for FY 2025. A single response cannot be considered as part of a larger project area or goal unless there are documents within the proposal that establishes the multi-jurisdictional support.

Also, any partnerships that occur between different organizations, such as a Private Ambulance Service and a City Police Department will need to have agreement letters showing the goal. This type of partnership may not qualify as multi-jurisdictional. However, letters detailing this partnership would show an example of community support.

What does this mean?

- The RFP's that are funded are a contract with the Department.
- These qualified entities are asking to become vendors with the State of Oklahoma to provide "Stabilization and Improvement" activities for the State of Oklahoma.
- The stated goals, purpose, and deliverables within each proposal are the vendors responsibility to complete.
- If qualified entities are working together to accomplish a single goal, then documentation from the different jurisdictions or qualified entities must be included with the response.

Statutory Eligibility

The Department shall be under a continuing obligation to ensure the following standards and criteria are satisfied before any proposal is approved for funding and may determine compliance with these standards and criteria during preliminary review, scoring and selection or during a post selection review.

Guidebook for the Oklahoma Emergency Response System Stabilization and Improvement
Revolving Fund (OERSSIRF) - Fiscal Year 2025

The Applicant must possess all necessary and incidental legal rights and privileges for project commencement and completion. The application must reflect the eligibility of the applicant as well as the statutory purpose(s) of the project. The statutory requirements must be documented in Section 2 of the application. Proposals that do not meet statutory requirements will be returned to the applicant.

What does this mean?

- The applicant must be a qualified entity.
- The applicant is only able to request funds to accomplish one or more of the six statutory purposes for OERSSIRF Funding
- If an applicant requests funding for a purpose that is not included in the six statutory purposes, then the entire proposal will be rejected and returned to the applicant.

Local need, support, and priority with statewide needs and public interest

- (a) The applicant must show the project is needed and sufficient to meet the needs in the area.
- (b) The application must show how the proposed project will serve the public interest and welfare by demonstrating the relationship between the project and the overall EMS development needs within the State of Oklahoma, as identified in a needs assessment.
- (c) Needs assessments may include reports from Bishop and Associates, National Highway Transportation and Safety Administration, OSU Cooperative Extension Service, or other reports regarding EMS.
- (d) The application must show local support for, interest in, and commitment to the proposed project. Letters expressing support from legal entities such as cities, counties, and companies in the area to be served shall be included as appropriate. The application will be reviewed prior to scoring to ensure guidance was followed.
- (e) Attestations of the benefits of the project to the public interest and welfare shall be provided by an appropriately credentialed consultant or other expert. Credentials of financial consultant(s) and expert(s) shall be submitted with the attestation(s). Applicant shall not be considered an expert or financial consultant for the purpose of attesting to project need. The application will be reviewed prior to scoring to ensure guidance was followed.

What does this mean?

- How did you determine what you needed?
- Detail the document(s) used to determine what you needed.
- Describe how the requested items will meet your needs and “Stabilize and Improve” EMS in Oklahoma.
- Does the applicant have support from the community (ies) that will potentially benefit from the funds?

Availability of other funding

The applicant must demonstrate due diligence was performed to ensure no alternative funding sources could be obtained and utilized for financing the project. All measures and efforts by the applicant to find alternative sources of funding must be documented in the application. Efforts

Guidebook for the Oklahoma Emergency Response System Stabilization and Improvement
Revolving Fund (OERSSIRF) - Fiscal Year 2025

to determine alternative revenue must be documented in a narrative summary. Identify all measures and efforts to seek alternative funding sources. This may include attempts to seek tax dollars, (property or sales), changes in billing practices, or other activities designed to secure funding. The application will be reviewed prior to scoring to ensure guidance was followed.

What does this mean?

- Has the applicant sought other funding methods?
- Has the applicant detailed why other funding methods were not successful or effective?
- Why is this funding the only way to “Stabilize and Improve” your EMS agency?

Project Feasibility

The application must demonstrate the project is feasible and cost-effective. The project description shall establish all items to be purchased for the project are readily available on the open market and identified in Section 7. Spreadsheets must be provided that demonstrate purchasing timetables and costs for all project items. Appropriately credentialed consultant or other expert attestations to the feasibility and cost-effectiveness of the project shall be provided. Credentials of financial consultant(s) and expert(s) shall be submitted with attestations. Applicants shall not be considered an expert or financial consultant for the purpose of attesting to project feasibility and cost-effectiveness. The application will be reviewed prior to scoring to ensure guidance was followed.

What does this mean?

- How will the deliverables meet the needs in the assessment?
- Will this be a cost-effective way of meeting these needs?
- The consultant or other person providing the expert attestations must include their credentials that entitle them to make these statements?
- The applicant cannot attest to their own feasibility and effectiveness?

Agency/Entity Demographics

You are asked **BUT NOT REQUIRED** to provide the following information. The information can help members of the review panel gain a better understanding of your agency or entity. A score is not assigned to any of the submitted information. If an item does not apply to your agency or entity, you may submit an NA.

1. Level of licensure or certification: (EMR, BLS, ILS, or PLS)
2. Total number of responses for CY 2022
3. How is your agency/entity funded: charges, sales tax, property tax, utility assessment, donations, etc.?
4. Number of permitted ambulances or EMRA Response Vehicles are owned and operated by the applicant

Guidebook for the Oklahoma Emergency Response System Stabilization and Improvement
Revolving Fund (OERSSIRF) - Fiscal Year 2025

What does this mean?

- You are not required to respond to these questions
- These may be helpful to the reviewers to understand the operations, advantages, and disadvantages of your service area
- These will not be scored, and cannot be part of the final score
- These questions are for information only
- NA, or not applicable is a valid answer

Applications containing more than 55 pages will not be reviewed and will be returned to the applicant.

The 55 page limit includes application pages and the documents that support the application, contents, attestations, assertions, descriptions, and purpose. Documents that support the timeline, benchmarks, and documents required to establish project legal and contractual requirements are not included in the 55 page limit.

What does this mean?

- Count your pages
- The pages that do count include Exhibit 2 and their supporting documents
- The pages the State requires for the contract do not count against the 55 pages
- Timeline and benchmark documents do not count against the 55 page limit
- Documents that establish your legal and statutory eligibility do not count against the 55 page limit
- Use the fillable spaces and blank pages to provide your narrative to make your assertions.
- Consider combining or limiting who you obtain your support letters from, focusing on the one that will meet the requirements for the response.

Qualified Entity and Statutory Purpose

The entities that can submit for OERSSIRF Funds and the items to be purchased are defined in statute.

Narrative spaces are available to respond to these questions.

What does this mean?

- EMS Personnel- an individual with a license or certification may apply for funding
- Certified EMRA- must have a certification from the Department
- Licensed Ambulance Service- must have a license from the Department
- Approved Training Institution must have approved through the Department

Guidebook for the Oklahoma Emergency Response System Stabilization and Improvement
Revolving Fund (OERSSIRF) - Fiscal Year 2025

- Approved Emergency Medical Dispatch agencies are any organizations that provide EMD to areas in Oklahoma
- Approved Medical Directors are any medical directors affiliated with Oklahoma agencies
- Associations or sponsoring organizations may include:
 - EMS districts,
 - Cities or counties that operate certified emergency response agencies or licensed ambulance services, or education systems operating EMS training institutions.

Statutory Purpose

What does this mean? What can the money to be used for?

- Funding assessment activities-
 - Does the qualified entity need to use a consultant to evaluate the existing system?
 - Does the entity need funds to professionally assess and determine the best solutions for the area?
 - Will the entity pay for and receive an assessment to determine their needs?
- Stabilization and/or reorganization of at-risk emergency medical services-
 - How is your entity at risk?
 - What is the entity at risk from?
 - How will the funds be used to address the risks?
 - Does the entity need funds to restart a failing service?
 - Does the entity seek to implement solutions identified an assessment?
 - Does the entity need money to remain open?
- Development of Regional Emergency Medical Services?
 - Will the money be used to create a system of different agencies, entities, communities or other partners to create a system that addresses a larger or expanded area?
 - Will the money be used to include different agencies and entities into an existing system, expanding services in an area?
- Training for Medical Director
 - Does the medical director seek formal training to become a better or more effective medical director?
- Access to training for front line emergency medical services personnel
 - Will the money provide training be used to either initial training for new personnel?
 - Will the money provide training be used to increase the level of licensure for existing personnel?
 - Will the money provide training be used to improve current skills within current licensure?
 - Will the money provide training assist the entity in maintaining current licensure?
- Capital and equipment needs
 - Will the funding be used to purchase equipment that needs to be replaced?
 - Will the funding be used to upgrade existing equipment?
 - Will the funding be used to buy supplies to support equipment purchases?

Guidebook for the Oklahoma Emergency Response System Stabilization and Improvement
Revolving Fund (OERSSIRF) - Fiscal Year 2025

Application considerations:

If an applicant is seeking points for a statutory purpose, a deliverable and benchmark needs to be associated with the statutory purpose.

If the applicant “asserts” that an application will be used for several statutory purposes, the persons on the review panel will “validate” the contents of the application to award a score.

Population Density and Multiple Jurisdictions

The population density report has been updated to the 2020 Census data. The population density of the proposed project area shall be determined by the **zip codes** within the proposed project area. This link is to a document that shows the square miles and population for each zip code in Oklahoma

<https://oklahoma.gov/content/dam/ok/en/health/health2/aem-documents/protective-health/emergency-systems/oerssirf/fy2024/FY%202024%20Population%20Density.pdf>

The source document for this information is the U.S. Census Bureau. The link for the source document is:

<https://oklahoma.gov/content/dam/ok/en/health/health2/aem-documents/protective-health/emergency-systems/oerssirf/supporting-documents/FY%202024%20Population%20Density.pdf>

To determine the population density for this project, identify all zip codes and their population in the proposed project area and enter the information below. The score for this part of the application shall be that associated with the zip code in the proposed project area with the **lowest population density**.

If this application is proposing a state-wide project, the population density will be 54.7 persons per square mile, which is the state-wide average.

Multiple Jurisdictions

If more than one community, county or other jurisdiction will benefit from this project, attach a map that highlights each such jurisdiction. Provide a list of the jurisdictions and describe the benefit to each one. For every listed jurisdiction, include documents that verify their inclusion in; and support for, the project.

What does this mean?

- In previous solicitations, the Department was only able to determine population based on county density. This year, we have been able to create a table that takes the population is a zip code and the size of each zip code to create the population density for that zip code. (Formula- population /square miles = population density)
- There are hundreds of zip codes in Oklahoma. The table is in numeric order
- Include all the zip codes that will be included in your proposal.
- Reviewers will be able to access the table as well to verify your assertions.
- Zip codes listed will also be used to verify the assertions of multiple jurisdictions
- The multiple jurisdiction assertion may be supported by the following types of documents:
 - A. A map

Guidebook for the Oklahoma Emergency Response System Stabilization and Improvement
Revolving Fund (OERSSIRF) - Fiscal Year 2025

- B. A description in the narrative detailing how the different jurisdictions will benefit from the proposals.
- C. Letters of support from the City or Town leadership. This may include any obligations they will incur for the success of the proposal.
- D. County Commissioners. This may include any obligations they will incur for the success of the proposal.
- E. Response agencies that rely and will benefit from the proposal. This may include any obligations they will incur for the success of the proposal.

Number of EMTs in Project Area

The number of EMT's in the project area shall be the sum total of EMTs in the zip codes within the proposed project area. This document is a report created March 2022 showing the number of EMT's in each zip code in Oklahoma.

<https://oklahoma.gov/health/services/licensing-inspections/emergency-systems/oerssirf-oklahoma-emergency-response-systems-stabilization-and-improvement-revolving-fund.html>

What this means?

- Using information provided by the Department- add the number of EMT's that are licensed within the proposal area
- The zip codes in this section should match the zip codes listed in other sections

Distance to a Level I or II trauma center

A Level I Trauma Center is located in Oklahoma City. Two Level II Trauma Centers are located in Tulsa. The addresses for the trauma centers are: 1) OU Medical Center, 700 NE 13th Street, Oklahoma City, OK 2) St John Medical Center, 1923 South Utica Ave, Tulsa, OK 74104, and 3) St Francis Hospital, 6161 South Yale, Tulsa, OK 74136.

Determine the physical address in the project area that is most distant from the nearest trauma center. On the MapQuest site (<http://classic.mapquest.com/maps>) enter that physical address as the "START" and the address of the nearest Level 1 or Level II trauma center as the "END", then click "GET DIRECTIONS". Enter the mileage from "START" to "END" on the OERSSIRF application. Print the MapQuest map and include it in this application.

What this means?

- What is the closest trauma center to your proposal area?
- In your proposed area, what is the farthest point from the trauma center with an address?
- Use that address and the address of the closest trauma center to determine the distance from the trauma center?
- This copy of the directions, map, or other verification of the distance will need to be included.

OERSSIRF Funding and Percentage of Encumbered Matching Funds

The applicant requested amount is the amount requested from the OERSSIRF fund. Please calculate the total cost of the project, and then subtract any encumbered matching funds. The difference should equal the amount of funds requested.

What this means?

- Is the applicant putting any matching funds into the project completion? If yes, determine the value of the matching funds. (See the guidance regarding matching fund percentages below).
- Establish the budget for the proposal
- How much money will the entire project require?
- What is the value of the matching funds?
- Project Budget – Matching Funds = How much money does the applicant needs from the OERSSIRF fund to complete the entire project?

Percentage of Encumbered Matching Funds

The encumbered matching funds percentage shall be calculated as follows: Total encumbered matching funds divided by total requested OERSSIRF funds = % of the project funding that depends on matching funds. Proposals that depend on encumbered matching funds shall include documentation (on letterhead, if possible) that clearly shows 1) a commitment to provide the matching funds, 2) who is providing the funds, 3) the amount to be provided, and 4) the purpose(s) to which the funds are committed.

The only matching funds that may be counted for points are: 1) funds set aside (encumbered) to accomplish the goals and benchmarks of the project; and 2) donated labor, time, material, and/or money dedicated to completion of the project. Attach all documents associated with matching funds to the application.

What this means:

- Matching funds are dedicated to the project objective
- Matching funds can be money dedicated from a budget (encumbered) or donated to be used for the project.
- Examples of donated matching funds include-
 - a- land donated for a building- the value of the land is the value of the donation to the matching fund percentage;
 - b- Labor - a contractor is willing to donate 20% of the cost of labor from the cost of the building. The amount of money that 20% equals is the value of the matching fund; or
 - c- material donated from a supplier could also be used in the matching fund percentage
- Clear documentation is required showing the type of matching fund being included and the source
- The formula to determine the percentage of matching funds is: Matching fund total/total project budget = percentage of project matching funds.
(example \$150,000.00 is the total budget. \$50,000 match is encumbered, and the vendor requests \$100,000.00 is requested from OERSSIRF. $\$50,000/\$150,000 = 33.33\%$)

Guidebook for the Oklahoma Emergency Response System Stabilization and Improvement
Revolving Fund (OERSSIRF) - Fiscal Year 2025

Effective September 11, 2023: Senate Joint Resolution No 22 will amend OAC 310:641-5-1 by deleting sections (H) and (I) from paragraph 2. Previous awards and evaluations will not be required to complete the response to the Request for Proposals (RFP)

Previous Awards/Previous Benchmark Evaluations

~~If a qualified applicant has been approved for one or more OERSSIRF grants in the past, points shall be deducted; unless the previous proposal(s) was for an assessment of the need to establish an EMS agency or the stabilization of an at-risk EMS.~~

~~**Within the definitions of the regulation at risk is not defined.**~~

~~As part of the scoring process beginning in 2012, if five reviewers awarded points for an agency being at risk, then points for the previous proposal will not be deducted. Otherwise, points for previous awards will be deducted.~~

What does this mean?

- ~~• If you have never been awarded OERSSIRF funding this section does not apply to you~~
- ~~• If you have been OERSSIRF funding in the past, review previous awards and benchmark letters to determine the best score for your proposal.~~

Proposed Expenditures

Describe all goods and services to be purchased with the requested funding. Assign a separate item number to each one. Enter the statutory purpose of each item; the estimated receive date of the item, and the associated benchmark number. Attach copies of any bids received and label the bid with the corresponding item number. Ensure total cost does not exceed funds requested in the proposal. See the example on the form.

Each vendor will need to receive each deliverable to be reimbursed for the expense.

What does this mean?

- This is a summary of what you will purchase through OERSSIRF funds.
- It is also a type of checklist to make sure that you include all the plans from the narrative are on this form.

Benchmarks and Timelines for Benchmarks and Evaluations

As part of each proposal, the qualified entity is to include how success will be measured for the proposal.

The regulation states:

Regulation Reference: O.A.C. 310:642-7-1-(b)

(b) Each proposal shall include a section setting forth the criteria that will be used to evaluate the success of the project. The criteria shall include:

(1) Specific, objective metrics for evaluation of the project. For example: a percentage decline in response time or improvement in the number of available EMTs within a region, measured against the same metric at the start of the project.

Guidebook for the Oklahoma Emergency Response System Stabilization and Improvement
Revolving Fund (OERSSIRF) - Fiscal Year 2025

(2) A clear methodology and a description of data sources for computing the performance measures proposed in the project plan, for example, comparing responder response times or the total number of EMTs in a region against the same metric at the end of the project.

(3) Benchmark measures for each of the following assessment levels:

(A) Significantly improved.

(B) Improved.

(C) Not Improved.

(D) Worsened.

What does this mean?

- Benchmarks are required.
- Benchmarks will include a specific and measurable outcome and a description of how the outcome was measured to determine the level of improvement.
- Levels of improvement include Significantly Improved, Improved, Not Improved, and Worsened.

Questions and considerations:

- What do I need to stabilize and improve EMS?
- How did you determine what was needed?
- Why do I need this item or items?
- How are you going to measure success- for the significantly improved, improved, not improved and worsened levels?
- What information are you going to compare and use to show the goals were met- and the deliverables stabilized and improved the system?
- The process or the summary regarding why the deliverable is needed will need to include your current status.
- The process and methods to determine our status can be documented in the application.

Step one:

Determine your needs to “stabilize and improve” EMS within the application.

How did you determine your needs? Did you:

- Review agency records?
- Work with staff to identify needs?
- What “numbers” determined your needs?
- If awarded, we will see these numbers change and improve.

These are your specific objective metrics.

Example:

The current status is X, and Y is needed to stabilize and improve our current status.

The amount of change between X and Y determines your success level.

Also, X and Y will need a time frame reference. (Between MM/DD/YYYY and MM/DD/YYYY - This occurred to bring us to X. Through the funding, Y will be attained by MM/DD/YYYY)

Guidebook for the Oklahoma Emergency Response System Stabilization and Improvement
Revolving Fund (OERSSIRF) - Fiscal Year 2025

Levels of success:

- The current status is known, or X
- A solution has been selected to fix the current status,
- The solution will move us to Y by a certain date.
- Significantly improved will be attained if Y is 10 times better than X
- Improved will be attained if Y is 5 times better than X
- Not improved will be attained if X and Y are the same
- Worsened will be attained if Y is less than X

Another example or way to describe this process:

- What do I need the money for? (goal)
- What is my current status? (why do I need this goal)
- How do I know if I met my goal? (the benchmark and level of success)

(Goal or Need)- We need a new ambulance to because our old one is costing too much money to fix.

(Current status) The current ambulance cost the city \$15,000 to keep it running over the last two years. Based on what the unit maintenance history and current needs, it will cost another \$10,000 over the next 18 months.

(Success) If we get the new ambulance, it will save the City in maintenance costs to use the savings for other EMS related items. The savings will amount to a minimum of \$8,000.00 over the next 12 months.

Another example or way to describe this process:

The need identified is more personnel are needed.

Why are more personnel needed?

To continue the viability of the agency and decrease the number of times we relied on mutual aid and other agencies to respond to our area.

The applicant will use the funding to increase the number of licensed personnel through training courses.

Specific and objective Metric:

Between 2021 and 2022- our agency used mutual aid 25 times because we lacked the personnel to respond to all of our requests for service.

After training, the agency will have increased our staff members by 5 licensed personnel

By the end of the contract period, mutual aid requests will be decreased by 50%.

Different objective levels are needed for each of the benchmark levels.

Guidebook for the Oklahoma Emergency Response System Stabilization and Improvement
Revolving Fund (OERSSIRF) - Fiscal Year 2025

The section of evaluation will also need to include how the beginning and ending points for measurement were identified and calculated.

Based on the previous example, the data needed to measure this could include dispatch records, OKEMSIS records, and documents from the other agency.

Additional Points to consider

It is up to the applicant to identify how to measure the success and effectiveness of the program, but the application must include the following information:

- Each deliverable must have a way to measure success.
- Each measurement must have a beginning point, or current status.
- The current status must identify how the current status was measured or documented.
- The benchmark (Significantly Improved, Improved, Not Improved, and Worsened) must identify a level of success in a clear objective way.
- The way to measure success must be identified.

This section of the application must meet the minimum requirements from this regulation:

If this section is not submitted in a clear and complete manner, the response will not be evaluated.

Guidance Checklist

Supplier shall give the State and all affected Customers prior written notice of said assignment. Any assignment or delegation in violation of this subsection shall be void.

Supplier's access to facilities, data and information may be withheld prior to completion of background verification acceptable to the State. The costs of additional background checks beyond Supplier's normal hiring practices shall be the responsibility of the Customer unless such additional background checks are required solely because Supplier will not provide verification of results of its otherwise acceptable normal background checks; in such an instance, Supplier shall pay for the additional background checks. Supplier will coordinate with the State and its employees to complete the necessary background checks and criminal history investigations. Should any employee or subcontractor of the Supplier who will be providing services under the Contract not be acceptable as a result of the background check or criminal history investigation, the Customer may require replacement of the employee or subcontractor in question and, if no suitable replacement is made within a reasonable time, terminate the purchase order or other payment mechanism associated with the project or services.

11 Patents and Copyrights

Without exception, a product or deliverable price shall include all royalties or costs owed by the Supplier to any third party arising from the use of a patent, intellectual property, copyright or other property right held by such third party. Should any third party threaten or make a claim that any portion of a product or service provided by Supplier under the Contract infringes that party's patent, intellectual property, copyright or other property right, Supplier shall enable each affected Customer to legally continue to use, or modify for use, the portion of the product or service at issue or replace such potentially infringing product, or re-perform or redeliver in the case of a service, with at least a functional non-infringing equivalent. Supplier's duty under this section shall extend to include any other product or service rendered materially unusable as intended due to replacement or modification of the product or service at issue. If the Supplier determines that none of these alternatives are reasonably available, the State shall return such portion of the product or deliverable at issue to the Supplier, upon written request, in exchange for a refund of the price paid for such returned goods as well as a refund or reimbursement, if applicable, of the cost of any other product or deliverable rendered materially unusable as intended due to removal of the portion of product or deliverable at issue. Any remedy provided under this section is not an exclusive remedy and is not intended to operate as a waiver of legal or equitable remedies because of acceptance of relief provided by Supplier.

12 Indemnification

12.1 Acts or Omissions

- A.** Supplier shall defend and indemnify the Indemnified Parties, as applicable, for any and all liability, claims, damages, losses, costs, expenses, demands, suits and actions of third parties (including without limitation reasonable attorneys' fees and costs required to establish the right to indemnification) arising out of, or resulting from any action or claim for bodily injury, death, or property damage brought against any of the Indemnified parties to the extent arising from any negligent act or omission or willful misconduct of the Supplier or its agents, employees, or subcontractors in the execution or performance of the Contract.
- B.** To the extent Supplier is found liable for loss, damage, or destruction of any property of Customer due to negligence, misconduct, wrongful act, or omission on the part of the Supplier, its employees, agents, representatives, or subcontractors, the Supplier and Customer shall use best efforts to mutually negotiate an equitable settlement amount to repair or replace the property unless such loss, damage or destruction is of such a magnitude that repair or replacement is not a reasonable option. Such amount shall be invoiced to, and is payable by, Supplier sixty (60) calendar days after the date of Supplier's receipt of an invoice for the negotiated settlement amount.

12.2 Infringement

Supplier shall indemnify the Indemnified Parties, as applicable, for all liability, claims, damages, losses, costs, expenses, demands, suits and actions of third parties (including without limitation reasonable attorneys' fees and costs required to establish the right to indemnification) arising from or in connection with Supplier's breach of its representations and warranties in the Contract or alleged infringement of any patent, intellectual property, copyright or other property right in connection with a product or service provided under the Contract. Supplier's duty under this section is reduced to the extent a claimed infringement results from: (a) a Customer's or user's content; (b) modifications by Customer or third party to a product delivered under the Contract or combinations of the product with any non-Supplier-provided services or products unless Supplier recommended or participated in such modification or combination; (c) use of a product or service by Customer in violation of the Contract unless done so at the direction of Supplier, or (d) a non-Supplier product that has not been provided to the State by, through or on behalf of Supplier as opposed to its combination with products Supplier provides to or develops for the State or a Customer as a system.

12.3 Notice and Cooperation

In connection with indemnification obligations under the Contract, the parties agree to furnish prompt written notice to each other of any third-party claim. Any Customer affected by the claim will reasonably cooperate with Supplier and defense of the claim to the extent its interests are aligned with Supplier. Supplier shall use counsel reasonably experienced in the subject matter at issue and will not settle a claim without the written consent of the party being defended and where applicable the Attorney General of Oklahoma, which consent will not be unreasonably withheld or delayed, except that no consent will be required to settle a claim against Indemnified Parties that are not a State agency, where relief against the Indemnified Parties is limited to monetary damages that are paid by the defending party under indemnification provisions of the Contract.

12.4 Limitation of Liability

- A.** With respect to any claim or cause of action arising under or related to the Contract, neither the State nor any Customer shall be liable to Supplier for lost profits, lost sales or business expenditures, investments, or commitments in connection with any business, loss of any goodwill, or for any other indirect, incidental, punitive, special or consequential damages, even if advised of the possibility of such damages.
- B.** Notwithstanding anything to the contrary in the Contract, no provision shall limit damages, expenses, costs, actions, claims, and liabilities arising from or related to property damage, bodily injury or death caused by Supplier or its employees, agents or subcontractors; indemnity, security or confidentiality obligations under the Contract; the bad faith, negligence, intentional misconduct or other acts for which applicable law does not allow exemption from liability of Supplier or its employees, agents or subcontractors.
- C.** The limitation of liability and disclaimers set forth in the Contract will apply regardless of whether Customer has accepted a product or service. The parties agree that Supplier has set its fees and entered into the Contract in reliance on the disclaimers and limitations set forth herein, that the same reflect an allocation of risk between the parties and form an essential basis of the bargain between the parties. These limitations shall apply notwithstanding any failure of essential purpose of any limited remedy.

13 Termination for Cause

- 13.1** Supplier may terminate the Contract if (i) it has provided the State with written notice of material breach and (ii) the State fails to cure such material breach within thirty (30) days of receipt of written notice. If there is more than one Customer, material breach by a Customer does not give rise to a claim of material breach as grounds for termination by Supplier of the Contract as a whole. The State may terminate the Contract in whole or in part if (i) it has provided Supplier with written notice of material breach, and (ii) Supplier fails to cure such material breach within thirty (30) days of receipt of written notice. Any partial termination of the Contract under this section shall not be construed as a waiver of, and shall not affect, the rights and obligations of any party regarding portions of the Contract that are not terminated.
- 13.2** The State may terminate the Contract in whole or in part immediately without a thirty (30) day written notice to Supplier if (i) Supplier fails to comply with confidentiality, privacy, security, environmental or safety requirements applicable to Supplier's performance or obligations under the Contract; (ii) Supplier's material breach is reasonably determined to be an impediment to the function of the State and detrimental to the State or to cause a condition precluding the thirty (30) day notice or (iii) when the State determines that an administrative error in connection with award of the Contract occurred prior to Contract performance.

If a purchase order or other payment mechanism has been issued and a product or service has been accepted as satisfactory prior to the effective date of termination, the termination does not relieve an obligation to pay for the product or service but there shall not be any liability for further payments ordinarily due under the Contract or for any damages or other amounts caused by or associated with such termination. Such termination is not an exclusive remedy but is in addition to any other rights and remedies provided for by law. Any amount paid to Supplier in the form of prepaid fees that are unused when the Contract or certain obligations are terminated shall be refunded. Termination of the Contract under this section, in whole or in part, shall not relieve the Supplier of liability for claims arising under the Contract.

13.5 The Supplier's repeated failure to provide an acceptable product or service; Supplier's unilateral revision of linked or supplemental terms that have a materially adverse impact on a Customer's rights or obligations under the Contract (except as required by a governmental authority); actual or anticipated failure of Supplier to perform its obligations under the Contract; Supplier's inability to pay its debts when due; assignment for the benefit of Supplier's creditors; or voluntary or involuntary appointment of a receiver or filing of bankruptcy of Supplier shall constitute a material breach of the Supplier's obligations, which may result in partial or whole termination of the Contract. This subsection is not intended as an exhaustive list of material breach conditions. Termination may also result from other instances of failure to adhere to the Contract provisions and for other reasons provided for by applicable law, rules or regulations; without limitation, OAC 260:115-9-1 is an example.

14 Termination for Convenience

14.1 The State may terminate the Contract, in whole or in part, for convenience if it is determined that termination is in the State's best interest. In the event of a termination for convenience, Supplier will be provided at least thirty (30) days' written notice of termination. Any partial termination of the Contract shall not be construed as a waiver of, and shall not affect, the rights and obligations of any party regarding portions of the Contract that remain in effect.

14.2 Upon receipt of notice of such termination, Supplier shall immediately comply with the notice terms and take all necessary steps to minimize the incurrence of costs allocable to the work affected by the notice. If a purchase order or other payment mechanism has been issued and a product or service has been accepted as satisfactory prior to the effective date of termination, the termination does not relieve an obligation to pay for the product or service but there shall not be any liability for further payments ordinarily due under the Contract or for any damages or other amounts caused by or associated with such termination. Such termination shall not be an exclusive remedy but shall be in addition to any other rights and remedies provided for by law. Any amount paid to Supplier in the form of prepaid fees that are unused when the Contract or certain obligations are terminated shall be refunded. Termination of the Contract under this section, in whole or in part, shall not relieve the Supplier of liability for claims arising under the Contract.

15 Suspension of Supplier

15.1 Supplier may be subject to Suspension without advance notice and may additionally be suspended from activities under the Contract if Supplier fails

to comply with confidentiality, privacy, security, environmental or safety requirements applicable to Supplier's performance or obligations under the Contract.

15.2 Upon receipt of a notice pursuant to this section, Supplier shall immediately comply with the notice terms and take all necessary steps to minimize the incurrence of costs allocable to the work affected by the notice. If a purchase order or other payment mechanism has been issued and a product or service has been accepted as satisfactory prior to receipt of notice by Supplier, the Suspension does not relieve an obligation to pay for the product or service but there shall not be any liability for further payments ordinarily due under the Contract during a period of Suspension or suspended activity or for any damages or other amounts caused by or associated with such Suspension or suspended activity. A right exercised under this section shall not be an exclusive remedy but shall be in addition to any other rights and remedies provided for by law. Any amount paid to Supplier in the form of prepaid fees attributable to a period of Suspension or suspended activity shall be refunded.

15.3 Such Suspension may be removed, or suspended activity may resume, at the earlier of such time as a formal notice is issued that authorizes the resumption of performance under the Contract or at such time as a purchase order or other appropriate encumbrance document is issued. This subsection is not intended to operate as an affirmative statement that such resumption will occur.

16 Certification Regarding State Employees Prohibition From Fulfilling Services

Pursuant to 74 O.S. § 85.42, the Supplier certifies that no person involved in any manner in development of the Contract employed by the State shall be employed to fulfill any services provided under the Contract.

17 Force Majeure

17.1 Either party shall be temporarily excused from performance to the extent delayed as a result of unforeseen causes beyond its reasonable control including fire or other similar casualty, act of God, strike or labor dispute, war or other violence, or any law, order or requirement of any governmental agency or authority provided the party experiencing the force majeure event has prudently and promptly acted to take any and all steps within the party's control to ensure continued performance and to shorten duration of the event. If a party's performance of its obligations is materially hindered as a result of a force majeure event, such party shall promptly notify the other party of its best reasonable assessment of the nature and duration of the force majeure event and steps it is taking, and plans to take, to mitigate the effects of the force majeure event. The party shall use commercially reasonable best efforts to

continue performance to the extent possible during such event and resume full performance as soon as reasonably practicable.

17.2 Subject to the conditions set forth above, non-performance as a result of a force majeure event shall not be deemed a default. However, a purchase order or other payment mechanism may be terminated if Supplier cannot cause delivery of a product or service in a timely manner to meet the business needs of Customer. Supplier is not entitled to payment for products or services not received and, therefore, amounts payable to Supplier during the force majeure event shall be equitably adjusted downward.

17.3 Notwithstanding the foregoing or any other provision in the Contract, (i) the following are not a force majeure event under the Contract: (a) shutdowns, disruptions or malfunctions in Supplier's system or any of Supplier's telecommunication or internet services other than as a result of general and widespread internet or telecommunications failures that are not limited to Supplier's systems or (b) the delay or failure of Supplier or subcontractor personnel to perform any obligation of Supplier hereunder unless such delay or failure to perform is itself by reason of a force majeure event and (ii) no force majeure event modifies or excuses Supplier's obligations related to confidentiality, indemnification, data security or breach notification obligations set forth herein.

18 Security of Property and Personnel

In connection with Supplier's performance under the Contract, Supplier may have access to Customer personnel, premises, data, records, equipment and other property. Supplier shall use commercially reasonable best efforts to preserve the safety and security of such personnel, premises, data, records, equipment, and other property of Customer. Supplier shall be responsible for damage to such property to the extent such damage is caused by its employees or subcontractors and shall be responsible for loss of Customer property in its possession, regardless of cause. If Supplier fails to comply with Customer's security requirements, Supplier is subject to immediate suspension of work as well as termination of the associated purchase order or other payment mechanism.

19 Miscellaneous

19.1 Transition Services

If transition services are needed at the time of Contract expiration or termination, Supplier shall provide such services on a month-to-month basis, at the contract rate or other mutually agreed rate. Supplier shall provide a proposed transition plan, upon request, and cooperate with any successor

supplier and with establishing a mutually agreeable transition plan. Failure to cooperate may be documented as poor performance of Supplier.

19.2 Publicity

The existence of the Contract or any Acquisition is in no way an endorsement of Supplier, the products or services and shall not be so construed by Supplier in any advertising or publicity materials. Supplier agrees to submit to the State all advertising, sales, promotion, and other publicity matters relating to the Contract wherein the name of the State or any Customer is mentioned or language used from which, in the State's judgment, an endorsement may be inferred or implied. Supplier further agrees not to publish or use such advertising, sales promotion, or publicity matter or release any informational pamphlets, notices, press releases, research reports, or similar public notices concerning the Contract or any Acquisition hereunder without obtaining the prior written approval of the State.

19.3 Mutual Responsibilities

- A.** No party to the Contract grants the other the right to use any trademarks, trade names, other designations in any promotion or publication without the express written consent by the other party.
- B.** The Contract is a non-exclusive contract and each party is free to enter into similar agreements with others.
- C.** The Customer and Supplier each grant the other only the licenses and rights specified in the Contract and all other rights and interests are expressly reserved.
- D.** The Customer and Supplier shall reasonably cooperate with each other and any Supplier to which the provision of a product and/or service under the Contract may be transitioned after termination or expiration of the Contract.
- E.** Except as otherwise set forth herein, where approval, acceptance, consent, or similar action by a party is required under the Contract, such action shall not be unreasonably delayed or withheld.

19.4 Entire Agreement

The Contract documents taken together as a whole constitute the entire agreement between the parties. The Contract documents include this Contract, any Amendments to this Contract, applicable Solicitation, and any successful bid as may be amended or limited through negotiation. No statement, promise,

condition, understanding, inducement or representation, oral or written, expressed or implied, which is not contained in a Contract document shall be binding or valid. The Supplier's certifications, including any completed electronically, are incorporated by reference into the Contract.
