

## Datanetiix Solutions Inc. IT Staffing Partner for Oklahoma

### About Us

Datanetiix Solutions Inc. is an **IT services firm** with nearly two decades of experience in technology consulting, software development, and IT staffing. We are an approved supplier under the **Oklahoma SW1025 IT Staffing Contract**, giving Oklahoma state agencies, cities, towns, counties, K-12 schools, and higher education institutions direct access to qualified IT professionals.

We are not a staffing agency. We are an IT company that delivers staffing with the rigor of a technology partner. Every candidate we present is **interviewed and validated by our IT experts** before submission. This ensures the staff we provide are not only technically skilled but also ready to contribute effectively from day one.

With 18 years of public sector project delivery experience and a recent **IT Staffing contract award from Oakland County, Michigan**, we understand the technology needs of government and education. This background sets us apart in staffing, giving agencies confidence that our professionals can perform in complex environments.

### Core Staffing Competencies

We provide IT talent across multiple disciplines, including:

- ERP Specialists (Microsoft Dynamics)
- Microsoft 365 and SharePoint Engineers
- AI, Machine Learning, and Data Analysts
- Cloud, Web, and Mobile Application Developers
- Cybersecurity and Compliance Specialists
- IT Support and Help Desk Staff

### Proven Public Sector Experience

Our work with public institutions demonstrates our technical depth and strengthens our staffing credibility.

- **Oklahoma State University (OSU):** Developed a Pathogen Monitoring System using data and analytics to support public health preparedness.
- **San Bernardino Community College District (California):** Delivered ERP integration to improve student success outcomes.
- **Torres Martinez Desert Cahuilla Indians (Riverside County):** Provided infrastructure support and outreach programs to expand digital services.

These projects confirm that Datanetiix understands how to deliver results in education and government environments. This same expertise shapes how we recruit, screen, and recommend staff for Oklahoma.

## Our Approach to Staffing

Datanetiix brings a structured and disciplined approach to staffing.

- **Expert Screening:** All candidates are pre-vetted by Datanetiix IT experts before recommendation.
- **Stakeholder Alignment:** We work closely with hiring managers to understand requirements and match the right skills.
- **Clear Communication:** We maintain open, transparent communication throughout the engagement.
- **Continuity:** Our staffing models reduce turnover and protect institutional knowledge.
- **Outcome Focused:** Every staffing engagement is designed to support efficiency, service delivery, and public value.

## Certifications and Standards

Our staffing services are backed by recognized standards and credentials.

- **ISO 9001:2015 – Quality Management Systems:** Structured and consistent processes for candidate vetting and onboarding.
- **Microsoft Partner (Dynamics ERP, Microsoft 365, SharePoint):** Certified expertise in the platforms most used by public institutions.
- **Women-Owned Small Business (WOSB), Minority Business Enterprise (MBE), California DGS Small Business (Micro):** Supporting Oklahoma's supplier diversity goals.

## Why Oklahoma Should Choose Datanetiix

- Pre-approved supplier under the **Oklahoma SW1025 IT Staffing Contract** for simple procurement.
- An **IT firm with staffing expertise**, not a resume broker.
- Recent **IT Staffing contract award from Oakland County, Michigan**, reinforcing our national public sector credibility.
- **Candidates validated by IT experts** before submission, ensuring readiness and quality.
- 18 years of experience in public sector IT delivery.
- Credibility through project success with **Oklahoma State University, San Bernardino CCD, and Torres Martinez Desert Cahuilla Indians**.
- Certified in **ISO 9001:2015**, recognized as a **Microsoft Partner**, and committed to **supplier diversity**.
