

## ANNUAL ASSESSMENT OF INMATE PROGRAMMATIC NEEDS

In order to identify the needs of the inmate population and to determine the necessary programs and services required, the following survey regarding your inmate population is to be conducted annually.

### I. **Academic**

Are lower functioning inmates being served adequately?

Do inmates that are able to pass a high school equivalency test given the opportunity to take the GED?

Are inmates that are close to release given priority? What is the criterion for placement into an education program?

### II. **Vocational Training**

Do inmates receive vocational training at your facility?

If there is no specific program, are there opportunities for the inmate's transfer in order to receive vocational training?

Does staff train inmates through on-the-job training skills that can be related to an outside job/career?

### III. **Religious Services/Activities**

Are religious services available for all faiths?

Is there a variety of religious services other than worship available to inmates at your facility?

### IV. **Leisure-time Activities**

Do you have a variety of recreational activities available for all inmates? Are there leisure time activities for the handicapped or elderly at your facility? How many sedentary versus active recreational services are available?

### V. **Library Services**

Do inmates have opportunities to utilize the leisure library? Is there weekend/holiday services available?
