Description of Amendment:

a. This is to incorporate the following:

Q: The sheet and plate material that is on bid # 1310004008 is calling out for temper pass material which is about \$.03-\$.04 higher than regular hot roll. I was wondering how is it being verified that temper pass is being delivered to the facility by the vendor that is awarded the bid without material test reports?

A: All lines that are requesting temper pass material shall include MTRs with shipment to verify that they are temper pass.

b. All other terms and conditions remain unchanged.
