(Nursing Protocol must be signed by the Medical Provider if offender displays any of the below s/s or any **additional treatment/medication required**)

Refer to Medical Provider If:

- Worsening of condition or fails to respond after treatment
- Signs / symptoms of secondary infection

Medical Provider Notified: Date: _____ Time: _____ **Orders Received for Treatment:** Yes No

Assessment:

- Alteration in skin integrity related to infestation

Plan: Nursing Intervention Routine: (check all that apply)

- Check in assessment only for medical providers visit.
- Assessment completed. Chief complaint resolved prior to appointment. Instructed offender to follow-up sick call for signs/symptoms warranting further evaluation.
- Referred to medical provider for further evaluation and medications.
- Notify housing officer to clean cell, cloths, linens etc. according to facility procedure.
- Place offender's cloths and shoes in laundry bags and send to laundry department for decontamination.
- Diphenhydramine cream 2% to affected area three times a day for 4 days for itching. (only to be given if offender is not receiving topical medication).
- Education/Intervention: Instructed on hygiene, bathe with soap and water and allow skin to cool, do not share linens, signs and symptoms of secondary infection, keep hands off infected areas and avoid scratching, medication use, itching may persist for up to 7 days even though scabies mites are dead, follow-up sick call if no improvement. Offender verbalizes understanding of instructions.
