

OKLAHOMA DEPARTMENT OF CORRECTIONS OFFENDER MANAGEMENT SYSTEM

Responses are due to Ernest Lamirand by 15 December 2014.

Responses may be emailed to ernest.lamirand@doc.state.ok.us or 3400 N. M.L.K. Ave, Oklahoma City, OK 73111

The Oklahoma Department of Corrections have determined that their current offender management system capabilities are not meeting critical business needs. As a result, the Department is undergoing an analysis and evaluative process to develop a strategy to procure a solution to address these needs.

As part of this evaluation, we would like to obtain available information from the OMS Vendor community that may influence the strategy moving forward. We are requesting that interested vendors complete a short survey (of no more than 5 pages) to provide their input into the planning.

The information provided is voluntary and will not impact any vendor's ability to bid on an RFP in the future. The information provided will be confidential to the State and will not be shared with other Vendors.

1. How many active installations of your OMS product do you currently have installed (live in production)?
 - a. Where? (Agency/State/County/etc.)
 - b. Do you provide the ability to license specific modules separately (e.g. banking, health, pharma) if yes, please indicate which modules are operating at each installation.
2. How many concurrent implementations of your OMS are currently in progress?
 - a. Where?
 - b. Status of the implementation project? (E.g. contract signed, ready for production, etc.).
3. Who would be your best client reference for the State of Oklahoma, and why?
4. What differentiates your company and your product from others the OMS marketplace?
5. Please provide the history of your major product releases?
6. Please provide an overview of your planned product roadmap.
7. In your opinion, what were the major shifts in the practice of offender management at the State level over the past 5 years?
8. What is the future of offender management technology in the short term (within 3 years) and long term (within 10 years)?
9. What factors in the bid process influence your decision to respond to a bid? Please provide an example
10. What factors in the bid process will prevent you from responding to a bid? Please provide an example.

Optional: Please provide your marketing materials outlining the functional components that are provided by your product and available for licensing (e.g. Intake, Classification, Security Threat Groups Management, Judgement and Sentence, etc.)
