

Child Restraint

Title 47 Chapter 11

Section 11-1112

Child Passenger Restraint System

A. Every driver, when transporting a child under eight (8) years of age in a motor vehicle operated on the roadways, streets, or highways of this state, shall provide for the protection of said child by properly using a child passenger restraint system as follows:

1. A child under four (4) years of age shall be properly secured in a child passenger restraint system. The child passenger restraint system shall be rear-facing until the child reaches two (2) years of age or until the child reaches the weight or height limit of the rear-facing child passenger restraint system as allowed by the manufacturer of the child passenger restraint system, whichever occurs first; and

2. A child at least four (4) years of age but younger than eight (8) years of age, if not taller than 4 feet 9 inches in height, shall be properly secured in either a child passenger restraint system or child booster seat.

For purposes of this section and Section 11-1113 of this title, "child passenger restraint system" means an infant or child passenger restraint system which meets the federal standards as set by 49 C.F.R., Section 571.213.

B. If a child is eight (8) years of age or is taller than 4 feet 9 inches in height, a seat belt properly secured to the vehicle shall be sufficient to meet the requirements of this section.

C. The provisions of this section shall not apply to: The driver of a school bus or taxicab.
