Oklahoma Ethics Commission  
January 8<sup>th</sup>, 2019

The Oklahoma Second Amendment Association requests that the Oklahoma Ethics Commission abandon proposed Rule 5.2 for "Indirect Lobbying" and "Indirect Lobbyist."

This can and will set up persons to be targeted for exercising a fundamental First Amendment right to redress government. OK2A works toward educating the public to be involved in the process of good government while this regulation change will discourage it.

The work of the Oklahoma Ethics Commission is too important to be tainted with ill-advised policies with such a rule. We request that the Commission drop proposed rule.

Thank you.

Don Spencer

President  
Oklahoma Second Amendment Association
