# Oklahoma Firefighters Pension and Retirement Plan <br> Administered by <br> Oklahoma Firefighters Pension and Retirement System 

Schedule of Employer Allocations and Pension Amounts by Participating Employer

June 30, 2014
(With Independent Auditors' Report Thereon)

INDEPENDENT AUDITORS' REPORT
Board of Trustees
Oklahoma Firefighters Pension and Retirement System

## Report on Schedule of Employer Allocations and Pension Amounts by Participating Employer

We have audited the individual columns labeled "Employer Allocations" included in the accompanying Schedule of Employer Allocations and Pension Amounts by Participating Employer (the "Schedule") of the Oklahoma Firefighters Pension and Retirement Plan (the "Plan"), administered by the Oklahoma Firefighters Pension and Retirement System, which is a part of the State of Oklahoma financial reporting entity, as of and for the year ended June 30, 2014. We have also audited the total for all entities of the columns titled "Net Pension Liability," "Total Deferred Outflows of Resources," "Total Deferred Inflows of Resources," and "Total Employer Pension Expense" (specified column totals) included in the accompanying Schedule of the Plan as of and for the year ended June 30, 2014, and the related notes.

## Management's Responsibility for the Schedule

Management is responsible for the preparation and fair presentation of the Schedule in accordance with accounting principles generally accepted in the United States; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of a schedule that is free from material misstatement, whether due to fraud or error.

## Auditors'Responsibility

Our responsibility is to express opinions on the individual columns labeled "Employer Allocations" in the Schedule and the specified column totals included in the Schedule based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the individual columns labeled "Employer Allocations" and specified column totals included in the Schedule are free from material misstatement.

## INDEPENDENT AUDITORS' REPORT, CONTINUED

## Auditors' Responsibility, Continued

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the individual columns labeled "Employer Allocations" and specified column totals included in the Schedule. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the individual columns labeled "Employer Allocations" and specified column totals included in the Schedule, whether due to fraud or error. In making those risk assessments, the auditors consider internal control relevant to the Plan's preparation and fair presentation of the individual columns labeled "Employer Allocations" and specified column totals included in the Schedule in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the individual columns labeled "Employer Allocations" and specified column totals included in the Schedule.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

## Opinions

In our opinion, the Schedule referred to above presents fairly, in all material respects, the employer allocations and net pension liability, total deferred outflows of resources, total deferred inflows of resources, and total employer pension expense for the total of all participating entities for the Plan as of and for the year ended June 30, 2014, in accordance with accounting principles generally accepted in the United States.

## Emphasis of Matter

The Schedule includes a column entitled "Beginning Net Pension Liability." The allocation of the June 30, 2013, amount to participating employers is based on the same revenue percentages used for the 2014 allocations. Our report is not modified with respect to this matter.

## Other Matter

We have audited, in accordance with auditing standards generally accepted in the United States, the financial statements of the Plan as of and for the year ended June 30, 2014, and our report thereon, dated October 9, 2014, expressed an unmodified opinion on those financial statements.

## Restriction on Use

Our report is intended solely for the information and use of the Plan's management, the Plan's Board of Trustees, and contributing employers and their auditors and is not intended to be and should not be used by anyone other than these specified parties.

Shawnee, Oklahoma

OKLAHOMA FIREFIGHTERS PENSION AND RETIREMENT PLAN
Administered by
OKLAHOMA FIREFIGHTERS PENSION AND RETIREMENT SYSTEM

## SChEDLLE OF EMPLOYER ALLOCATIONS AND PENSION AMOUNTS BY PARTICIPATING EMPLOYER

As the percentages used for the allocations are actual and to a greater precision than the presented percentages, actual amounts presented may be different than the computed amounts due to rounding.

## NOTES TO SCHEDULE OF EMPLOYER ALLOCATIONS AND PENSION AMOUNTS BY PARTICIPATING EMPLOYER

June 30, 2014

## (1) SYSTEM STRUCTURE AND OPERATIONS

The Oklahoma Firefighters Pension and Retirement System (the "System") was established by legislative act and became effective on January 1, 1981. The System assumed responsibility for all previous existing municipal firefighters' pension plans in the state of Oklahoma. These municipalities transferred all existing pension assets and pension payment obligations to the System. The System recorded the investments at fair value as of the date of transfer. The System is administered by a 13 -member board which acts as a fiduciary for investment of funds and the application of plan interpretations. At June 30, 2014, there were 471 cities, 24 fire protection districts, and 120 county fire departments participating in the System. For report purposes, the System is deemed to be the administrator of the Oklahoma Firefighters Pension and Retirement Plan (the "Plan"). The State of Oklahoma (the "State") remits, through the Oklahoma Insurance Department, a portion of the insurance premium taxes collected by authority of the State. As a result of these contributions, the State is considered a non-employer contributing entity to the Plan.

The System is a part of the State financial reporting entity, which is combined with other similar funds (multiple-employer, cost-sharing) to comprise the fiduciary pension trust funds of the State.

The Oklahoma Firefighters Pension and Retirement System Board of Trustees (the "Board") is responsible for the operation, administration, and management of the System. The Board also determines the general investment policy of the System's assets. The Board is comprised of 13 members. Five members shall be the Board of Trustees of the Oklahoma State Firefighters Association, a 5-year term. One member shall be the President of the Professional Firefighters of Oklahoma or his designee. One member shall be the President of the Oklahoma State Retired Firefighters Association or his designee. One member shall be appointed by the Speaker of the House of Representatives, a 4 -year term. One member shall be appointed by the President Pro Tempore of the Senate, a 4 -year term. Two members shall be appointed by the President of the Oklahoma Municipal League, a 4 -year term. One member shall be the State Insurance Commissioner or his designee. One member shall be the Director of the Office of Management and Enterprise Services or his designee.

See Independent Auditors' Report.

## (1) SYSTEM STRUCTURE AND OPERATIONS, CONTINUED

The System administers the Oklahoma Firefighters Pension and Retirement Plan (the "Plan"). For report purposes, the System is deemed to be the administrator of the Plan.

This report was prepared to provide participating employers with additional information needed to comply with the financial reporting requirements promulgated under Governmental Accounting Standards Board Statement 68, Accounting and Financial Reporting for Pensions-an amendment of GASB Statement No. 27 (GASB 68). The System's annual financial statements, located at http://www.ok.gov/fprs/, contain additional information not included within the scope of this report. Participating employers will need to reference this report and the System's financial statements to fully comply with the disclosure requirements of GASB 68.

As interpreted through GASB 68, the State is considered a non-employer contributing entity. The State contributes a portion of the insurance premium tax collected through its taxing authority. Presently, this contribution is $36 \%$ of insurance premium tax collected by the State. For the fiscal year ended June 30, 2014, the State's contribution to the System totaled $\$ 79,545,329$. As a nonemployer contributing entity, no portion of the net pension liability has been allocated to the State. Generally, participating employers should multiply this amount by their calculated proportionate share to determine the amount of revenue to recognize related to pensions for fiscal year 2014.

This report provides specific detailed information and should be utilized by the System's participating employers to assist with the preparation of their financial statements. Data provided in this report is limited in time, nature, and scope and does not provide complete financial information related to the System or its participating employers.

## (2) ESTIMATES, CONSIDERATION OF VOLATILITY, AND KEY DATES

The Schedule of Employer Allocations and Pension Amounts by Participating Employer (the "Schedule") includes the use of significant estimates where required. Due to the long-term nature of defined-benefit pension plans, certain amounts, including the net pension liability, are based on actuarial mathematical models and estimates that project future expectations. The Schedule provides results for a specific point in time, and changes in estimates, investment performance, and future cost expectations can have a material impact on the information presented from one year to the next.

See Independent Auditors' Report.

## (2) ESTIMATES, CONSIDERATION OF VOLATILITY, AND KEY DATES, CONTINUED

Measurement Date and Valuation Date-The System has an annual actuarial valuation that coincides with its fiscal year end. The measurement date and valuation date covered by this valuation is June 30, 2014. The System's actuarial report is dated July 1, 2014.

Expected Remaining Service Life of Members-Certain deferred inflow and deferred outflow calculations require amortization over the remaining service life of the System's members, including retirees. For the fiscal year ended June 30, 2014, the membership's remaining service life was 6.37 years.

## (3) SCHEDULE COMPONENTS

## Employer Allocations

## Employer Contributions

Employer contributions represent each participating employer's actual contributions to the plan for the fiscal year. Contributions are calculated on a cash basis and only include actual payments received between July 1, 2013, and June 30, 2014.

## Employer Allocation Percentage

The employer allocation percentage represents the portion of each individual employer's actual cash basis contributions received for the fiscal year divided by the total of all employer contributions for the fiscal year. This percentage represents each employer's proportionate share of the pension amounts presented in the Schedule.

See Independent Auditors' Report.

## (3) SCHEDULE COMPONENTS, CONTINUED

## Net Pension Liability

The total pension liability was calculated using a discount rate of $7.5 \%$. For the fiscal year ended June 30, 2014, the System had a net pension liability of $\$ 1,028,347,843$ to be allocated proportionately among participating employers. The System's net pension liability at June 30, 2014, was calculated as follows:

| Total pension liability | $\$ 3,225,452,386$ |
| :--- | ---: |
| Plan fiduciary net position | $\underline{2,197,104,543}$ |
| Employer' net pension liability | $\underline{\$ 1,028,347,843}$ |
| Plan fiduciary net position as a percentage |  |
| of the total pension liability |  |

A net pension liability sensitivity comparison shows how a $1 \%$ change (both lower and higher) in the discount rate will affect the net pension liability. The following table presents the System's net pension liability for the current discount rate of $7.5 \%$, as well as what it would be using a discount rate $1 \%$ lower ( $6.5 \%$ ) and $1 \%$ higher ( $8.5 \%$ ).

| 1\% Decrease in <br> Discount Rate <br> $(6.5 \%)$ | Current Discount <br> Rate (7.5\%) | $1 \%$ Increase in <br> Discount Rate <br> $\underline{(8.5 \%)}$ |
| :---: | :---: | :---: |
| $\underline{ }$ | $\underline{ }$ |  |
| $1,342,805,129$ |  |  |

The Schedule presents the net pension liability at the current discount rate.

## Beginning Net Pension Liability

The beginning net pension liability of $\$ 1,182,799,612$ as of June 30 , 2013, was determined using a discount rate of $7.5 \%$. The allocation to the employer is done based on the same revenue percentages used for the 2014 allocations.

See Independent Auditors' Report.

## (3) SCHEDULE COMPONENTS, CONTINUED

## Deferred Inflows and Outflows of Resources

Certain differences that occur from year to year in the calculation of the net pension liability and net pension expense require amortization and recognition in future years. The following types of differences can result in a deferred outflow or deferred inflow of resources. Due to the variability of results that will affect the Plan, deferred inflows and outflows may vary significantly between years. Additionally, certain deferrals may have both inflow and outflow components that are amortized over future years.

## Differences between Expected and Actual Plan Experience

This difference occurs when the System's actuarial estimate of the Plan's experience costs for a given period differ from the actual experience costs. This is usually the result of differences in the make-up of retirees, the dates chosen to retire, the longevity of System's members, or other similar demographic factors. The most recent actuarial experience study for the System was for the 5 -year period from July 1, 2007, to June 30, 2012. Actuarial experience studies are performed every 5 years. For the fiscal year ended June 30, 2014, the System experienced a loss over expected experience, resulting in a system-wide deferred outflow for plan experience of $\$ 29,064,592$. System-wide deferred inflows and outflows that result from plan experience differences are divided by the expected remaining service life of its members, which was calculated as of the beginning of the measurement date to be 6.37 years, and amortized over that period, with the current year amount included in the determination of pension expense. For fiscal 2014, $\$ 4,562,730$ was included as a component of the calculation for pension expense, with the remaining balance of $\$ 24,501,862$ recognized as a deferred outflow. Each employer's proportionate share was multiplied by this amount to determine the remaining balance of deferred outflows attributable to plan experience differences for fiscal year 2014.

See Independent Auditors' Report.

## (3) SCHEDULE COMPONENTS, CONTINUED

## Deferred Inflows and Outflows of Resources, Continued

Net Difference between Projected and Actual Plan Investment Earnings
Each annual actuarial valuation estimates the expected return for the Plan. Net differences between this estimate and the actual investment earnings for a given year are included as either a deferred inflow when actual investment earnings exceed the estimate or a deferred outflow when actual investment earnings are less than the estimate. This difference is then amortized over a fixed 5-year period for each unique fiscal year. For fiscal 2014, the System's estimated investment return was $\$ 141,022,542$. Actual investment earnings for fiscal 2014 were $\$ 335,602,149$, exceeding the expected return by $\$ 194,579,607$. This amount is amortized over 5 years, resulting in $\$ 38,915,921$ used as a component of pension expense for fiscal year 2014, with the remaining balance of $\$ 155,663,686$ to be amortized over the next 4 years as a deferred inflow. These are collective plan amounts and are multiplied by each employer's proportionate share to determine each employer's allocation of this amount.

## Changes in Assumptions

On occasion, as the result of an experience study or other actuarial considerations, certain assumptions used for estimates may need to be changed. When this occurs, the Plan will generally experience an increase or decrease in either deferred inflows or deferred outflows. For the fiscal year ended June 30, 2014, no changes in assumption were made regarding the determination of the Plan's liabilities.

## Changes in Proportion and Differences between Employer Contributions and Proportionate Share of Contributions

A change in an employer's proportion can occur due to changes in the membership of participating employers, new employers joining the System, or other factors affecting the contributions of a participating employer in relation to all participating employers. When a change in proportion occurs, the participating employer will experience an increase or decrease in either deferred inflows or outflows during the period the change occurs. For the initial year of GASB 68 implementation, no changes in proportion are deemed to have occurred. There was no change in proportion or proportionate share of contributions for the fiscal year ended June 30, 2014.

See Independent Auditors' Report.

# NOTES TO SCHEDULE OF EMPLOYER ALLOCATIONS AND PENSION AMOUNTS BY PARTICIPATING EMPLOYER, CONTINUED 

## (3) SCHEDULE COMPONENTS, CONTINUED

## Pension Expense

## Proportionate Share of Net Pension Plan Expense

Under GASB 68, participating employers in cost-sharing, defined-benefit pension plans no longer expense actual contributions made to the plan. Accounting principles generally accepted in the United States require that the pension expense recognized by participating employers in a given year consider their proportionate share of all plan components, not just payments into the plan. For the fiscal year ended June 30, 2014, the Plan's collective pension expense allocated to all participating employers was $\$ 92,359,244$. This amount as of June 30, 2014, was calculated as follows:

Service cost
Interest on total pension liability
Expensed portion of current period differences between expected and actual experience
Changes in assumptions
Employee contributions
Projected earnings on pension plan investments
Differences between projected and actual earnings on plan investments
Pension plan administrative expense
Other changes in fiduciary net position
Total plan (collective) pension expense
\$ 58,783,664
229,050,716
4,562,730
$(22,057,504)$

1,958,101
$\qquad$
$\$ \quad 92,359,244$

The collective pension expense is broken out for employers by each unique proportion in the Schedule. The differences between expected and actual experience and the differences between projected and actual earnings on plan investments represent only the current year's portion of amortization to pension expense. The remaining unamortized balances of these differences are presented in their respective columns of the Schedule.

See Independent Auditors' Report.
