Dear Ms. Garfield:

I am requesting a physical and economic injury disaster declaration for Tulsa County. I make this request under the provisions of 13 Code of Federal Regulations, 123.3 (a)(3)(i) for the United States Small Business Administration (SBA).

I am requesting this declaration as a result of tornadoes, severe storms and straight-line winds beginning March 30, 2016, and continuing. This storm caused damage to homes, businesses and infrastructure in Tulsa County and the surrounding counties in northeastern Oklahoma.

Beginning April 4, 2016, the state and local officials, along with Federal Emergency Management Agency and SBA representatives, conducted an assessment of damages in the affected area to include Tulsa County. Damage information relative to the situation is summarized below and in the attachment.

Presently damaged homes and businesses in Tulsa County sufficiently meet SBA criteria for a declaration. Due to the magnitude of the incident, meeting the many short and long term needs of victims of this disaster is beyond the local and state capability. It is vitally important the government at the local, state and federal level work together to provide the resources necessary for the victims to recover from this storm. I have determined there are at least 287 businesses and homes affected by this storm and as a result, I am requesting that SBA consider a Physical and Economic Injury Disaster Declaration for Tulsa County.

Sincerely,

A handwritten signature in black ink that reads "Mary Fallin".
