

Oklahoma State Department of Health
Creating a State of Health

LONG-TERM CARE FACILITY ADVISORY BOARD

Regular Meeting

April 09, 2014 at 1:30 in Room 1102

Oklahoma State Department of Health, 1000 N.E. 10th Street, Oklahoma City, OK 73117-1299

AGENDA

1. Call to Order.....Dewey Sherbon, Chair
2. Roll Call.....Natalie Smith
3. Review and Action to Approve/Amend the January 08, 2014 Regular Meeting minutes..... Dewey Sherbon, Chair
4. Quality Measures.....Matthew Loyd
Matthew Loyd, Vice President of Health and Wellness
5. Board of Health Presentation.....Dr. Hank Hartsell
Dr. Hartsell will discuss: Review of Briefing Provided to State Board of Health on March 11, 2014 titled "Improving Targeted Health Outcomes: Long Term Care Update"
6. Discussion of opportunities for improvement relating to State Health Department investigations and registry notations on nurse aides.....Dr. Hank Hartsell
Dr. Hartsell will discuss opportunities for improvement relating investigations and registry notations on nurse aides.
7. Legislative Update.....William Whited
William Whited, Deputy State Long-Term Care Ombudsman, will update the board on legislation.
8. Update to the Implementation of the Fingerprint Based National Background Check
.....James Joslin
Members will receive an update on the implementation of the Fingerprint Based National Background Check program and website: <http://onbc.health.ok.gov>
9. Long Term Care Update.....Dorya Huser
*Annual CMS review of performance of LTC
Goals for 2014 for LTC
Where is Mike Cook???
Fall Conference - Association of Health Facility Survey Agency (AHFSA) – presentations by OK staff*
10. New Business.....Dewey Sherbon

11. Public Comment

12. Adjournment

LONG-TERM CARE FACILITY ADVISORY BOARD

Regular Meeting

January 08, 2014 at 1:30 in Room 1102

Oklahoma State Department of Health, 1000 NE 10th Street, Oklahoma City, OK 73117-1299

MINUTES

January 08, 2014

1) Call to Order

Dewey Sherbon, Vice-Chair, called the meeting to order at 1:32 pm.

2) Roll Call

Natalie Smith called roll with the following LTCFAB members present: Kay Parsons, Chair; Dewey Sherbon, Vice Chair; Theo Crawley; Alan Mason; Wendell Short; Dustin Cox; Ivoria Holt; Linda Brannon; Donna Bowers; Diana Sturdevant; Willie Burkhart; Christean Bolding; Adam Jordan; Joanna Martin; Randy McKinney; Joyce Clark; Jimmy McWhirter; James Colgan; Robert Quatro; Andrew Dentino; Carrie DuRoy; Esther Houser; Eileen Wilson; Pamela Humphreys; and Monica Woodall.

The following LTCFAB members were absent: Luke Tallant

Currently, there is one vacancy on the LTCFAB which consist of twenty-seven (27) members.

A quorum was met with twenty-five (25) members present.

3) Introductions:

The LTCFAB members introduced themselves and welcomed new members and quests.

The following guests were present: Linda P. Colgan, general public; Oralene Sherbon, general public; Michael Jordan, OSDH/LTC; Mary Brinkley, Leading Age Oklahoma; Marilyn Kipps, general public; Gail Bieber, general public; James Kipps, general public; Vicki Kirtley, OSDH/NAR; Walter Jacques, OSDH/ONBCP; Mary Fleming, OSDH/LTC; Mike Cook, OSDH/LTC; Greg Frogge, McAfee Taft; Susan Daniels, OSDH/ONBCP; Dorya Huser, OSDH/LTC.

Meetings are posted at:

<http://www.health.ok.gov/calendar/mtngs/index.html>

<http://www.sos.state.ok.us/meetings/agencymeets.asp?intAgency=316>

Approved minutes are posted at <http://www.health.ok.gov/calendar/mtngs/lcab.html>

4) Board History and Operational Routines:

Dorya Huser, Chief LTC, discussed the importance of the Long Term Care Facility Advisory Board, stating this is a board that is set in statute appointed by the governor. This is a twenty-seven member board which includes five agency representatives. The representing agencies include: Department of Human Services (DHS); Fire Marshal; Okla. Health Care Authority (OHCA); and the Dept. of Mental Health and Substance Abuse Services (DMHSAS). This Board also includes: three adult day care facility owner-operators; three Continuum of Care Facilities; six general public over age of 65; one licensed general practitioner; one licensed practical nurse; one licensed registered nurse; one nursing home operator-administrator; one osteopathic general practitioner; and three residential care home operator-administrators. The terms are for three years. Once your term is complete you can decide to reapply to the governor's office to retain your position. With this Board you have to have a quorum, this being at least 14 members present to take a vote. You do not have to have a quorum to have an open discussion. The Board can form an Ad Hoc committee at any time. This committee is not addressed in the open meetings act. It is not a voting committee. This committee is use to bring forward recommendations to the Board for decision. The LTCFAB is independent of the Long Term Care program. You do have the power to make recommendations to the agency or the commissioner. The Long Term Care program will provide clerical support and a place for the Board to meet. The Board will meet annually to elect your officers. There is an annual report that goes out to the Governor each year. This report captures the main points brought to the board each year.

The Advisory Board shall have the power and duty to:

1. Serve as an advisory body to the Department for the development and improvement of services to and care and treatment of residents of facilities subject to the provisions of the Nursing Home Care Act, homes subject to the provisions of the Residential Care Act and facilities subject to the provisions of the Adult Day Care Act;
2. Review, make recommendations regarding, and approve in its advisory capacity the system of standards developed by the Department;
3. Evaluate and review the standards, practices, and procedures of the Department regarding the administration and enforcement of the provisions of the Nursing Home Care Act, the Residential Care Act and the Adult Day Care Act, and the quality of services and care and treatment provided to residents of facilities and residential care homes and participants in adult day care centers. The Board may make recommendations to the Department as necessary and appropriate;
4. Evaluate and review financial accountability standards, policies and practices of residential care facilities regarding residents' funds for which the facility is the payee, and evaluate and review expenditures made on behalf of the resident by the facility to ensure that such funds are managed appropriately and in the best interests of the resident; and
5. Publish and distribute an annual report of its activities and any recommendations for the improvement of services and care and treatment to residents of facilities and residential care homes and participants in adult day care centers on or before January 1 of each year to the Governor, the State Commissioner of Health, the State Board of Health, the Speaker of the House of Representatives, the President Pro Tempore of the Senate, and the chief administrative officer of each agency affected by the report.

Luke Tallant	<input type="checkbox"/> Aye <input type="checkbox"/> Abstain <input type="checkbox"/> Nay	Shading = Absent	

7) Bulk Medication Proposed Rule Acceptance:

After a request from the industry and others that there be a rule in place to expand the category of bulk medications; this process has been completed and approved by the Board of Health in November 2013. The bulk medications list has now been expanded to include a broader list of medications. This is the only rule that we currently have moving forward this year. This rule will more than likely go into effect November 1, 2014. Esther noted that it is possible that this went thru as an emergency rule in December 2013. If so the governor then has 45 days to review and either passes or vetoes it. If the governor signs it, it will go into effect immediately pending permanent rule making.

 Approved minutes are posted at <http://www.health.ok.gov/calendar/mtngs/ltcab.html>

8) Statistical Report Update on Protective Service Operations:

Mike Cook informed the board that being a regulatory agency we have several mandates that we are required to meet. There are currently 27 rules we have to meet. Over the last several years the LTC program has been in a position where the resources were unavailable in order to meet the mandates. This placed the program in a position of falling behind on complaints, specifically in the areas of nursing homes where we lacked the ability to get to some of the Non-IJ High complaints, or to get to the residential care facilities 3 times a year, or make it out to the assisted living facilities in a specific time frame allowed by law. Over the last 18 months, LTC has been afforded the opportunity to have the resources to better prepare to meet the mandates.

Based on the SFY 2013 Mandates handout in July 2012 LTC had 78 surveyors, 59 of those were trained, 19 were in training, but there was a need for 89 surveyors. It takes a year to get a surveyor trained and ready for survey. During their training, they will go out with the teams, but what they can contribute varies upon how much training they have had. Over the last 18 months, you can see that we have been given the resources and we are training on average 25 to 26 every month and have gone to 72 fully trained staff, and maintaining a full staff from 96 to 98.

While improving the staffing numbers, LTC has been able to maintain a state wide interval of 12.9 months consistently over the last 3 years for Nursing Facilities and Intermediate Care Facilities for the Intellectually Disabled. LTC is also required to make sure we are there no longer than 15.9 months after the last day of the previous standard survey. This has been accomplished 100% of the time since 2011. An area LTC is very proud of is the Non Immediate Jeopardy High. This is an area LTC did not have the staff to conduct these in a timely manner. In 2011, this area had been maintained at 35%, in 2012 at 32%, 2013 at 61%, and in the current FY it is being maintained at 98%. The NON IJ medium and low in 2011 were measured at 45%. In 2014 we are maintaining at 90%. The assisted living facilities are also a 12.9 month average. In 2011, our average was 17.3 months. In 2014, we are at 11.8 months. As far as the 15.9 month interval for assisted living in 2011, it was at 66%. The current FY we are at 100%. Adult Day Care has been consistent at 100%.

9) Assisted Living Assessment and Admission Standards:

Mary Fleming discussed assessments of long term care facilities with the Board. She explained the State Health Department regulates approximately 700 LTC providers. Noting there are 42 Adult Day Cares, 84 Residential Care Facilities, 165 Assisted Living Facilities, 82 Intermediate Care Facilities for the Intellectually Disabled, and approximately 320 Nursing Facilities.

The Adult Day Care Centers require a physician's assessment within 5 days after admission. A plan of care is developed based on that. If the resident does not take any medication or does not require physician oversight, then a nurse can complete the assessment. In an Adult Day Care, a resident may have any range of nursing or medical needs and may require any level of care.

Residential Care homes require no assessment. Routine nursing services are prohibited by law and by rule. This type of home is generally for room and board, medication, meals, and general supervision.

Intermediate Care Facilities for the Intellectually Disabled require an extensive assessment. Within 30 days clients have to be assessed by a physical therapist, occupational therapist, speech therapist, audiologist, and optometrist. The goal for this client is to become as independent as possible. This is a social and vocational program.

Assisted Living Centers (ALC's) are consumer /market driven. In Oklahoma this is the most fluid type of service we regulate, a lot of it is dependent on what is going on within our communities at the time. The AL centers determine who they want to serve and what services they want to provide and then they staff for those possibilities. An assisted living center, by law, provides intermediate nursing services, which can mean anything up to 23 hours and 59 minutes a day. The resident must not require complete care, and may only require transfer assistance, and may require medication assistance. Oklahoma now has aging in place for assisted living, which allows the resident to remain until the end of life. This may mean nursing services may be required throughout the day, so the assessment should reflect the contract the assisted living center has with the Health Department. When the assessment rules were developed, the Assisted Living Act said the assisted living centers would use uniform assessment tools to assess the residents upon admission. If centers use the OSDH recommended assessment, then the centers would be without deficiencies in this area along with the residents receiving better care.

Robert Quatro asked if it was a mixed type facility, could the medical people be used between the areas. Mary informed the Board that would fall under a Continuum of Care, sometimes an ALC is on the same campus or they are attached to the nursing home. On a limited basis, it is allowed for a nurse to go over and check a resident in an Assisted Living center, however when this takes place, they are pulling from the staffing requirements of the nursing facility. Michael Jordan, Long Term Care, questioned if there was a law stating there is an assessment required. In assisted living centers, there are laws specifically for the benefit of assisted living center consumers. The survey staff has been trained specifically on the particular components associated with assisted living centers, and they will cite the parts of the assessment that the center failed to access in order to create a care plan for the resident.

Assisted living centers and Nursing facilities complete a required annual assessment which is required within fourteen days after admission. If a resident has specific needs, a care plan must be developed within twenty-one days. Dianna Sturdevant asked if there is a specific guideline if there is a significant change with the resident. There is a requirement that if there is a resident that has a significant change in condition that the physician and family are contacted and there is a change in their plan of care that addresses the significant change. Mr. Kipps, guest, asked if there were any regulations or rules that stipulate what must be met for one of these care centers to say they provide memory care. There is an Alzheimer's disclosure that must be presented to the State Health Department that describes what makes care specialized. Dewey Sherbon, Chair, noted there was a difference in rules from Assisted Living to Nursing Facilities. Looking at it from the liability view and the risk factor, Dewey asked if the Assisted Living facilities like to have more rules. Dustin Cox stated they probably would not like to have more rules, but if there were additional regulations, then they would be followed.

Nursing Home assessment is thirty-one (31) pages and changes frequently. This is a highly regulated industry. Long Term Care has survey protocol and deals with oversight of CMS services.

Meetings are posted at:

Approved minutes are posted at <http://www.health.ok.gov/calendar/mtngs/ltcab.html>

Residents come to the nursing home and may stay to complete rehabilitation. This keeps cost under control. If the assessment is done correctly, it can be determined if the resident has declined.

10) Anti-psychotic Drug Usage - Reduction Study:

Mary Fleming informed the Board about the anti-psychotic drug reduction initiative, noting Oklahoma is one of eleven states that have met or exceeded the target in the reduction of psychotic medications. Oklahoma had a 17% reduction in the first year; we were the 7th highest in the nation for the greatest reduction. In the last fifteen months we are down to number 11. This is because more states are getting on board. LTC has aggressively tried to train providers, public and caretakers on reducing the need for these types of medications. Dorya noted that Mary Fleming and Paula Terrell put together a lot of stakeholders to meet these requirements. Oklahoma is currently the only state in Region 6 who has met this challenge.

11) Update to the Implementation of the Fingerprint Based National Background Check:

Walter Jacques provided an update on the progress of the National Background Check program. The National Background Check Program came about as a result of the Affordable Care Act which specified a fingerprint based criminal background history on individuals who are going to work with direct patient access in the LTC environments. NBCP is working to have the software portal working prior to implementation. ADC/RC must comply by March 1, 2014. Any facility can begin using this portal by February 1, 2014. This is not retroactive for existing employees; this is for new employees. There is a tentative schedule for training for providers around the state. As of right now training is being lined up for Wetumka, Ardmore, Tulsa, and Oklahoma City. Online training material can be found at: omdc.health.ok.gov.

There is a pilot program where you can get a feel for the system, it is an older version of the program but it allows you to test and see the capabilities of the program. To date there are 146 providers signed up for the pilot program: 71 Nursing facilities, 22 Adult Day Care, 18 Assisted Living, 11 Residential Care, 10 Home Health Agencies, and 9 Skilled Nursing Facilities. Currently we are looking at about 1200 facilities that will be using this program in Oklahoma which will average approximately 150 determinations a month. It is expected when this program is up and running, the numbers will be closer to 200 to 250 a week.

12) QIS Update:

This item will be tabled until the April 2014 meeting.

13) Challenges/New Business:

Dorya Huser, Chief Long Term Care, noted there are changes coming relating to both federal and state. Long Term Care is looking into changes in any type policies and protocol and looking to address those. Long Term Care has increased their percentages of worked complaints with overtime and hard work. Long Term Care workload went up approximately 8 percent when the VA centers were added. Long Term Care is making great progress and turning important corners and looking forward to making more with people in the industry.

Approved minutes are posted at <http://www.health.ok.gov/calendar/mtngs/ltcab.html>

14) Public Comment

Jim Kipps, guest, made a statement about the video acceptance and about the procedures being in place by federal law and state law. He also made note on the discussion on crimes and the National Background Check Program, saying the difference of crimes between states is the interpretation of the crime. Any other place in the state where this is in question, the state has taken the position ~~in~~ that if the crime meets criteria for that offense, it is counted and not what the name of it is in another state. Dewey Sherbon asked Mr. Kipps to send a concise email addressing his concerns that he would like answered so the board can have a better look at it. Mary Brinkley noted there has been an unbelievable change going on in LTC, the anti-psychotic reduction but also in culture change. There are great things going on in culture change and the culture change network. Currently we are working on getting a Governor's proclamation making April 28- May 2, 2014 Culture Change thru Long Term Care Week.

15) New Business:

Esther Houser brought up a newspaper article running in the real-estate section of the Daily Oklahoman about unlicensed facilities. This program provides senior care in single family setting. This is a potential unlicensed facility, charging anywhere from \$2,000 to 4,800 a month for care. These individuals are not licensed to operate. The statutes in Oklahoma say you have to be licensed if you provide a certain level of service. This issue will be revisited at the next meeting on April 09, 2014.

16) Adjournment

The meeting adjourned at 4:09 p.m.

Meetings are posted at:

LONG TERM CARE UPDATE FOR THE
STATE BOARD OF HEALTH
MARCH 11, 2014

IMPROVING TARGETED HEALTH OUTCOMES

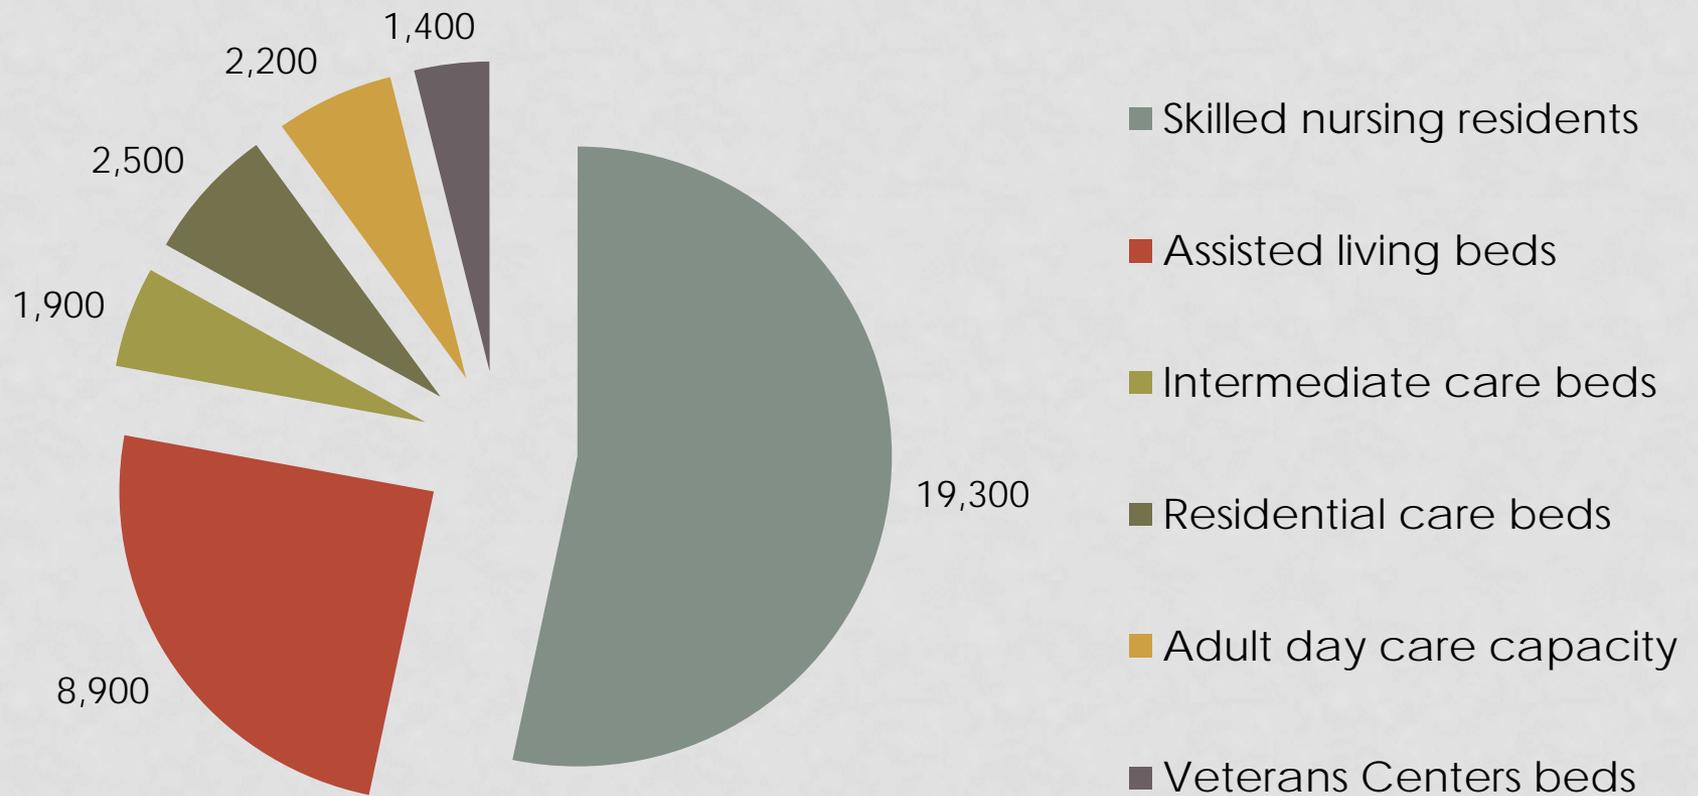

TARGETED IMPROVEMENTS: TODAY'S TOPICS

- Long term care settings
- Core priorities: mandates
- Improving resident outcomes
- Shared responsibilities
- Opportunities

TARGETED IMPROVEMENTS

LONG TERM CARE SETTINGS

LONG TERM CARE SETTINGS

Source: OSDH Long Term Care Service, SFY2013

A TYPICAL NURSING FACILITY RESIDENT

- Person:
 - Widowed female, between 85 – 95
 - Can participate in activities or social interactions
 - Wants to choose clothing, take care of belongings, choose bedtime, go outside for fresh air, attend religious services, listen to favorite music and do favorite activities
- Nursing, medical and health:
 - Uses wheelchair, generally does not walk
 - Needs help lying down, sitting up, turning in bed, standing up
 - Admitted after hospital stay
 - Hypertension, depression, gastro esophageal reflux disease or ulcer, non-Alzheimer's dementia, hyperlipidemia, diabetes mellitus, anxiety disorder, heart circulation/anemia, heart failure, asthma, chronic obstructive pulmonary disease
 - Incontinent of bowel and bladder
 - Needs assistance dressing, toileting, bathing and eating

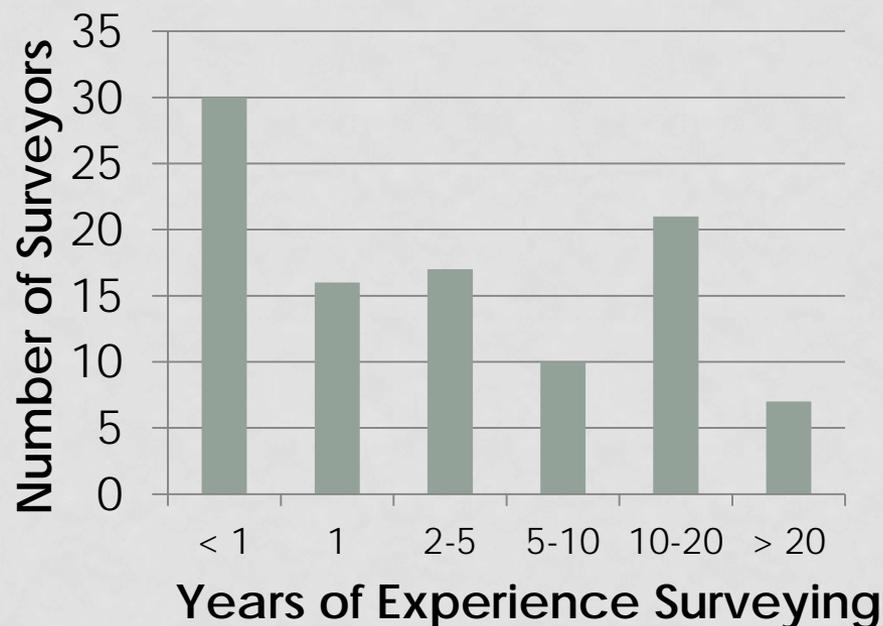

TARGETED IMPROVEMENTS

CORE PRIORITIES: MANDATES

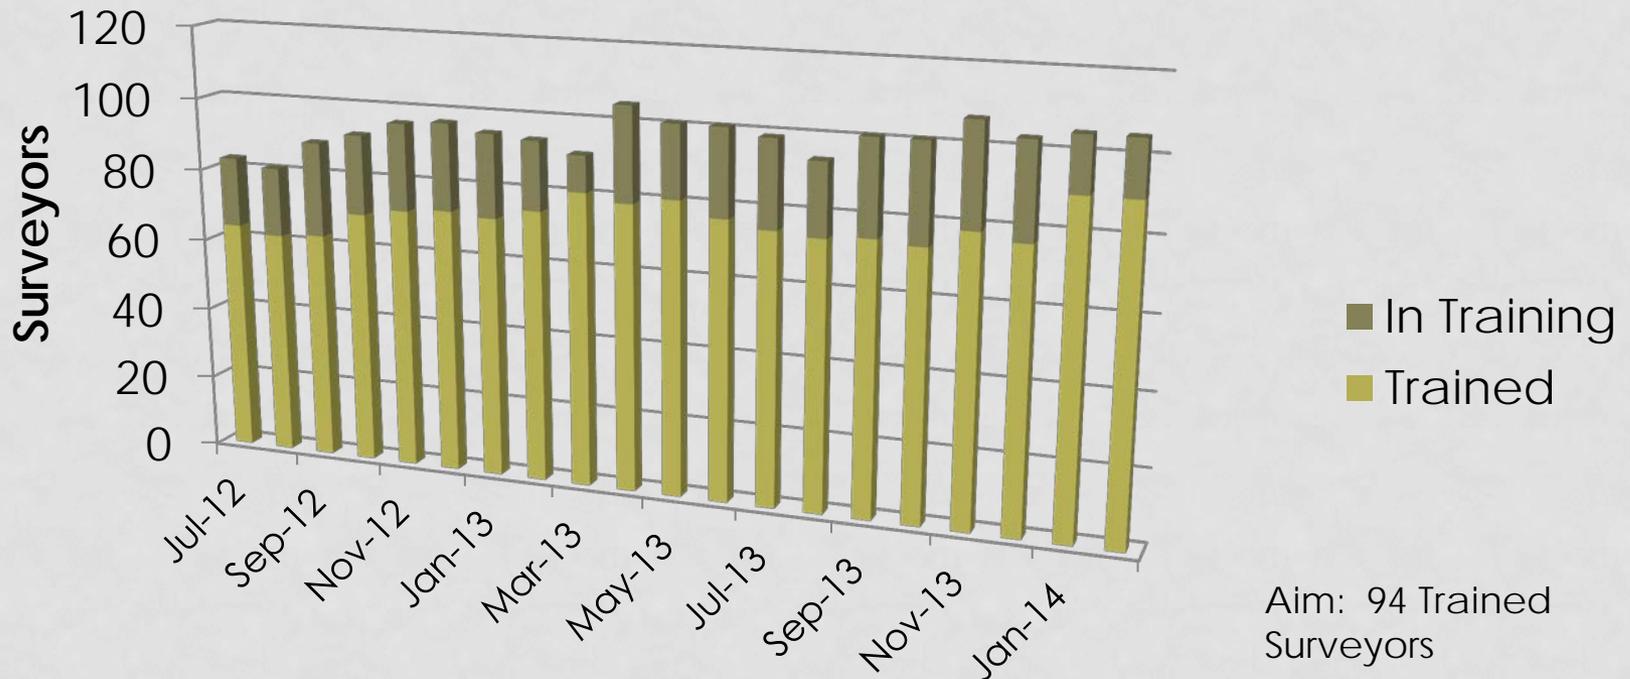

A TYPICAL LONG TERM CARE SURVEYOR WITH OSDH

- Registered nurse (90%)
- 55 years of age
- 8 years experience surveying
- Nurses practice at least 5-7 years before OSDH hire

INCREASING SURVEYOR STAFFING

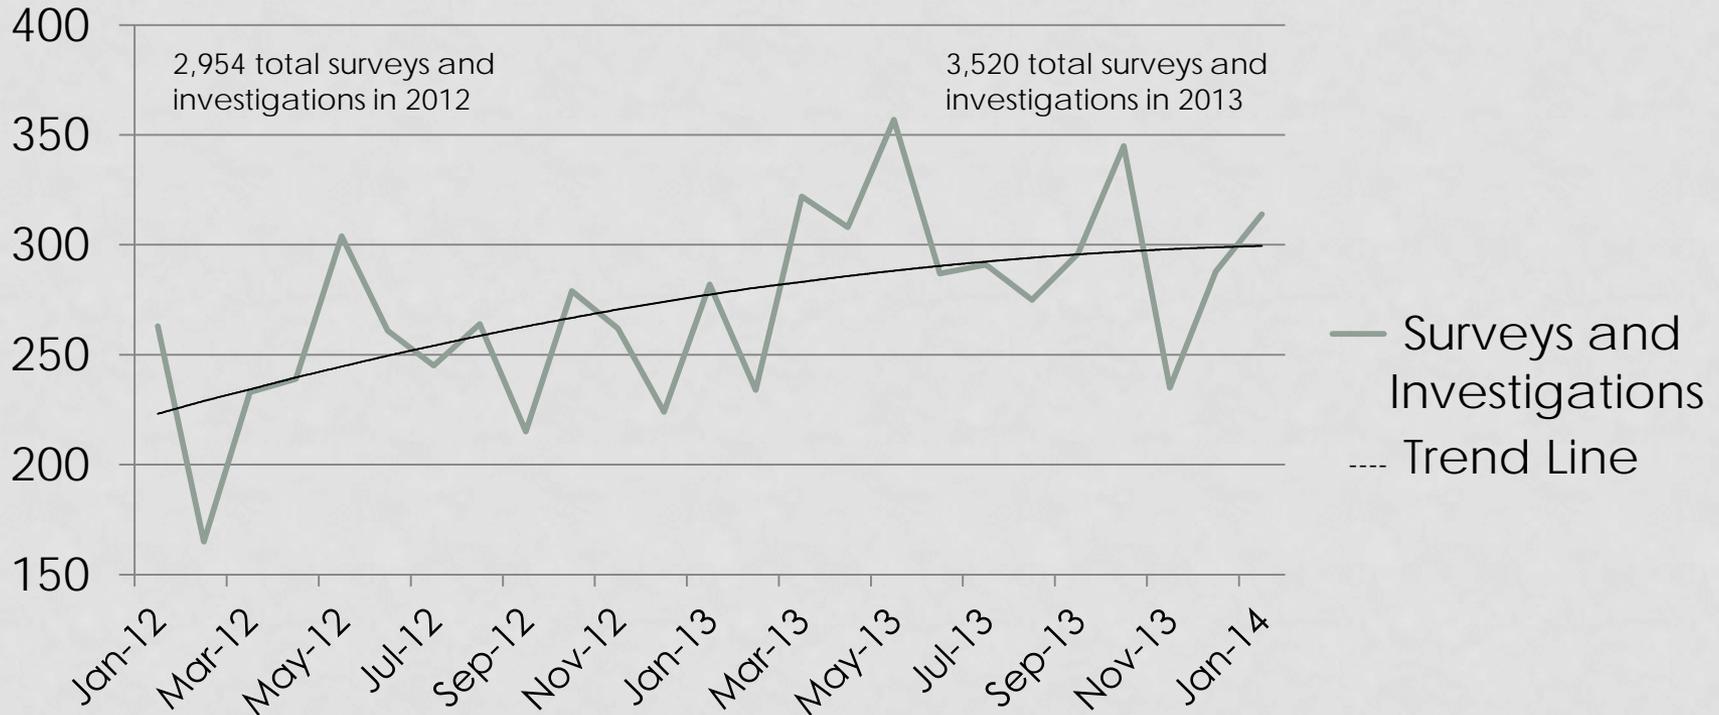

Long Term Care Surveyor Staff Increases 27% July 2012 to February 2014

Source: OSDH Long Term Care Service, February 2014

INCREASING SURVEY PRODUCTION

**Surveys and complaint investigations performed
monthly increase 35% from Jan. 2012 to Jan. 2014**

Source: OSDH Long Term Care Service, February 2014

PERFORMANCE ON MANDATES JULY - DECEMBER 2013

- 194 of 194 (100%) immediate jeopardy complaint investigations initiated within two days
- 189 of 194 (97%) complaint investigations for high priority complaints that do not constitute immediate jeopardy initiated within 10 days
- 261 of 296 (88%) of other lower-priority complaint investigations initiated within 25 days
- Nursing facility and assisted living survey intervals within 12.9 month requirement
- All residential care homes inspected at least once

TARGETED IMPROVEMENTS

RESIDENT OUTCOMES

OKLAHOMA PARTNERSHIP TO IMPROVE DEMENTIA CARE

Opportunity to reduce unnecessary antipsychotic medications in nursing facility residents with dementia

Number of residents receiving antipsychotic medications

Aim: 15% improvement

Actual: 18% improvement

Direct impact: 944 residents

Source: OSDH Long Term Care Service, February 2014

SUCCESS STORY

Dementia patients administered fewer drugs

Mary Fleming thought she was up for the challenge, albeit a big one.

That day, when her boss asked for someone to lead an initiative to improve care in Oklahoma's nursing homes, Fleming raised her hand, knowing she couldn't do it alone.

"We knew that it was going to be difficult, and not everybody's up for it, but I had this feeling of, 'I think I know how to do this!'" she said. "But I also knew it would take a lot of collaboration and cooperation from other stakeholders in the industry."

Last year, the Centers for Medicare & Medicaid Services put out a call to

states to decrease their usage of antipsychotic drugs prescribed to nursing home patients who have dementia.

And after about a year of work, CMS announced in late August that Oklahoma was among 11 states that reduced antipsychotic drug usage in nursing home facilities by 15 percent in 2013.

Oklahoma had one of the highest rates in the nation. About one-third of the state's nursing homes had more than 50 percent of residents with dementia who were on antipsychotic medication, Fleming said.

Antipsychotic medications are used to treat

schizophrenia and schizophrenia-related disorders, according to the National Institute of Mental Health. The concern from CMS was that thousands of older residents were taking these medications unnecessarily.

Fleming and her colleagues at the state Health Department worked with several people in Oklahoma's nursing home industry to put forth a better plan for residents.

"Everybody knew this was the right thing to do," Fleming said. "Overuse of

9/14/13

Jacyln Coegrow

STAFF WRITER

medication had become a problem, and the ability to communicate with those stakeholders and get

across an important message and be able to work with them on this project was an opportunity."

The work began in July 2012. Health Department workers hosted a conference with about 300 people across Oklahoma and talked with them about the use of antipsychotic drugs during the conference.

They also held several workshops and visited

nursing homes with the highest rates of use. There were 101 nursing homes in Oklahoma that had rates higher than 26 percent, the national threshold at the time, Fleming said.

At the end of this first year of implementation, the rate of inappropriate antipsychotic drug use for residents with dementia in Oklahoma nursing homes dropped 15.68 percent, exceeding the CMS national benchmark of 15 percent for that time period, according to the Health Department.

Dementia is not a specific disease. Rather, it is a
