

Newborn Screening Results

AVAILABLE 24 HOURS A DAY, 7 DAYS A WEEK

To assist health care providers in ensuring every newborn is adequately screened, the Newborn Screening Program of the Oklahoma State Department of Health has established an automated **Voice Response System**.

- 1 Call **271-4774** (Oklahoma City local)
1-877-542-9111 (Toll-Free)
- 2 Provide your pre-assigned Submitter ID number and PIN.
- 3 Provide the infant's filter paper serial number or
Mother's Social Security number.

A screening result will be provided at the time of the call and if requested, faxed to your office.

- ❑ To verify your PIN and Submitter ID number, or to update your fax number, call the Public Health Laboratory at (405) 271-5070.
- ❑ For questions or comments, call the Public Health Laboratory at (405) 271-5070.
To contact the follow-up program, call (405) 271-6617 or 1-800-766-2223 (Toll-Free).

Reminder: To prevent morbidity and mortality, all Oklahoma newborns are required to have a screening blood and hearing test. Blood screening includes congenital hypothyroidism, galactosemia, amino acid disorders including phenylketonuria (PKU), sickle cell disease, congenital adrenal hyperplasia, cystic fibrosis, fatty acid disorders including medium chain acyl CoA dehydrogenase deficiency (MCAD), organic acid disorders, and biotinidase deficiency.
