

Home Health PPS Software Package

Don't forget to verify your software is up-to-date.

The Home Health Prospective Payment System (HH PPS) Grouper v6217 is available for download. The HH PPS Grouper v6217 is a required update for OASIS submissions with an assessment completion date on or after October 1, 2017.

Some of the changes included within v6217:

- New ICD-10 diagnosis codes effective for October 1, 2017 are added to the Home Health grouper with Diagnostic Groups and NRS Groups assigned to applicable codes.
- ICD-10 diagnosis codes that are deleted effective October 1, 2017 are removed from the Home Health grouper.
- ICD-10 diagnosis codes with revised code descriptions effective October 1, 2017 are updated.
- Updated Diagnostic Group assignment for ICD-10 diagnosis code C70.0.
- Removed the Diagnostic Group assignment for ICD-10 diagnosis codes L97.501 – L97.509, L97.801 – L97.809 due to unspecified site of chronic ulcer.

Home Health Claims Will Be Returned When No OASIS Is Found

Be sure you are submitting ALL required OASIS assessments timely.

Until matching errors are corrected, Medicare systems will Return to Provider (RTP) home health claims when no Outcome and Assessment Information Set (OASIS) is found. When these claims are returned with reason code 37253, use the F9 function to resubmit your claim after taking one of these actions:

- Update the Health Insurance Claim (HIC) number on the OASIS assessment to match the current information
- Correct the assessment completion date reported in the claim treatment authorization code to match the OASIS assessment
- Resubmit for denial using condition code 21 and Type of Bill 320 if the assessment was not submitted

If you have questions please contact the Oklahoma State Department of Health QIES Help Desk at (405) 271-5278.
