**Please Note:** Information was gathered with due diligence from each of the program's lead agency. The Family Support and Prevention Service, a division of the Oklahoma State Department of Health, has made every attempt to share results, numbers, and program information that are both accurate and current. The programs and services that follow are not inclusive of every child abuse prevention or related program available in the state; however, they do represent a majority of the larger programs and services that are available.

## SMART START OKLAHOMA

[www.smartstartok.org](http://www.smartstartok.org)

### Infrastructure

Agency	Description & Target Population
Smart Start Oklahoma	<p>Established under the Oklahoma Partnership for School Readiness Act, Smart Start Oklahoma (SSO) is charged with promoting school readiness, supporting community-based efforts to increase the number of children who are ready to succeed by the time they enter school, and increasing coordination and collaboration of existing programs for children under age six and their caregivers.</p> <p>The Oklahoma Partnership for School Readiness Board, legislatively designated as the State's Early Childhood Advisory Council, increased the board's existing role to serve as an advisory body to the Governor's office for early childhood system's development. Smart Start Oklahoma also contracts with 19 communities throughout the state who assist in this work on a local level.</p>
Funding Source	
State, Federal and Private Funds	
Counties Served	
36	
Program Model	
Smart Start Oklahoma coordinates workgroups and committees at the state level to build collaboration between early childhood systems; local Coalitions and/or Boards drive the work at the community level assuring alignment with the state's goals.	
Numbers Served	
Rather than direct service, Smart Start Oklahoma's focus is in planning, data gathering, making policy recommendations and community mobilization. The 19-member community-based network serves 36 counties across the state, potentially reaching over 80% of children under the age of six, to promote and enhance community collaboration for early childhood programs and services.	
Evaluation	
Smart Start Oklahoma communities' work plans are updated and evaluated locally. Local activities are reported in aggregate form at the state level and included in the Annual Report, which is submitted to the Legislature and Governor each year.	
Outcomes	
<ol style="list-style-type: none"> <li>100% of SSO communities will facilitate an early childhood coalition comprised of local early childhood stakeholders who will identify and address needs, gaps and barriers in their community in order to facilitate school readiness for children 0-6.</li> <li>100% of SSO communities will sponsor and support community initiatives to increase the availability of and access to quality early care and learning programs, family support, health and mental health services for young children and their families.</li> <li>100% of SSO communities will bring local needs to the attention of the State Early Childhood Advisory Council to inform policy decisions that improve Oklahoma's early childhood system.</li> </ol>

## FAMILY PLANNING | OKLAHOMA STATE DEPARTMENT OF HEALTH

[www.ok.gov/health/Child\\_and\\_Family\\_Health/Maternal\\_and\\_Child\\_Health\\_Service/Perinatal\\_and\\_Reproductive\\_Health/](http://www.ok.gov/health/Child_and_Family_Health/Maternal_and_Child_Health_Service/Perinatal_and_Reproductive_Health/)

### Infrastructure

Agency	Description & Target Population
<b>Oklahoma State Department of Health (OSDH)</b> Maternal and Child Health Service Perinatal and Reproductive Health Division	The Title X Family Planning program is intended to assist individuals in determining the number and spacing of their children. This promotes positive birth outcomes and healthy families. The education, counseling, and medical services available in Title X-funded clinic settings assist individuals in achieving these goals. The target population is low income (100% Federal Poverty Level) males and females of reproductive age. Confidential services are provided to all clients including adolescents without parental consent.
<b>Funding Source</b>	
Federal Title X Grant Funds, Medicaid Funds, and State Funds	
<b>Counties Served</b>	
<i>70 counties</i> All counties except Cimarron, Ellis, Roger Mills, Washita, Dewey, Alfalfa, and Nowata	
<b>Program Model</b>	
Title X Family Planning. Family Planning clinical services are provided through 94 service sites in 70 counties. Outreach and education are required activities of the program accomplished locally by staff in each health department based on identified needs in their geographical area.	
<b>Numbers Served</b>	
In calendar year 2013, the Family Planning Program served 52,144 clients. 51,615 of the clients were females and 529 were males. 51.6% of the clients were between the ages of 20 and 29 with an additional 12.9% between the ages of 18 and 19.	
<b>Evaluation</b>	
Title X clinics are required to complete the Family Planning Annual Report and submit it to the Office of Population Affairs annually. Each Title X Grantee is assigned a Project Officer who monitors grantee activities and budgets and makes a face-to-face visit annually. OSDH Central Office staff schedule county health department family planning clinics for Comprehensive Program Reviews every three years, and annual monitoring visits in the interim years, to ensure compliance with Title X policies and procedures.	
<b>Outcomes</b>	
<ol style="list-style-type: none"> <li>1. Assure the delivery of quality family planning services and related preventive health services that improve the overall health of individuals and prioritize services to low-income individuals;</li> <li>2. Provide access to a broad range of acceptable and effective family planning methods;</li> <li>3. Assess client's reproductive life plan as part of determining the need for family planning services;</li> <li>4. Reduce the unintended pregnancy rate for females of reproductive age in Oklahoma;</li> <li>5. Reduce the teen pregnancy rate in Oklahoma;</li> <li>6. Increase the number of adolescents involving parents in the decision to seek family planning services; and</li> <li>7. Promote individual and community health by emphasizing clinical family planning and related preventive health services to reduce disparities for hard-to-reach, vulnerable populations.</li> </ol>

## WOMEN, INFANTS, AND CHILDREN (WIC) | OKLAHOMA STATE DEPARTMENT OF HEALTH

[www.ok.gov/health/Child\\_and\\_Family\\_Health/index.html](http://www.ok.gov/health/Child_and_Family_Health/index.html)

### Infrastructure

Agency	Description & Target Population
<p><b>Oklahoma State Department of Health</b> Women, Infants, and Children (WIC) Program</p>	<p>WIC is a nutrition program established to help pregnant women, new mothers, and young children eat well, learn about nutrition, and stay healthy.</p> <p>Nutrition education and counseling, nutritious foods, and assistance with access to health care are provided to women, infants, and children whose household incomes are at or below 185% of the federal poverty income level.</p> <p>WIC determines income based on gross income. WIC counts all of the members of a household, related or non-related. WIC counts an unborn baby as a household member.</p> <p><u>Target Population:</u> Pregnant women, women who are breastfeeding a baby under one year of age, women who have had a baby in the past six months, parents, step-parents, guardians, and foster parents of infants and children under five can inquire about WIC by calling the toll free number 1-888-655-2942.</p>
<p><b>Funding Source</b></p> <p>WIC is a Federal grant program for which Congress authorizes a specific amount of funds each year for the program. WIC is administered at the Federal level by Food and Nutrition Service (FNS).</p>	
<p><b>Counties Served</b></p> <p>WIC participants have the opportunity to receive WIC benefits at any of 121 clinics statewide. The WIC process begins when the individual initiates contact at a local clinic to determine whether or not they are eligible for WIC benefits. Participants are required to provide identification, proof of residence and proof of household income.</p>	
<p><b>Program Model</b></p> <p>Each family member eligible for WIC will receive height and weight measurements, health screenings, nutrition education, and referrals for health care. Most participants receive a hemoglobin test. Breastfeeding support, breast pumps, Registered Dietitians, and many other additional benefits are available through the WIC Program. Lastly, WIC participants can choose from any of 456 grocery vendors and 54 farmers markets (in Oklahoma) for selection of their healthy WIC foods!</p>	
<p><b>Numbers Served</b></p> <p>In FFY 2013, WIC provided services to 179,752 individuals of which 29% were infants up to age one, 41% were children from one year up to five years and 30% were pregnant and post-partum women.</p>	
<p><b>Evaluation</b></p> <p>The WIC monitoring process ensures program objectives are accomplished and each local agency is in compliance with state and federal WIC regulations. A Clinic Review Tool is used for reviewing local agency operations. The state agency conducts an on-site monitoring visit every two years. At least 20% of the clinics in each local agency or one clinic, whichever is greater, is monitored during the on-site review.</p>	
<p><b>Outcomes</b></p> <ol style="list-style-type: none"> <li>1. Decreases the rate of low birth weight births by 44%.</li> <li>2. Increases the rate of breastfeeding by 23%.</li> <li>3. Decreases the percent of children with anemia by 12%.</li> <li>4. Increases childhood immunization rates.</li> <li>5. Increases the likelihood of a child having a regular health care provider.</li> </ol>	
<p><b>Contact Information</b></p>	<p>Terry Bryce, Chief of WIC Services 2401 NW 23<sup>rd</sup> Street, Suite 70 (Shepherd Mall) Oklahoma City, OK 73107-2475</p>

← Infrastructure →

Agency	Description & Target Population
<p><b>Oklahoma State Department of Human Services</b> (funds)  <b>Oklahoma State Department of Health</b>                      (training, standards, development and assessment)  <b>Oklahoma Commission on Children and Youth</b>  <b>District Attorney Offices</b> (county level development)</p>	<p>A freestanding multidisciplinary team is a group of professionals from various organizations and agencies that work toward providing a more coordinated, effective child protection system within a community. MDTs work to minimize the number of interviews necessary for a child victim of sexual abuse, physical abuse, or neglect and coordinate the response to child maltreatment. Oklahoma legislation calls for the establishment of teams in every county and the funding of functional MDTs. As of SFY 2013, there are 27 functioning/provisionally functioning multidisciplinary child teams.</p>
<p><b>Funding Source</b></p>	
<p><i>Child Abuse Multidisciplinary Account (CAMA) - Only functioning teams receive CAMA funds. \$620,886.22 for standalone teams in FY 2012; \$2,805,485.90 for centers; totaling \$3,426,372.*</i></p>	
<p><b>Counties Served</b></p>	
<p>There are 27 functioning/provisionally functioning teams across the state of Oklahoma.</p>	
<p><b>Program Model</b></p>	
<p>Minimum standards for freestanding multidisciplinary child abuse teams are set by the Oklahoma Commission on Children and Youth.</p>	
<p><b>Numbers Served</b></p>	
<p>In SFY 2013, common data on cases reviewed was provided by 46 MDT's. During this period, 2,151 cases of child abuse and neglect were reviewed.</p>	
<p><b>Evaluation</b></p>	
<p>The MDTs submit documentation of functionality on an annual basis to the CATC Council. A subcommittee of the Council evaluates the documentation and submits a list of functional and nonfunctional teams to the Council for approval. The approved list of functional teams is submitted to the Oklahoma Department of Human Services for funding. The teams that are deemed nonfunctional can not apply for funding for one year.</p>	
<p><b>Outcomes</b></p>	
<p><i>No updated information available at time of reporting.</i></p>	
<p><b>Contact Information</b></p>	<p>Anthony Kibble, Program Manager                      Jennifer Hardin, State Freestanding Multidisciplinary Child Abuse Team Coordinator                      Lindsay Crim, State Freestanding Multidisciplinary Child Abuse Team Coordinator</p>

## REACHING FOR THE STARS CHILD CARE RATING SYSTEM | OKLAHOMA STATE DEPARTMENT OF HUMAN SERVICES

[www.okdhs.org/programsandservices/cc/](http://www.okdhs.org/programsandservices/cc/)

Agency	Description & Target Population
Oklahoma State Department of Human Services	Research has demonstrated that the quality of childcare impacts the cognitive, social, emotional, and physical development of a child. The Oklahoma Department of Human Services/Child Care Services implemented a child care rating and improvement system in 1998 to provide an easily understandable guide to licensed child care facilities including: centers, homes, and head start.
<b>Funding Source</b>	The goals of the Stars program are to provide a system to help parents evaluate child care, improve the quality of child care by increasing the competence of teachers, and raise the Department's subsidy reimbursement rate; resulting in more slots for children whose families are receiving child care assistance.
CCDF TANF Transfer TANF Direct TANF Reserve State Funding	<ul style="list-style-type: none"> <li>• The criteria encourages facilities to exceed the minimum standards for the care they provide.</li> <li>• One Star facilities meet minimum licensing requirements that focus on health and safety.</li> <li>• One Star Plus programs meet the minimum requirements plus additional quality criteria that includes: additional training, daily reading to children, TV restrictions, physical activity, parent involvement and membership in a professional development registry.</li> <li>• Two Star programs meet further quality criteria including master teacher/home provider qualifications, using Early Learning Guidelines and program assessment OR accreditation by a national accreditation body.</li> <li>• Three Star programs meet all additional quality criteria AND are nationally accredited.</li> </ul>
<b>Counties Served</b>	
Statewide	
<b>Program Model</b>	
Licensing and Quality Rating and Improvement System

## OKLAHOMA PARENTS AS TEACHERS (OPAT)

[www.sde.state.ok.us](http://www.sde.state.ok.us)

*Primary Prevention*

Agency	Description & Target Population
<p><b>Oklahoma State Department of Education</b> Administered at the school district level through competitive grants.</p>	<p>OPAT is a parent education program based on the philosophy that parents are their children's first and most important teachers. It is a voluntary monthly home visitation program for parents with children prenatal to age three. OPAT is affiliated with the nationally validated Parents As Teachers Program. Through home visits and monthly group meetings, OPAT is designed to strengthen the capacity of parents to be effective first teachers and to foster an early partnership between home and school so that parents take a far more active role during their children's formal years of schooling.</p> <p><u>Target Population:</u> All families with children, prenatal to 36 months of age who reside in participating school districts.</p>
<p><b>Funding Source</b></p>	
<p>State Appropriations (\$1 million in grant funds for school year 13-14).</p>	
<p><b>Program Model</b></p>	
<p>Parents as Teachers</p>	
<p><b>Numbers Served</b></p>	
<p>In the 2011-2012 school year, Parent Educators met with 3,715 families for the average cost per child at \$391 during their personal visits with families. For the 2012-1013 school year, Parent Educators met with 2,621 families for the average cost per child at \$381.</p>	
<p><b>Evaluation</b></p>	
<p>National evaluation showed that PAT children were significantly more advanced at three years in language, social development, problem solving, and other intellectual activities and at first grade in reading and math. Other positive results were demonstrated.</p>	
<p><b>Outcomes</b></p>	
<ol style="list-style-type: none"> <li>1. Reduced risk levels for participating children (Oklahoma Technical Assistance Center, 2011).</li> <li>2. Increased parental knowledge of child development (Parents as Teachers National Center).</li> <li>3. Participating parents are more likely to read to their children and enroll them in a pre-school program (Parents as Teachers National Center).</li> </ol>

# PARENTS AS TEACHERS LOGIC MODEL

Parents as Teachers™

## What is a logic model?

This logic model provides a simplified, visual description of the Parents as Teachers' theory of change and provides a general picture of how the evidence-based Parents as Teachers model is intended to work to achieve desired outcomes.

The logic model represents a sequence of events. It flows from left to right and shows how change occurs over time. Reading the logic model is similar to reading a series of "If...then" statements.

Parents as Teachers consists of four dynamic and interrelated components, however additional strategies or model enhancements may be appropriate to best address families' needs at the local level. For example, implementation may be modified to be culturally responsive, directed to special populations, or offered in conjunction with other early childhood programs as determined by community need.

## How can the logic model be used?

The logic model provides a conceptual framework that can be used in program planning, training and professional development, allocation of personnel and resources, and evaluation. By demonstrating that activities are not ends unto themselves, parent educators can be increasingly intentional as they work with families to create change and achieve the goals of Parents as Teachers.

## Parents as Teachers goals

The goal of Parents as Teachers are woven throughout the short-term, intermediate, and long-term outcomes. The four goals are:

- > Increase parent knowledge of early childhood development and improve parenting practices.
- > Provide early detection of developmental delays and health issues.
- > Prevent child abuse and neglect.
- > Increase children's school readiness and school success.

# Oklahoma Child Abuse Prevention Network

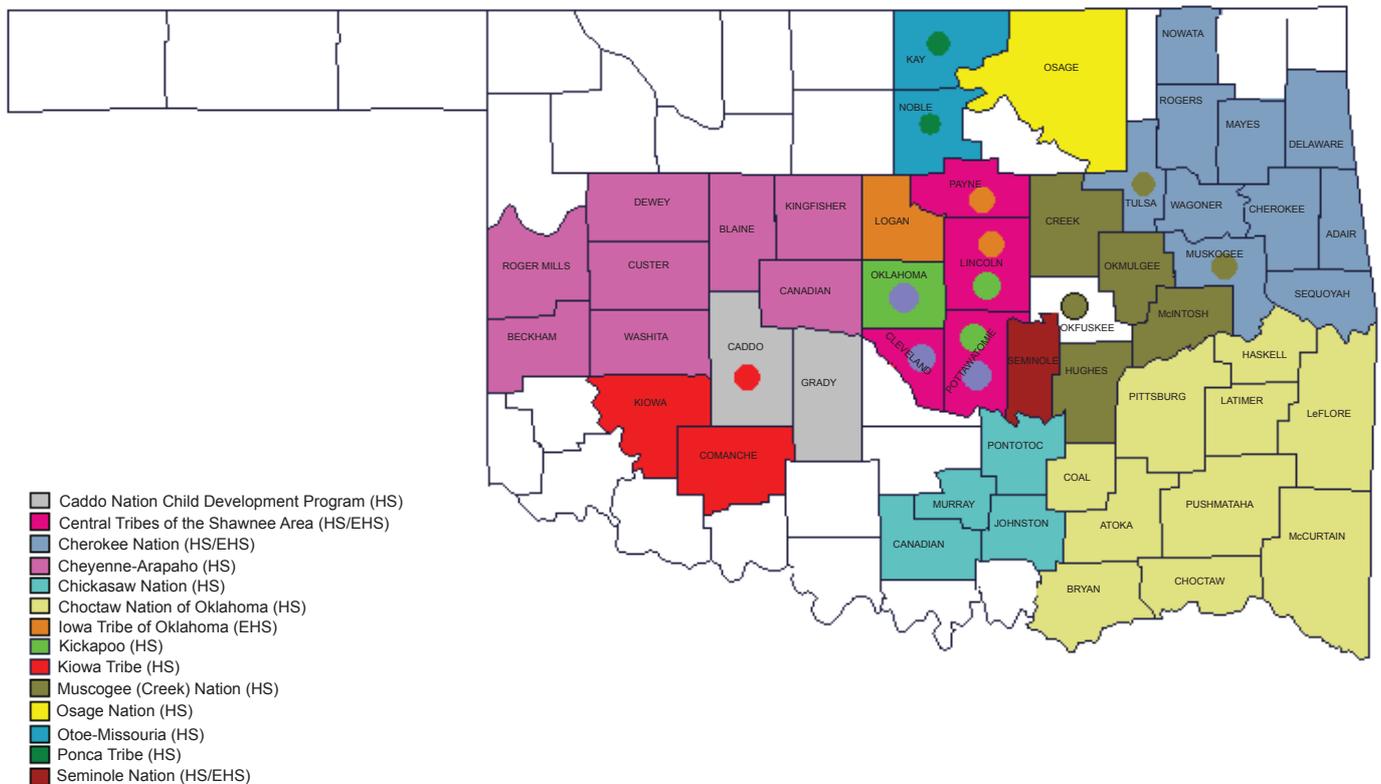

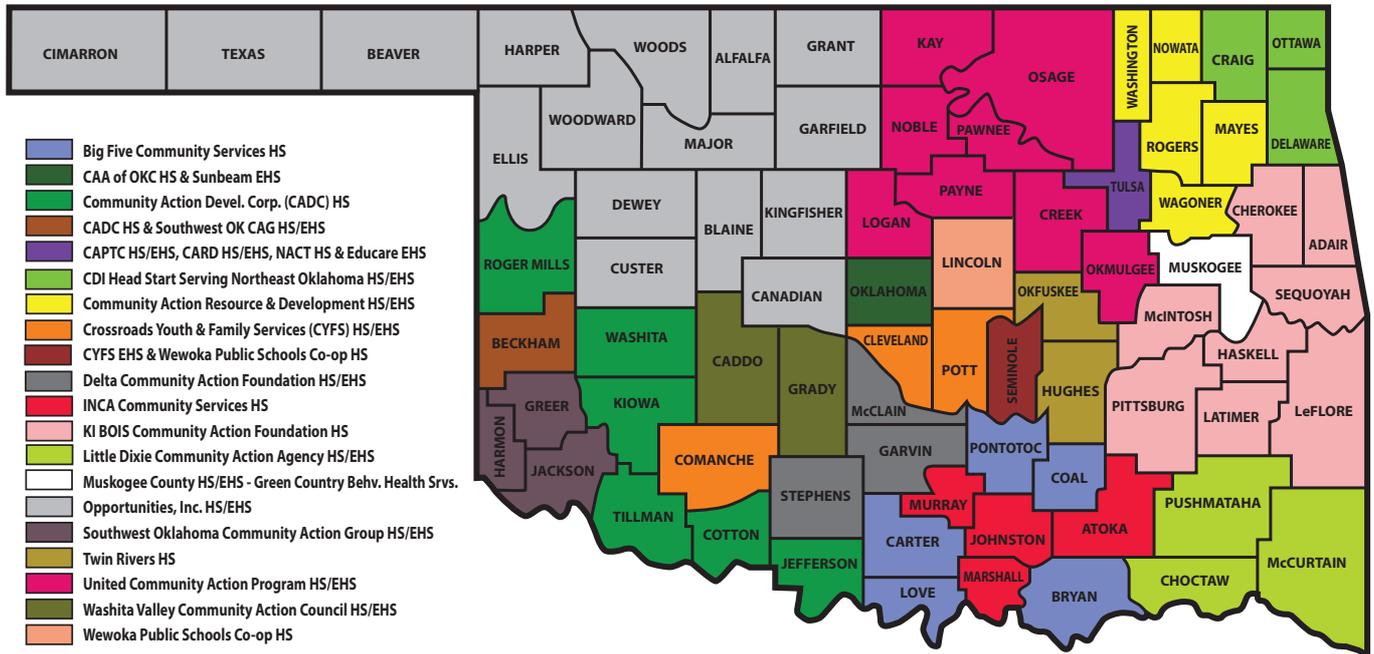

## EARLY HEAD START PROGRAM

[www.okacaa.org](http://www.okacaa.org)

### Primary Prevention

Agency	Description & Target Population
<p>Early Head Start is administered by the Office of Head Start, Administration for Children and Families, U.S. Department of Health and Human Services.</p> <p><i>Local community-based organizations and American Indian Tribes are local program providers through grant funds issued directly from the federal government.</i></p>	<p>The Early Head Start (EHS) program is a federal program established in 1994 for low-income infants, toddlers, pregnant women and their families. At least 90 percent of enrolled children must be from families at or below the poverty line, and at least 10 percent of program enrollment must be children with disabilities. EHS programs enhance children's physical, social, emotional, and intellectual development; assist pregnant women in accessing comprehensive prenatal and postpartum care; support parents' efforts to fulfill their parental roles; and help parents move toward self-sufficiency.</p> <p><b>Services provided by Early Head Start include:</b></p> <ul style="list-style-type: none"> <li>• Quality early education both in and out of the home</li> <li>• Parent education and parenting education</li> <li>• Comprehensive health, dental, and mental health services, including services to women before, during, and after pregnancy</li> <li>• Nutrition education</li> <li>• Family support services; parent, family, community engagement</li> </ul> <p>Early Head Start offers income-eligible children (ages 0-3) and their families comprehensive child development services through center-based, home-based, and combination program options.</p> <p><b>Target Population:</b> Pregnant women and families with infants and toddlers under the age of three who have incomes at or below 100% of Federal Poverty Level.</p>
<p><b>Funding Source</b></p>	
<p>The non-tribal Early Head Start grantees received \$22,347,632 in federal funds for 2012-2013. Tribal Early Head Start federal funding for 2012-2013 is not available.</p>	
<p><b>Program Model</b></p>	
<p>Early Head Start</p>	
<p><b>Numbers Served</b></p>	
<p>A total of 2,914 children and 230 pregnant women were served by non-tribal Early Head Start programs in Oklahoma in 2012-2013. A total of 424 children and 36 pregnant women were served in tribal EHS programs in 2012-2013.</p>	
<p><b>Evaluation</b></p>	
<p>EHS is a research-based program that has continued to be studied by many early childhood researchers; all centers are licensed by childcare; and the programs must meet very high standards as rigorously evaluated by federal monitors.</p>	
<p><b>Outcomes</b></p>	
<ol style="list-style-type: none"> <li>1. Parents/families learn how to ensure infant/toddler medical screenings are performed at appropriate ages.</li> <li>2. Families are assisted in accessing mental health services when needed for both mothers and children.</li> <li>3. Families receive counseling and assistance in obtaining adult education (GED, college).</li> <li>4. Families receive parenting education, family and financial literacy training, and training in asset development strategies.</li> <li>5. Children receive high quality early childhood development and education services so that they may enter school with the skills, knowledge, and attitudes necessary for success in school and later learning and life.</li> </ol>

## PRE-KINDERGARTEN PROGRAMS | OKLAHOMA STATE DEPARTMENT OF EDUCATION

[www.sde.state.ok.us](http://www.sde.state.ok.us)

### Primary Prevention

Agency	Description & Target Population
Oklahoma State Department of Education	Children, who are age four on or before September 1, are eligible for the voluntary public school pre-kindergarten program. Currently, nearly 75% of Oklahoma's four-year-olds attend public school and have access to: <ul style="list-style-type: none"> <li>• an Early Childhood Certified Teacher;</li> <li>• a 10:1 child to teacher ratio;</li> <li>• comprehensive school services;</li> <li>• full-day or half-day programs;</li> <li>• State adopted curriculum standards; and</li> <li>• school readiness program.</li> </ul>
<b>Funding Source</b>	
State funding through the school funding formula.	
<b>Counties Served</b> All school districts have the option of having a Pre-Kindergarten program. Pre-Kindergarten is state-wide. At least one Pre-Kindergarten program exists in every county in the state, and out of 517 school districts, 506 have Pre-K for four year olds.  *Oklahoma is ranked 2 <sup>nd</sup> in access to Pre-K. <a href="http://nieer.org/sites/nieer/files/Oklahoma_0.pdf">http://nieer.org/sites/nieer/files/Oklahoma_0.pdf</a>	
<b>Program Model</b>	
Half-day/full-day option. Voluntary participation. A bachelor-degreed, early childhood certified teacher. Adult/child ratio of 1:10. Priority Academic Student Skills (PASS) designed to be appropriate to age development.	
<b>Numbers Served</b>	
In 2013-2014, a total of 40,823 four year old children and 1,932 three year old children were enrolled in a public school Pre-Kindergarten program.	
<b>Evaluation</b>	
The Effects of Universal Pre-Kindergarten on Cognitive Development, Georgetown University (2003) <a href="http://www.crocus.georgetown.edu/publications.html">http://www.crocus.georgetown.edu/publications.html</a> .	
<b>Outcomes</b>	
<ol style="list-style-type: none"> <li>1. Increased readiness for reading and academic learning (Georgetown study, 2003-2004).</li> <li>2. Easy transition to kindergarten.</li> <li>3. 52% increase in letter-word identification; 27% increase in spelling; and 21% increase in applied problems (Georgetown University, 2004).</li> </ol>

## EDUCARE | OKLAHOMA CITY

[www.okceducare.org](http://www.okceducare.org)

### Primary Prevention

Agency	Description & Target Population
Sunbeam Family Services – OKC Educare	<p>Educare is a comprehensive early education service for children and families. OKC Educare serves 212 children in a full-day, year round program. Services are provided at no cost to the family.</p> <p><i>Target population:</i> OKC Educare serves Oklahoma county children birth to five years and their families (must qualify under federal poverty guidelines). A child can be in the program from birth to five OR can enroll based on availability at any time before the child turns five years old.</p>
Funding Source	
Federal Head Start/Early Head Start Grant, OKCPS Funding for Pre-K classes, State Pilot Program, United Way, Private Funds	
County Served	
Oklahoma County	
Program Model	
Head Start/Early Head Start, OKCPS Pre-K. Full-year, full-day program model. High teacher-child ratio, intensive family support, strong mental health componet.	
Numbers Served	
In SFY 2103, 454 children were served.	
Evaluation	
Extensive evaluation component which includes PALS (Phonological Awareness Literacy Screening), ECI (Early Communication Indicator), Bracken, ASQ3, DECA, CLASS and ITERS/ECERS.	
Outcomes	
<ol style="list-style-type: none"> <li>1. The goal of OKC Educare is for children to exit ready to succeed in Kindergarten as measured by the Bracken Readiness Index. Children at OKC Educare tend to achieve an Average Standard Score of 85 or higher on the Bracken School Readiness Composite. Length of stay at OKC Educare is strongly correlated with higher Bracken School Readiness Scores, with 25 % of the children attending OKC Educare for three full-years scoring at or above a Standard Score of 95 on the Bracken School Readiness Composite.</li> <li>2. The (Classroom Assessment Scoring System) CLASS is a Process Evaluation instrument was used to determine how OKC Educare classes are functioning in relation to emotional and behavioral support as well as learning engagement. CLASS scores varied widely in 2011-12 and 2012-13. Emotional and Behavioral Support scores were typically higher compared to Engaged Support for Learning scores.</li> <li>3. The Infant Toddler Environment Rating Scale (ITERS) and Early Childhood Environment Rating Scale (ECERS) were used to evaluate the classrooms and serve for young children in child development and classroom settings at OKC Educare. The ITERS average score increased from 5.3 in 2011-12 to 5.6 in 2012-13. The ECERS average score increased from 4.9 in 2011-12 to 5.0 in 2012-13. These increases represent statistically significant gains.</li> <li>4. OKC Educare teachers also gather data at progress checkpoints quarterly, with data analysis conducted by Creative Curriculum. Analysis revealed that 100% of the children in all age groups demonstrated growth in the identified areas.</li> </ol>

## EDUCARE | TULSA

Tulsaeducare.org

### Primary Prevention

Agency	Description & Target Population
Tulsa Educare I-Kendall Whittier Tulsa Educare II-Hawthorne Tulsa Educare III-MacArthur	Educare is a comprehensive early education program for children and families. In Tulsa, Educare I-KW opened in 2006; Educare II-Hawthorne opened in 2010. Tulsa Educare III-MacArthur opened in August of 2012. Children are required to be on DHS child care subsidy to be eligible for the program, unless they are enrolling for the EHS program located at Educare I-KW.
Funding Source	State of the art early childhood centers that provide education and care of 536 children (from birth to kindergarten transition) and their families with full day, year round early childhood education, family engagement, health promotions and workforce development support.
George Kaiser Family Foundation, Early Head Start, Oklahoma State Department of Education, Oklahoma Early Childhood Program, Department of Human Services Child Care Subsidy and Parent co-payments.	<p><b>Target Population:</b> Educare (Tulsa) serves Tulsa County children birth to five years and their families (must qualify under federal poverty line or be on DHS child care subsidy). Can be in the program from six weeks to kindergarten transition, or can enroll based on availability at any time before the child enters school.</p>
County Served	Tulsa County
Program Model	Educare Learning Network, Early Head Start, Head Start
Numbers Served	In SFY2013, 270 children were served in center-based care at Educare I, while 13 were served in a home-based program; 284 children were served at Educare II; Educare III served 261 children.
Evaluation	Bayley Cognitive and Language Scores, Preschool Language Scale-4, Peabody Picture Vocabulary Test, and Bracken School Readiness. Environmental Rating Scales and CLASS assessment completed annually in classrooms and on teaching staff.
Outcomes	<ol style="list-style-type: none"> <li>English-speaking children turning two years old at Educare sites scored an average of 96 on the Cognitive Subtest and 91 on the Language Subtest of the Bayley Scales of Infant and Toddler Development. Spanish speaking children turning two were assessed with the PLS-4 and had an average score of 90.</li> <li>Receptive vocabulary in English for children 3 and 4 years old was assessed by the Peabody Picture Vocabulary Test. English speakers scored an average of 94, while Spanish speakers scored an average of 81. When assessed with the PLS-4 in Spanish, 3 and 4 year old Spanish speakers scored an average of 94 in Total Language.</li> <li>Scores on the Bracken School Readiness Assessment increased over time for children who remained in the program. From the Fall of 2010 to the Spring of 2012, English speaking children's scores increased from 93 to 104. Similarly, Spanish speaking children's scores increased from 81 to 92.</li> </ol>

## CHILD GUIDANCE PROGRAM | OKLAHOMA STATE DEPARTMENT OF HEALTH

<http://cgp.health.ok.gov>

### Primary Prevention

Agency	Description & Target Population
<p><b>Oklahoma State Department of Health</b> Administered at the County and City-County Health Department levels</p>	<p>Child Guidance services focus on strengthening families by promoting positive parent-child relationships and optimal child development. Child development specialists, speech language pathologists, and psychologists provide screening, assessment and intervention for developmental, communication, hearing, and behavioral concerns and assist families in accessing resources.</p> <p><u>Target Population:</u> Families with children birth to 13 years.</p>
<p><b>Funding Source</b></p> <p>Child Guidance State Appropriations (\$2,014,241) Federal Funds (\$1,367,205) and Local Millage (\$1,649,622) in SFY 2013; CBCAP Funds (\$150,000) in FFY 2013.</p>	

### Program Models ~ Specialized Programs within Child Guidance

**The Incredible Years:** Parents, Teachers, and Children Training Series is a comprehensive set of curricula designed to promote social competence and prevent, reduce, and treat aggression and related conduct problems in young children (ages 4 to 8 years). The interventions that make up this series – parent training, teacher training, and child training programs are guided by developmental theory concerning the role of multiple interacting risk and protective factors (child, family and school) in the development of conduct problems. (see also separate template)

**Parent-Child Interaction Therapy (PCIT):** PCIT is an empirically-supported treatment for children with conduct-disorders that place emphasis on improving the quality of the parent-child relationship and changing parent-child interaction patterns. In PCIT, parents are taught specific skills to establish a nurturing and secure relationship with their child while increasing their child's prosocial behavior and decreasing negative behavior. This treatment focuses on two basic interactions: Child Directed Interaction (CDI) is similar to play therapy in that parents engage their child in a play situation with the goal of strengthening the parent-child relationship; Parent Directed Interaction (PDI) resembles clinical behavior therapy in that parents learn to use specific behavior management techniques as they play with their child. (see also separate template)

**Circle of Parents (COP):** Circle of Parents® is a national network of statewide non-profit organizations and parent leaders that are dedicated to using the mutual self-help support group model as a means of preventing child abuse and neglect and strengthening families. Circle of Parents® offers anyone in a parenting role the opportunity to participate in weekly group meetings with other parents to exchange ideas, share information, develop and practice new parenting skills, learn about community resources, and give and receive support. Groups are parent-led with the support of a trained group facilitator, are conducted in a confidential and non-judgmental manner, are free of charge, and provide developmentally-appropriate children's programs or child care concurrent with the parent group meetings. Participants share leadership and accountability for the success of the group and each participant. Consequently, parents are expected to apply new ideas and skills at home and report back to the group what worked and what did not. Parents are also responsible for following up with recommended community resources that are shared or discussed. Overall, developing leadership on the individual, family, community, and societal levels, as desired by parent participants, is a central theme of the Circle of Parents® model. This program is typically conducted in a community agency, community daily living setting, outpatient clinic, prison, religious organization, or school setting.

**Child Care Mental Health Consultation:** The Child Care Mental Health Consultation Network provides onsite child care consultation to address issues surrounding behavioral challenges in the classroom. The Network is staffed by behavioral health and child development specialists in Child Guidance, Community Mental Health Centers and private consultants through the Center for Early Childhood Professional Development. Requests for referrals are obtained through the Oklahoma Child Care Warmline. This initiative is provided in collaboration with the Oklahoma Department of Human Services and the Oklahoma Department of Mental Health and Substance Abuse Services.

**Child Care Warmline:** The Warmline for Oklahoma Child Care Providers offers free telephone consultation to child care providers on numerous topics of concern. Consultants can also refer providers to appropriate services and resources within their communities. In addition to a personalized phone consultation, an automated topic library with 1,500 topics on pre-recorded messages (including topics on child care, health, behavior and guidance, and development)) are available on the Warmline 24 hours per day. Child Care Mental Health consultation is coordinated through this project. This initiative is provided in collaboration with the Oklahoma Department of Human Services.

### Numbers Served

In SFY 2013, approximately 23,033 individual sessions were conducted for screening, assessment, evaluation, or treatment services. Child Guidance clinicians provided workshops, training, or community outreach activities through 1,212 events. 24 Child Guidance clinicians provided 779 mental health consultation visits to 127 childcare Centers.

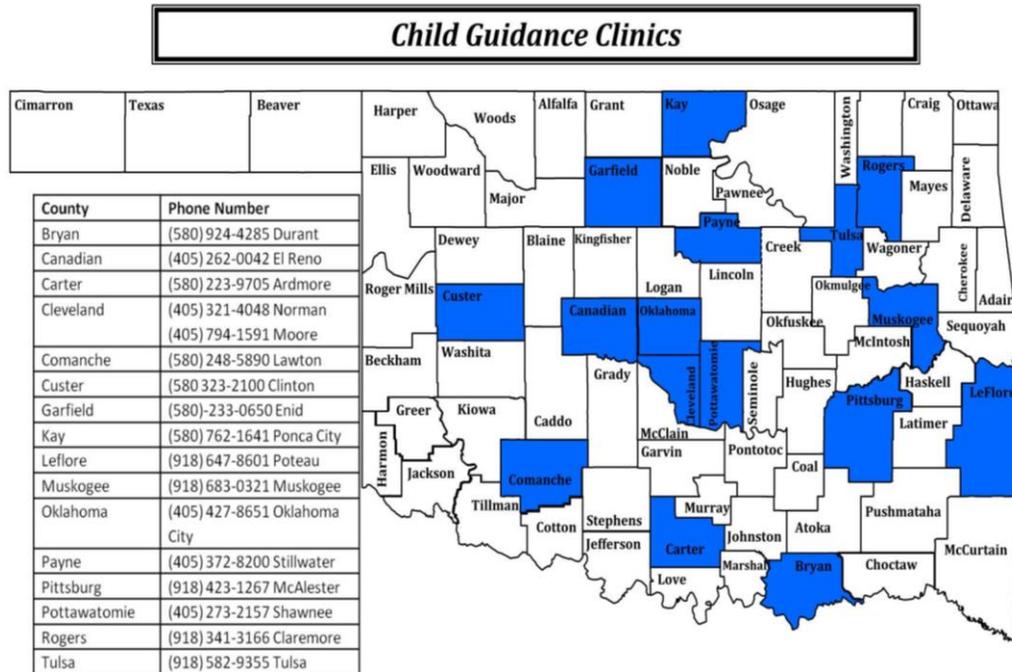

### Outcomes

For SFY 2013, 71% of families receiving Child Guidance services reported a decrease in inappropriate social-emotional behaviors; 61% of parents who received CG services reported an increase in their ability to help their child learn; 32% of parents who received CG services reported an increase in protective factors for child abuse and neglect; 55% of parents who received CG services reported a decrease in risk factors for child abuse and neglect.

## SUBSTANCE ABUSE SERVICES (PREVENTION)

<http://ok.gov/odmhsas/>

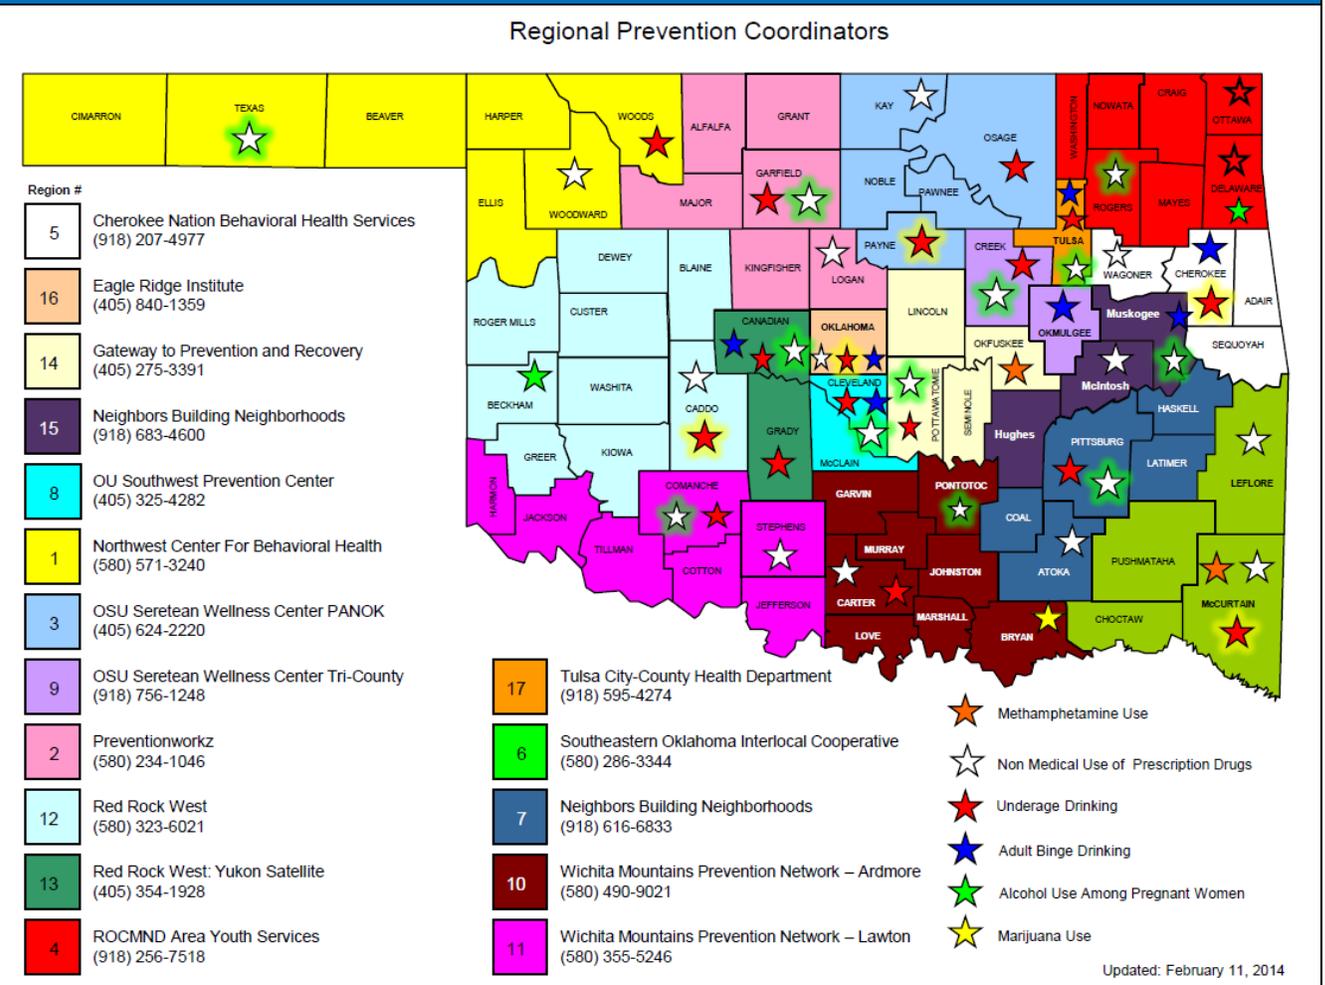

### Primary Prevention

Agency	Description & Target Population
Oklahoma Department of Mental Health and Substance Abuse Services (ODMHSAS)	The ODMHSAS supports prevention initiatives such as: the Oklahoma Prevention Resource Center, 17 Regional Prevention Coordinators, Youth Suicide Prevention and Early Intervention, Substance Abuse Prevention for Children in Substance Abusing Families – Oklahoma Partnership Initiative (OPI), Enforcing Underage Drinking Laws - 2Much2Lose (2M2L), Strategic Prevention Framework State Incentive Grant (SPF-SIG), State Epidemiological Outcomes Workgroup (SEOW), and Justice Assistance Grant (JAG) to name a few.
<b>Funding Source</b>	Substance Abuse and Mental Health Services Administration (SAMHSA), Administration on Children and Families (ACF), Office of Juvenile Justice and Delinquency Prevention (OJJDP), and Justice Assistance Grant – OK District Attorneys Council
	<p>Substance abuse prevention initiatives utilize a public health approach and implementation of evidence-based strategies - with a focus on population-level strategies - that are proven to be effective and sustainable. Providers create and sustain partnerships with community stakeholders and coalitions to develop and implement prevention strategies tailored for Oklahoma communities. Programs are based on an environmental prevention approach and may also offer training and technical assistance to schools, parents, agencies and community groups.</p> <p><i>Target Population:</i> Oklahomans across the lifespan.</p>
<b>Program Model</b>	
<p>The Strategic Prevention Framework (SPF) model is built on a community-based approach to prevention and a series of guiding principles that can be utilized at the federal, State/tribal and community levels to achieve population-level outcomes. The SPF requires States and communities to systematically:</p> <ol style="list-style-type: none"> <li>1. Assess their prevention needs based on epidemiological data,</li> <li>2. Build their prevention capacity,</li> <li>3. Develop a strategic plan,</li> <li>4. Implement effective community prevention programs, policies and practices, and</li> <li>5. Evaluate their efforts for outcomes.</li> </ol>	
<b>Numbers Served</b>	
<p>*Number of local contacts made by the Substance Abuse Prevention Block Grant between October 1, 2012 and September 30, 2013 = 10,648,036.</p>	
<b>Evaluation</b>	
<p>The ODMHSAS contracts for evaluation services with a variety of qualified entities, including the University of Oklahoma's College of Public Health, the University of Kansas, and Bach Harrison LLC.</p>	
<b>Outcomes</b>	
<ol style="list-style-type: none"> <li>1. The Regional Prevention Coordinators provided substance abuse prevention services to over 2 million Oklahomans between October 1, 2012 and September 30, 2013.</li> <li>2. The Strategic Prevention Framework State Incentive Grant (SPF SIG) provided substance abuse prevention services to 1,321,629 people between October 1, 2012 and September 30, 2013.</li> <li>3. The Garrett Lee Smith Youth Suicide Prevention Grant provided 248 trainings to 5,757 participants from October 1, 2012 through September 30, 2013.</li> </ol>	

4. Tobacco sales to minors slightly decreased from 2012 to 2013 with a retailer violation rate of 8.4% to 7.8% which remains under Oklahoma's goal of 10%.
5. The Oklahoma Partnership Initiative (OPI) sponsored 3 Strengthening Families Program trainings as well as Solution Focused Brief Therapy training and collaborated with Oklahoma Drug Endangered Child (ODEC) for national and local conferences/trainings.
6. OPI's evaluation results found that only 10% of parents participating in the program fell into the highest risk category for substance abuse. Fourteen percent were at moderate risk, and over 75% fell into the low risk category.
7. The 2M2L task forces and Regional Prevention Coordinators conducted 2,102 retail compliance checks for underage access to alcohol with a statewide compliance rate of 79%. When an ID was not requested during the sale, the risk of a sale to a minor was 4.5 times more likely compared to when an ID was requested.
8. The 2M2L initiative conducted 20 underage drinking prevention trainings for law enforcement personnel across the state.
9. The Regional Prevention Coordinators conducted 65 trainings on Responsible Beverage Service and Sales for alcohol retailers with over 800 servers, clerks, managers and owners in attendance.

**Substance Abuse Prevention Services (PREVENTION) Site Map**

**Oklahoma Logic Model**

To prevent the onset and prevent/reduce the problems associated with the use of alcohol, tobacco, and other drugs across the lifespan, Oklahoma will work from a theory of change that is supported through research. Research has shown changing population behavior requires targeting resources to issues influencing that behavior (intervening variables, or risk or causal factors). Once these issues have been identified, a comprehensive set of state and community evidence-based strategies can be selected and employed. It also is important to evaluate the effectiveness of the state and community efforts at each phase through process, immediate, intermediate, and long-term outcome data collection.

## THE OFFICE OF CHILD ABUSE PREVENTION

### START RIGHT PROGRAMS | HOME VISITATION SERVICES

<http://ocap.health.ok.gov> *Secondary Prevention*

Agency	Description & Target Population
<b>Oklahoma State Department of Health</b> Office of Child Abuse Prevention (OCAP)	Start Right provides four basic individual and community services: <ul style="list-style-type: none"> <li>• home visitation</li> <li>• screenings and assessments</li> <li>• referrals</li> <li>• community outreach events</li> </ul> The Start Right programs, funded by the OCAP, teach positive parenting skills, and connect families with resources helping reduce the risk of child abuse and neglect by providing home visitation and/or center-based services.  <b><u>Target Population:</u></b> The enrollment criteria for Start Right Home Visitation is broad and includes enrolling mothers after the 29th week of pregnancy; enrolling subsequent births; enrolling families with a newborn through 12 months of age; and allowing families to remain active in the program until the child's sixth birthday.
<b>Funding Source</b>  State Appropriations (\$2,450,585 in SFY 2013); Local Match Funds are 10% match; CBCAP Funds (\$150,000 in FFY 12); and the Child Abuse Prevention License Plate Fund (nominal amount)	
<b>County Served</b>  Adair, Alfalfa, Beckham, Cherokee, Cleveland, Garvin, Grady, Grant, Greer, Harper, Hughes, Jackson, Kay, Kiowa, Major, McClain, McCurtain, Nowata, Oklahoma, Okfuskee, Okmulgee, Osage, Pontotoc, Pottawatomie, Seminole, Tillman, Tulsa, Wagoner, Washington, Washita, Woods	
<b>Program Model</b>	
Structure based on the Healthy Families America <sup>®</sup> model; utilizes the Parents as Teachers <sup>®</sup> and other nationally recognized, evidence-based curricula for delivering services; includes a center-based option.	
<b>Start Right/OCAP Home Visit Logic Model</b>	
The OCAP logic model defines OCAP home visitation programs, related activities and outcomes (see next page: OCAP Home Visitation Program Logic Model for details). In SFY 2008, the OCAP logic model was introduced. Throughout 2012, the model was presented at multiple events to provide an opportunity for program staff and the Interagency Child Abuse Prevention Task Force (performance review and oversight entity) to become familiar with tracking program outcomes and successfully adopting activities that would help to achieve the defined targets. The OCAP will assess in greater detail short and long term outcomes (i.e. changes in tobacco use, providing for adequate prenatal care, stable housing and transportation, linking families to health care, educational and economic resources, and monitoring program integrity). Further, the new evaluation components will measure changes in frequency of hospital care and emergency room use, families becoming involved with the child welfare system, exercise and nutritional habits, utilization of quality child care, and improved home safety conditions. In SFY 2013, the logic model was updated to align with the Healthy Families America 12 Critical Elements as well as preserving the Oklahoma State Department of Health Flagship Issues.	
<b>Numbers Served</b>	
During SFY 2013, 1165 adults were contacted and screened for program participation. 623 individuals were assessed. A total of 13,039 home visits were attempted and/or completed during SFY 2013.	

**Evaluation**

Evaluation activities consist of Start Right programs collecting data from families during home visits. On a weekly basis, the data is entered at programmatic level into the OCAPPA database. OCAP program evaluators provide day-to-day technical assistance, consultation and training to Start Right programs for database and evaluation. Program performance reports are provided on a monthly and quarterly basis along with an annual program outcomes report produced at the end of each SFY. Performance reports are reviewed by OCAP program consultants along with conducting on-site visits to ensure contractors' compliance.

In SFY 2009 - 2010, evaluation activities focused on refining the program theory through development of the OCAP logic model and defined new measures for program outcomes. Revisions to the standardized evaluation forms and the statewide database (OCAPPA) were updated in SFY 2010.

**Outcomes**

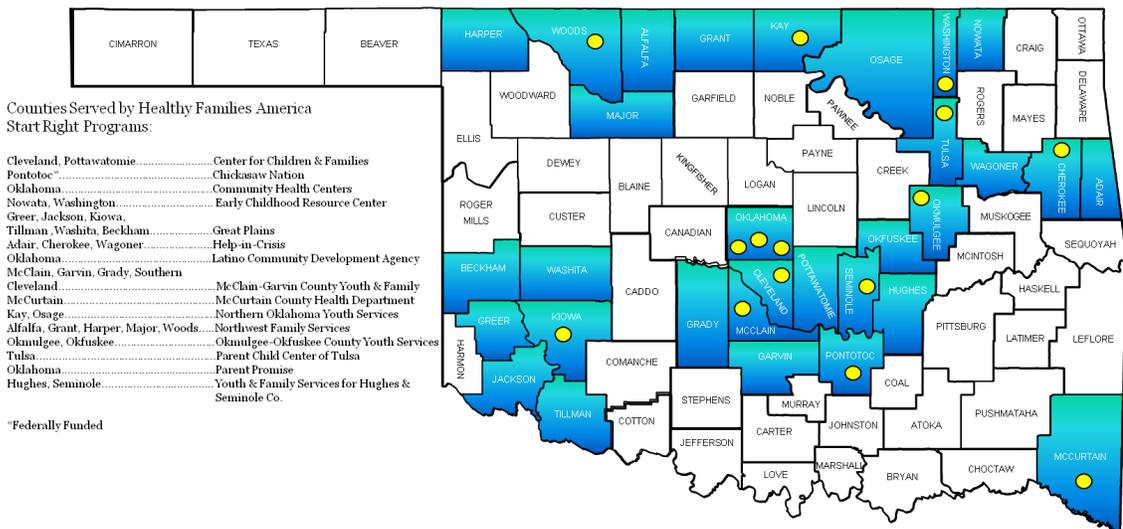

1. Of the Start Right parents served in SFY 2013 who reported experiencing domestic violence at enrollment, 72 percent have reported no longer experiencing domestic violence at the end of SFY 2013.
2. Of the parents served in SFY 2013 who reported smoking at enrollment, 12 percent reported quitting smoking, 35 percent reported cutting down on smoking, and 44 percent reported trying to quit at the end of SFY 2013. Of the Start Right mothers enrolling prior to the 29<sup>th</sup> week of pregnancy from SFY 2010 to SFY 2013, 32 percent reported smoking in the three months prior to becoming pregnant, 21 percent reported smoking during the last three months of pregnancy, and 26 percent reported smoking after the birth of the child.
3. In SFY 2013, 95 percent of Start Right parents reported at the last home visit that their child was up-to-date on their immunizations.
4. Of the Start Right mothers who gave birth in SFY 2013, 70 percent initiated breastfeeding.
5. Two hundred thirty-eight Edinburgh Postpartum Depression Screenings were administered to Start Right mothers in SFY 2013. Eighty-eight percent of these screenings indicated signs of depression. Twenty-two percent indicated the need for immediate attention by a healthcare or mental health professional.
6. Of the Start Right parents served in SFY 2013 who reported not having a high school diploma or GED at enrollment, 18 percent reported having a high school diploma, GED or beyond at the end of SFY 2013.

## CHILDREN FIRST

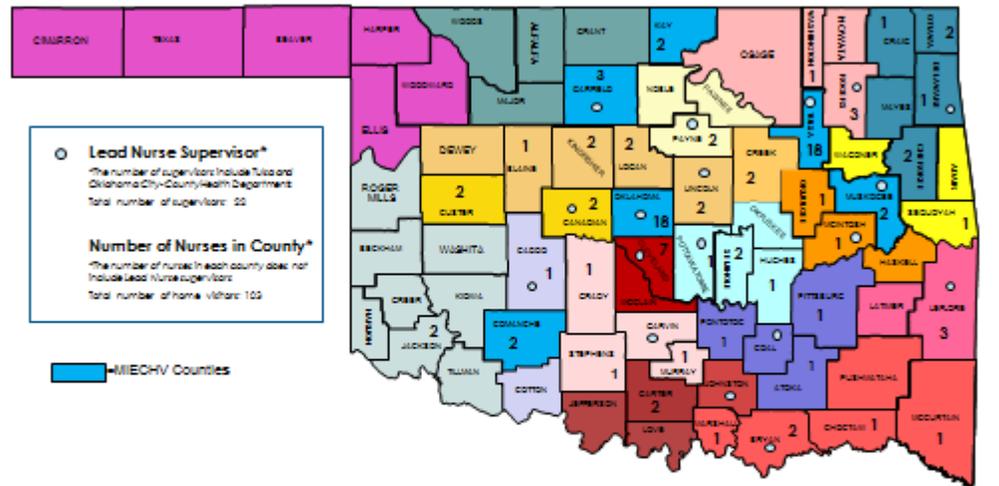

<http://cf.health.ok.gov>

### Secondary Prevention

Agency	Description & Target Population
<b>Oklahoma State Department of Health</b> (administered through local county health departments)	Children First (C1), Oklahoma's Nurse-Family Partnership, is a statewide public health nurse home visitation service offered through local health departments. Services are provided at no cost to families expecting to deliver and/or to parent their first child and include brief health assessments, child growth and developmental evaluations, nutrition education, parenting and relationship information and links to other community resources. The program encourages early and continuous prenatal care, personal development, and promotes the involvement of fathers, grandparents and other supporting persons in parenting.
<b>Funding Source</b>	
State Appropriations and County Millage (\$7,597,409 in SFY 2013) Federal Medicaid Reimbursement (\$1,903,463 in SFY 13); and CBCAP Funds (\$425,726 in SFY 13)	
<b>Counties Served</b>	
Services were available in 68 Oklahoma counties in SFY 2013; Counties not receiving C1 services include: Beaver, Beckham, Cimarron, Dewey, Nowata, Pawnee, Roger Mills, Texas and Washita.	Target Population: Low income pregnant women who are expecting to parent for the first time and enroll prior to the 29th week of pregnancy. The family's income must be at or below 185% of the federal poverty level. Services can continue until the child is two years of age.
<b>Program Model</b>	
Nurse-Family Partnership	
<b>Numbers Served</b>	
During SFY 2013, the Children First Program served 3,513 Oklahoma families.	
<b>Evaluation</b>	
Children First program evaluation is conducted at the county and state level. The program is also monitored by the Nurse-Family Partnership National Service Office (NFP/NSO). At the county level, data are collected and entered into the Public Health Oklahoma Client Information System (PHOCIS). Day-to-day monitoring and feedback is provided to counties from central office staff. Nurse caseload data may be accessed through the PHOCIS system. The University of Oklahoma, Biostatistics and Epidemiology Division, performs an annual program evaluation to monitor trends in client enrollment, smoking behaviors, infant birth characteristics, program attrition and model fidelity. Quarterly, the NFP/NSO provides program management reports which examine 1) characteristics of participants at the time of enrollment, 2) the extent to which C1 is implemented with fidelity to the NFP model, 3) information on program outcomes, and 4) comparisons of the C1 program to selected other dissemination sites and national NFP Program Standards. In addition, C1 Nurse Program Consultants conduct biannual site audits to ensure quality program delivery.	
<b>Outcomes</b>	
Children First program participants typically experienced better health outcomes than the general Oklahoma population, including: <ul style="list-style-type: none"> <li>• Fewer preterm births, or infants delivered before 37 weeks gestation (C1:10%, OK:10.6 % , )</li> <li>• Birth weights that equal the state rates (LBW C1:7%, OK: 7%; VLBW C1 2%, OK 2%)</li> <li>• Higher rates of breastfeeding initiation (C1: 89%, OK: 76%)</li> <li>• Higher immunization rates among children 0-24 months of age (C1: 95%, OK: 72%)</li> </ul> A study of C1 participants between 2002 and 2006 found that while C1 babies are at higher risk for abuse and neglect, and are reported more often, fewer maltreatment confirmation are found among C1 families.

# Children First - Logic Model

## ASSUMPTIONS

## INPUTS

## OUTPUTS-Activities

## SHORT-TERM OUTCOMES-Objectives

## LONG-TERM OUTCOMES-Goals

1. Program services are guided by literature on primary prevention programs and risk & protective factors of child abuse and neglect that show positive results such as:
- Prevention programs are most effective when they are tailored to the specific needs of the target population.
  - The timing of the intervention matters.
  - Intensity, duration and regularity of the intervention matters.
  - Programs using modeling, role-playing are nearly twice as effective as programs using non-directive strategies such as counseling and group discussions.
  - Enhancement of protective factors and minimization of risk factors reduces the occurrence of child abuse and neglect amongst children and families.

2. Children First Home Visitation program will utilize the Nurse Family Partnership model to deliver services.
- Home visitation programs have been proven to decrease incidence of abuse and neglect of children.

- Registered Nurses with valid Oklahoma licenses with training in the NFP model of home visitation services
- Transportation for conducting home visits.
- Social services / resources.
- Partnerships to provide referrals.
- Stable C1 funding.
- Clinical and administrative support of county health departments
- C1 central office staff.
- Program Evaluation.
- Program monitoring and contract compliance to ensure program fidelity.
- NFP Dr. Old's Model of Home Visitation

- POPULATION SERVED**
- Women from all 77 Oklahoma counties who are:
- At or below 185% of the Federal Poverty Level
  - Less than 29 weeks gestation
  - First time mothers
  - Voluntary Participants

- Assess maternal health
- Link to health care.
- Link to prenatal care.
- Educate on consequences of smoking, alcohol and drugs during pregnancy
- Identify depression and make referrals.

- Assess child health
- Link to health care.
- Conduct developmental screenings and make referrals.
- Promote breast-feeding.
- Educate about nurturing home environments.
- Educate about the effects of smoking around the child.
- Educate about the effects of domestic violence around the child.
- Demonstrate positive parenting techniques

- Assist in building skills for problem solving.
- Assist in building skills for finding and linking to appropriate community resources.
- Link to community services, as needed.
- Encourage appropriate stress –coping mechanisms.
- Promote and increase father involvement.

- Refer to employment or education resources.
- Educate on family planning and contraceptive use
- Provide positive role model for parent-child interaction.
- Provide referrals to public assistance programs when appropriate.

- Educate on safe practices and safe home environment such as water, fire, vehicle and wheeled toys safety; poisons, child-proofing home, abusive head trauma and safe sleeping practice.
- Educate on domestic violence.
- Assess risk of child maltreatment.

- Perinatal Health**
- Decreased incidence of STD and UTI among clients during pregnancy
  - Decreased emergency room usage
  - Appropriate weight gain
  - Early recognition and referral for Post Partum Depression
- Health Behaviors**
- Smoking Cessation
  - No alcohol usage
  - No substance usage
- Appropriate prenatal obstetrical care**
- Increase in clients receiving 10+ prenatal visits

- Infant Health**
- Increased breastfeeding initiation and duration
  - Decreased time spent in NICU, if necessary
  - Increased gestational age at delivery
  - Decrease in preterm births
- Toddler Health**
- Immunizations up-to-date
  - Well Child Checks up-to-date
  - Decreased emergency room visits due to illness
  - Appropriate growth patterns

- Paternal Involvement**
- Increase paternal involvement during pregnancy, infancy and toddlerhood
  - Increased communication between mother and father
  - More Positive Parent-Child Interaction
- Child and Maternal Living Arrangement**
- Increased stability of living arrangement for mother and child

- Subsequent Pregnancy Spacing and Family Planning**
- Increased interval between pregnancies, increased use of contraception
- Workforce Participation**
- Increased participation in workforce by clients over 18
- Continuing Education**
- Increased enrollment and attendance of educational or technical program
- Appropriate use of Public Assistance programs**
- Increased use of services available as appropriate

- Decreased usage of emergency room due to injuries**
- Home Safety Checklist
- Safe Sleep Practices**
- Increase in safe sleep practices
- Car Seat Safety**
- Increased car seat usage
- Decreased confirmations of abuse or neglect to OKDHS**
- Decreased exposure to home violence**

- Maternal Health**
- To enhance mother's health throughout pregnancy and after delivery to ensure adequate care and referrals if necessary.

- Infant/Toddler Health & Development**
- To enhance healthy growth and development.

- Family Stability**
- To enhance family functioning by establishing a trusting, nurturing relationship, improving family support systems and teach problem solving skills.

- Maternal Life Course Development**
- To promote achievement of personal goals in employment, education and personal health.

- Family Safety**
- To promote safe practices and reduce the risk of injury, illness, abuse and neglect.

Children First GOALS COLOR GUIDE

**PROGRAM GOAL**

**ACTIVITIES**

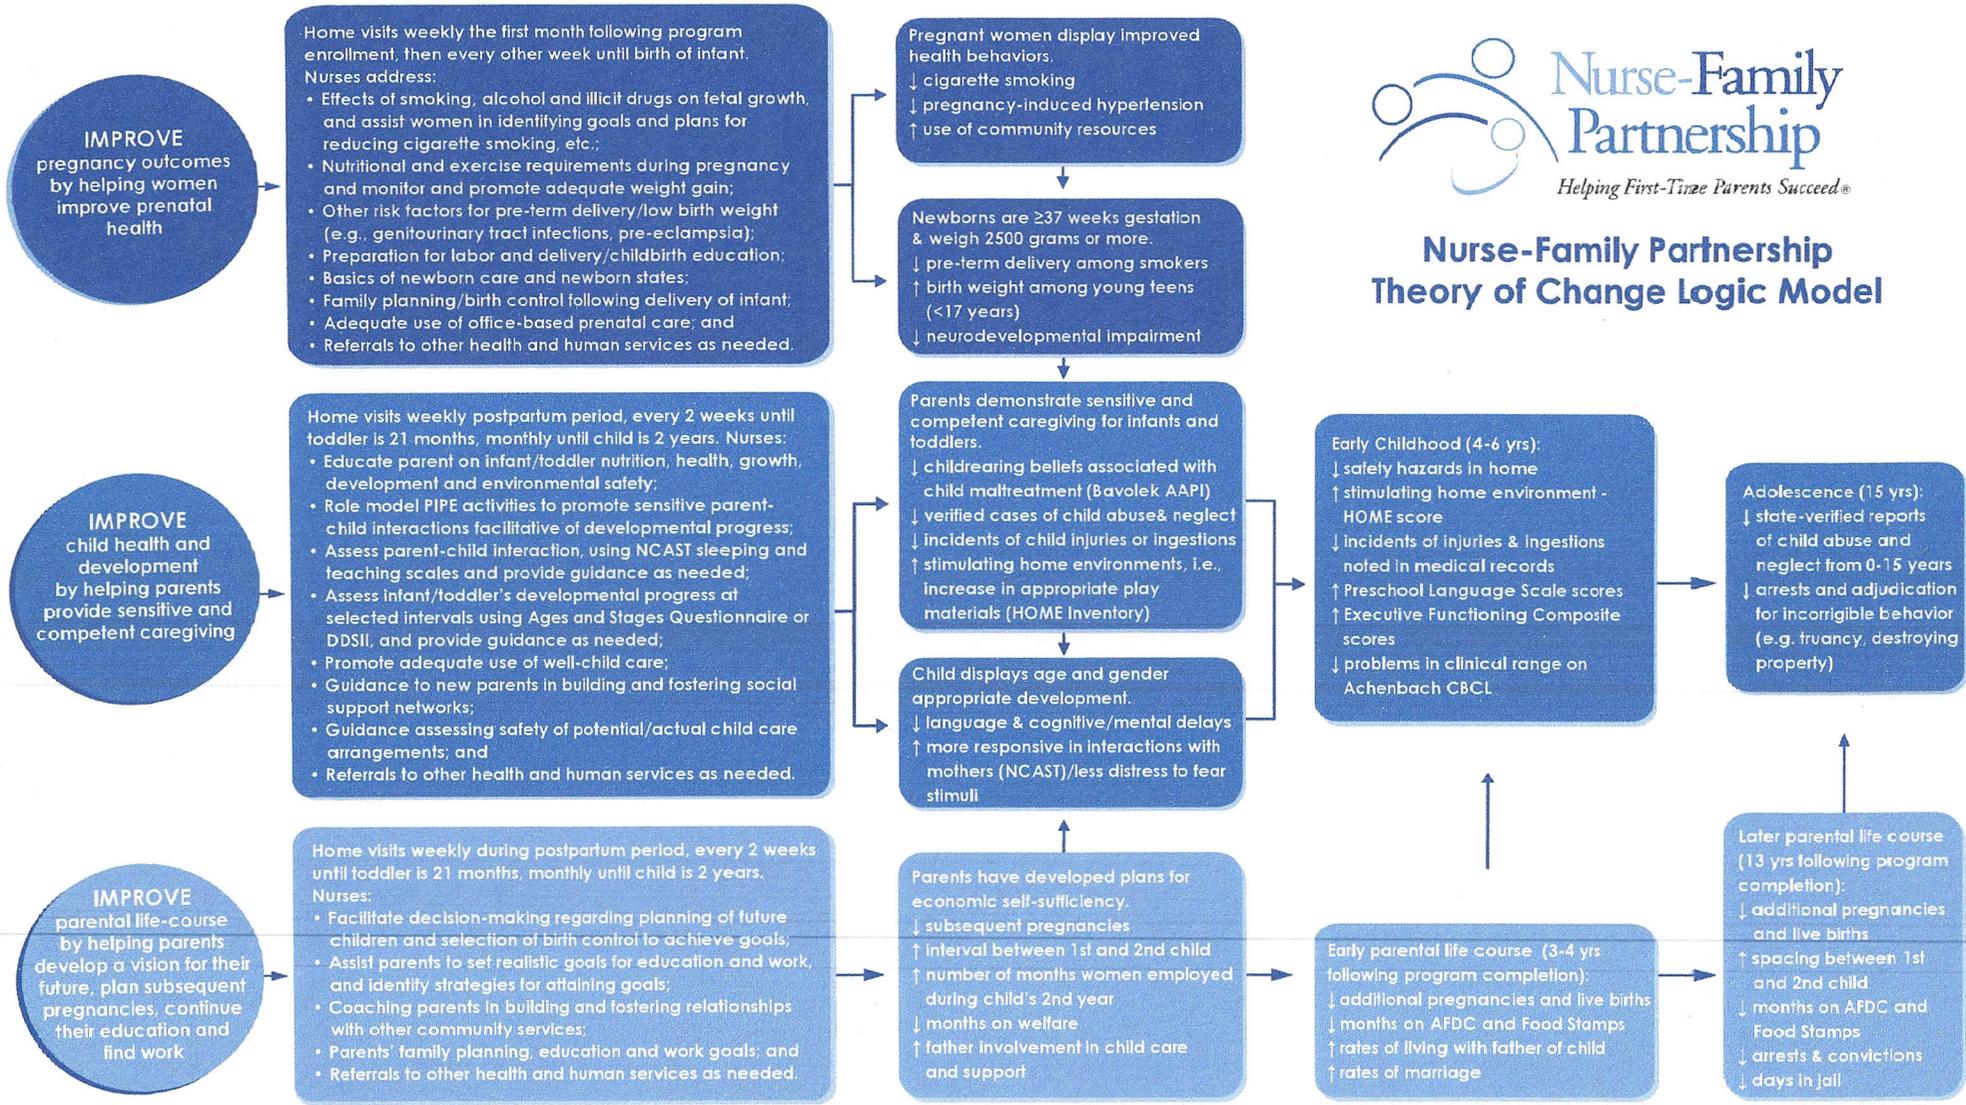

**SHORT-TERM OUTCOMES**

**INTERMEDIATE OUTCOMES**

**LONG-TERM OUTCOMES**

**Nurse-Family Partnership  
Theory of Change Logic Model**

### What is a logic model?

A logic model provides a visual depiction of a program's "theory of change" - the way in which a set of services to a particular population are linked to expected outcomes of the program. The articulation of a program's theory of change can help program staff and families stay focused on the outcome goals rather than just focusing on program activities and services. A logic model is also a tool to assist program stakeholders in gathering data to facilitate effective program implementation and evaluation.

This model flows from left to right, as depicted by arrows, and shows how program goals are translated into home visit activities with families, which in turn, facilitate families to create change needed to attain program outcomes. The theory behind a logic model is a series of "If...then" statements. For example, If women who are smokers at entry into the program quit smoking, then they are more likely to have a full-term infant weighing greater than 2500 Grams.

### What are the major elements of the Nurse-Family Partnership logic model?

The major elements of the logic model include the program's goals, activities, and outcomes.

**Program Goals** are broad statements of expected outcomes for the problem(s) that the program is attempting to prevent or reduce. The program goals are color coded to illustrate how they correspond to program activities and outcomes.

**Activities** are interventions designed to facilitate change in families' attitude, knowledge and skills in order to help them attain the intended program results.

**Short-term Outcomes** are changes that occur by completion of the program. The specific outcomes delineated are those observed in the three randomized, controlled trials in Elmira, New York (1977), Memphis, Tennessee (1988) and Denver, Colorado (1994).

**Intermediate Outcomes** are changes that result over time from short-term outcomes and are measurable at a later timeframe, usually within 2-6 years following completion of the program. The specific outcomes delineated are those observed in the 4-year and 6-year follow-ups of families from the randomized, controlled trials in Elmira, Memphis and Denver.

**Long-term Outcomes** refer to changes that have a greater community impact and require a greater time to measure, often 10 or more years following program completion. The specific outcomes delineated are those observed in the 15-year follow-up of families who participated in the trial conducted in Elmira.

### Who does Nurse-Family Partnership serve?

Nurse-Family Partnership serves low-income, first-time mothers and their children, by providing nurse home visitation services beginning early in pregnancy and continuing through the first two years of the child's life. Women voluntarily enroll as early as possible in pregnancy, but no later than the 28th week of gestation.

The majority of participants are unmarried women with less than a high school education. The focus on women who have had no previous live births stems from the belief that individuals undergoing a major role change are more likely to seek information and support from others than are women who have already given birth. Moreover, the skills first-time mothers learn through the program, will help them provide better care for subsequent children, generating even broader salutary effects.

Other family members are invited and encouraged to participate if the mother wants them to be present.

### How does Nurse-Family Partnership work?

Central to the successful implementation of Nurse-Family Partnership is the establishment of a trusting relationship with the family. Registered Nurse Home Visitors work together with their clients, engaging them in activities associated with the three Nurse-Family Partnership goals during each home visit. These goals are:

- Improve pregnancy outcomes;
- Improve child health and development; and
- Improve the economic self-sufficiency of the family.

These goals are achieved by helping women engage in good preventive health practices, including obtaining thorough prenatal care from their healthcare providers, improving their diet, and reducing their use of cigarettes, alcohol and illegal substances. Child health and development is improved by helping parents provide responsible and competent care for their children. The economic self-sufficiency of the family is improved by helping parents develop a vision for their own future, plan future pregnancies, continue their education and find work.

Nurse Home Visitors utilize a strength-based approach directed toward optimizing the family's sense of efficacy. They are guided in their work through detailed visit-by-visit guidelines that reflect the challenges parents are likely to confront during pregnancy and the first two years of the child's life. Within this framework, however, nurses use their professional judgment to address those areas where needs are greatest.

Guided by the above principals, and implemented with fidelity to the program model which has undergone extensive research over the past three decades, Nurse-Family Partnership is transforming lives through the power of relationships. For more information, please visit the Nurse-Family Partnership national website at: [www.nursefamilypartnership.org](http://www.nursefamilypartnership.org)

Nurse-Family Partnership's Theory of Change Logic Model was developed by Ruth O'Brien, Ph.D, RN, through a grant from the Harvard University Family Research Project - Home Visit Forum.

## OKLAHOMA RESPITE RESOURCE NETWORK (ORRN)

<http://ocap.health.ok.gov>

*Secondary Prevention*

Agency	Description & Target Population
<b>Oklahoma State Department of Human Services &amp; Oklahoma State Department of Health</b>	Respite, a temporary relief for families and caregivers, is recognized as a method to reduce the stress in families and to reduce child abuse and neglect. The Respite Care Program at the health department is coordinated within the Office of Child Abuse Prevention using funds from the Federal Community-Based Child Abuse Prevention Grant. <b><u>Target Population:</u></b> For OSDH purposes, Children First and OCAP/Start Right are the families targeted to receive these services.
<b>Funding Source</b>	
Community-Based Child Abuse Prevention (CBCAP) funds (\$10,000 in FY2013)	
<b>Numbers Served</b>	
For FY2013, the Oklahoma State Department of Health had 405 respite vouchers redeemed.	
<b>Outcomes</b>	
<ol style="list-style-type: none"> <li>1. Some families use Respite vouchers for more than one purpose. In SFY2012, according to Respite Survey responses, 29% of the OCAP Start Right and Children First caregivers used Respite vouchers for health care appointments, 21 % used the vouchers for seeking, or sustaining employment and 24% used them for furthering their education. One client reported that she was able to complete the requirements for her bachelor's degree with the benefit of Respite service. Respite vouchers were also used by caregivers in SFY 2012 for personal care related to chronic stress and moving.</li> <li>2. In SFY2012, the use of Respite vouchers gave OCAP Start Right and Children First caregivers the direct responsibility of hiring and paying childcare services, thereby learning skills that increase their self-confidence and give them a sense of empowerment.</li> </ol>	
<b>Contact Information</b>	Sherie Trice Family Support & Prevention Service, (405) 271.7611 1000 NE 10th Street Oklahoma City, Oklahoma 73117 <a href="mailto:chrisf@health.ok.gov">chrisf@health.ok.gov</a>

## FAMILY EXPECTATIONS

[www.familiesok.org](http://www.familiesok.org)

### Secondary Prevention

Agency	Description & Target Population
Public Strategies	<p>Family Expectations is a comprehensive, couple-based intervention for lower-income expectant or new parents. The overarching goal of the program is to increase family well-being by helping expectant couples strengthen their relationships and/or marriages during and immediately following the birth of a child. Family Expectations is uniquely designed to help young parents be well equipped to handle the stressors that will likely accompany their growing family.</p> <p><u>Target Population:</u></p> <ul style="list-style-type: none"> <li>• Income level at less than 200% of the federal poverty guidelines</li> <li>• Couples in a committed relationship, married or unmarried</li> <li>• Couples expecting a baby or recently had a baby, enrollment anytime during pregnancy up to 3 months post-birth</li> <li>• Both individuals are over 18 years of age</li> </ul> <p><u>Service Period:</u></p> <p>From date of first receiving services until baby turns one year of age.</p>
<b>Funding Source</b>	
<ul style="list-style-type: none"> <li>• Oklahoma Department of Human Services (OKDHS)</li> <li>• Office of Family Assistance (OFA)</li> </ul>	
<b>County Served</b>	
Oklahoma County	
<b>Services</b>	
<p>There are two primary components of the FE program: workshops and individualized family support services. 1) The workshop component is comprised of an initial 33 hour workshop that couples participate in together. The workshop addresses healthy communication, anger and stress management, baby care, and the importance of couple time. Other workshops, or extended activities, are offered to the couple on topics that support and provide the couple with additional information on healthy relationship skills, child development, good communication, and family issues. 2) Each couple has a Family Support Coordinator that works with them to identify strengths and needs, provide information and referrals, and help the couple integrate the workshop tools and concepts into their daily life.</p>	
<b>Program Model</b>	
Family Expectations Change Model	
<b>Numbers Served</b>	
10,400 adults served since mid-2005.	
<b>Evaluation</b>	
<p>The dissolution of the couple's relationship is twice as likely to occur after the birth of a child. This is a time which the stress related to raising an infant can break down a couple's relationship, especially for couples that are not married. The Family Expectation's program goal is to strengthen these fragile families and bring stability to their child's life. This preventative intervention is meant to be provided at this pivotal transitional point in the couple's relationship, thus creating a "teachable moment".</p>	
<b>Outcomes</b>	
<ol style="list-style-type: none"> <li>1. 98% Improved communication skills between partners.</li> <li>2. 97% Improved conflict resolution skills between partners.</li> <li>3. 97% Improved parenting knowledge.</li> <li>4. 87% Created a better understanding of how to avoid destructive conflict behaviors.</li> <li>5. 93% Improved attitudes toward marriage among participants.</li> <li>6. 93% Increased knowledge of tools necessary to improve family finances among participants.</li> <li>7. 20% Increase in Family Stability for program couples over control group couples</li> </ol>	
<b>Contact Information</b>	<p>David Kimmel, Ph.D., Program Director, <a href="mailto:david.kimmel@familiesok.org">david.kimmel@familiesok.org</a>            3 East Main Street            Oklahoma City, OK 73104            (405) 639-2054</p>

## MATERNAL, INFANT, CHILD HOME VISITING (MIECHV) PROGRAM FEDERAL GRANT

[www.ok.gov/health/Child and Family Health/Family Support and Prevention Service/MIECHV Program - Federal Home Visiting Grant/index.html](http://www.ok.gov/health/Child_and_Family_Health/Family_Support_and_Prevention_Service/MIECHV_Program_-_Federal_Home_Visiting_Grant/index.html)

←----- Secondary Prevention ----->

Agency	Description & Target Population
<p>The Oklahoma State Department of Health has been designated as the lead agency in the collaborative efforts to plan and implement the MIECHV Program.</p>	<p>Authorized by the Affordable Care Act that was signed on March 23, 2010, the Maternal, Infant, and Early Childhood Home Visiting (MIECHV) Program was established through a federal grant process issued jointly by Health Resources and Services Administration (HRSA), and the Administration for Children and Families (ACF). The three steps required for completion of the MIECHV Program process consisted of submitting an application for funding; a statewide needs assessment; and an updated state plan for home visiting. All phases for Year 1 of the Formula Grant were completed and the grant was awarded. Years 2 and 3 of the Formula Grant was also submitted and awarded.</p> <p>Additionally, Oklahoma applied for a MIECHV Expansion Grant. The maximum funding amount of this competitive grant was awarded to only three states, one of which was Oklahoma. Based on the results of the needs assessment, communities that have been identified to receive services using Formula Grant funds are Kay and Garfield Counties. Expansion Grant funds will be used in Comanche, Muskogee, Oklahoma and Tulsa Counties.</p> <p><b>Services:</b> Home visitors meet with at-risk families in their homes, evaluate the families' circumstances, and connect families to the kinds of help that can make a real difference in a child's health, development, and ability to learn - such as health care, developmental services for children, early education, parenting skills, child abuse prevention, and nutrition education or assistance.</p> <p><b>Target Population:</b> Priority will be given to eligible participants who have low incomes; are pregnant and not yet 21; have a history of maltreatment or interaction with child welfare; have a history of substance abuse; users of tobacco products; have developmental delays, disabilities or low educational achievement; and are in military families.</p>
Funding Source	
<p>Administration for Children and Families (ACF) and U.S Department of Health and Human Services, Health Resources and Services Administration (HRSA)</p> <p><b>Funding amounts available for the grants are listed below:</b></p> <p>Formula ----- \$ 2,340,796.00            Competitive, Expansion ----- \$ 9,430,000.00</p> <p>Funding for the Formula grant included \$673,000 to sustain the existing ACF Evidence-Based Home Visitation Grant Program housed at the OUHSC Center on Child Abuse and Neglect.</p>	
County Served	
<p>The Oklahoma statewide needs assessment identified the top ten communities on which to focus efforts for the MIECHV Program. Those counties are Kay, Garfield, Oklahoma, Muskogee, Coal, McCurtain, Carter, Adair, Comanche, Greer.</p> <p>It was decided to focus on counties that have a total population greater than 10,000 since resources are scarce. Therefore, Coal and Greer, which have populations less than 7,000, were removed from the rankings. As a result, McClain and Tulsa moved into the top ten.</p> <p>All efforts using Formula Grant funds will be dedicated to Kay and Garfield Counties. Expansion Grant funds will be used to serve families in Comanche, Muskogee, Oklahoma and Tulsa Counties.</p>	
Program Model	
<p>In order to utilize what was identified as the most effective home visiting practices, use of evidence-based home visitation models is required in the MIECHV Program. Oklahoma has chosen to expand the Nurse-Family Partnership, Health Families America and Parents as Teachers programs in all counties identified for service.</p>	
Numbers Served	
<p>During FY 2013, 381 families were served. As new contracts were awarded for Healthy Families America and Parents as Teachers services, new staff were trained and additional families were enrolled and being served.</p>	

## Evaluation

The MIECHV Program requires that data be collected and improvements be made for all the mandated benchmarks. The benchmarks include: Maternal and Child Health; Child Injuries, Child Abuse, Neglect or Maltreatment and Reduction of Emergency Department Visits; Improvements in School Readiness and Achievement; Crime or Domestic Violence; Family Economic Self-Sufficiency; Coordination and Referrals for Other and Community Resources and Supports. Each of the MIECHV Grants includes a plan for achieving the benchmarks and their corresponding constructs.

## Outcomes

### **Targeted participant outcomes include:**

- Improved maternal and child health;
- Prevention of child injuries, child maltreatment, and reduction of emergency department visits;
- Improvement in school readiness and achievement;
- Reduction in crime or domestic violence;
- Improvements in family economic self-sufficiency; and
- Improvements in the coordination and referrals for other community resources and supports.

Agency	Description & Target Population
Oklahoma State Department of Human Services	<b>SAFECARE</b> – An ecobehavioral home visitation program model developed by John Lutzker, PhD, that addresses parent-child bonding, home safety and cleanliness and child health.
<b>Funding Source</b>	<b>SAFECARE+</b> an enhanced version of SAFECARE which includes problem solving, motivational interviewing, managing child behavior, conflict resolution, healthy relationships curriculum, behavior activation to address depression and safety planning to address risk factors.
<ul style="list-style-type: none"> <li>▪ Annual State appropriation of \$200,000</li> <li>▪ US Department of Health and Human Services through Maternal and Child Health of the US Human Resources and Services Administration</li> </ul>	<b>Services:</b> One on one service within a family's natural environment. Safe Care is designed to prevent child maltreatment in families at high risk by providing direct skill training to parents in parent child bonding and parenting skills including child behavior management, home safety training, healthy relationships, reduce parental depression, and teaching child health care skills to prevent child maltreatment.
<b>County Served</b>	<b>Target Population:</b> Families with children 0-18 years of age, with at least one child under the age of six years and who do not have a history or more than two prior child abuse or neglect referrals or have an open child welfare case. Client families have at least one of the following conditions: an active substance abuse disorder; a history of domestic violence; a mental health diagnosis; a physical or developmental disability resulting in impaired parenting; or a combination of any of the above mentioned conditions.
<b>Oklahoma County</b> *Implementation Site: North Care	
<b>Program Model</b>	
SafeCare+ (Adapted and augmented Safe Care)	
<b>Numbers Served</b>	
We anticipate serving 400 families from 2011 through to 2014.	
<b>Planned Evaluation</b>	
<p><i>Process Evaluation:</i> Process evaluation data covers four domains: families' program participation, dose of skills training and knowledge dissemination, fidelity to program protocols and compatibility to program attributes.</p> <p><i>Child and Family Outcomes:</i> Using a (2x2) factorial randomized controlled trial design, we are evaluating the efficacy and effectiveness of Safe Care's program/service content (breadth vs. depth) and service delivery approach (consumer choice vs. risk based decision making), incorporating lessons learned from previous SafeCare RCT studies (2002-2010). Supplemental modules being evaluated include: Healthy Relationships for IPV prevention, Child Behavior Management, and Behavioral Activation for depression/ stress management.</p>	
<b>Preliminary Outcomes</b>	
<p><i>Process Evaluation Outcomes (SafeCare Specific):</i> To date, 88% (119) of eligible referred families have been successfully engaged in services (received at least one home visit session). Program graduates (30;22%) completed on average 34 (SD=15) home visits and met SafeCare program goals in areas related to parenting skills, child health knowledge, home safety, healthy interpersonal relationships and stress management.</p> <p><i>Child and Family Outcomes (SafeCare Specific):</i> Among families discharged from the program (n=76; includes service dropouts), improvements were observed in 5 investigated domains: home sanitation-87%, home safety-86%, parenting-92%, interpersonal relationships-68%, stress management-84% and adequacy of child healthcare-83%.</p>

## COMPREHENSIVE HOME-BASED SERVICES | PARENT AID SERVICES | OKDHS

[www.okdhs.org](http://www.okdhs.org)

### Tertiary Prevention

Agency	Description & Target Population
Oklahoma State Department of Human Services	<p><b>Comprehensive Home-Based Services (CHBS)</b> offers specific services to help ensure and enhance, or ameliorate obstacles that impede, the safety, well being and social functioning of children and their families. CHBS incorporates existing community services and resources with needs-driven, family-focused treatment through a partnership of contract case management and child welfare staff. CHBS is the primary component of the Oklahoma Children's Services (OCS); a contracted community based service delivery system. The standard service period of CHBS is six months.</p>
<b>Funding Source</b>	
<p>Funds for CHBS and PAS come from a mixture of State and Federal Funds with the percentages as follows.</p> <p>State: 47.55% of total funds</p> <p>Federal: TANF – 52.45%</p> <p>90% of the total funds go to CHBS and the remaining 10% to PAS</p>	<p><b>Target Population:</b> Families with children 0-17 years of age who are at risk of being removed due to child abuse and neglect and/or exposure to parental drug/alcohol abuse. Approximately 39% of the families served were court ordered with the remaining families being voluntary (60%). Families served have reported histories of alcohol and drug problems, medical conditions, and mental health issues. The single point of entry for this service is from an active Child Welfare case wherein children have been determined unsafe.</p>
<b>Counties Served</b>	
Statewide	<p><b>Parent Aide Services (PAS)</b> are in-home, non-therapeutic services to encourage parenting skill development for families affected by or at risk for child abuse and neglect. PAS are designed to deal with very basic issues, such as: housekeeping, child development, budgeting, transportation and modeling appropriate parenting skills. PAS is a secondary component of the Oklahoma Children's Services (OCS); a contracted community based service delivery system. The standard service period is six months.</p> <p><b>Target Population:</b> Typical parent aide clients are families at risk for child/abuse/neglect due to lack of knowledge and experience in parenting and housekeeping skills. They are often young and unfamiliar with how to access available resources. Most have had a recent referral of abuse or neglect, but considered serious enough to warrant court intervention.</p>
<b>Program Model</b>	
Traditional CHBS service model and SafeCare evidence-based parenting curriculum continued during SFY 2013. Parent Aide Services continues to provide home visitation services as described above.	
<b>Numbers Served</b>	
<p>CHBS: Over 1647 families were served by CHBS during SFY 2013.</p> <p>PAS: 363 families were served by PAS during SFY 2013.</p>	

## Evaluation

Since 1998, Oklahoma University's Center on Child Abuse and Neglect (CCAN) has performed annual independent evaluations of CHBS that allow for longitudinal research of the client population and outcomes. The researchers have utilized federal grant monies to develop and pilot new interventions with CHBS that may eventually be incorporated into the SafeCare curriculum. In SFY 2013, the independent evaluation team trained all of the CHBS providers in a discipline component, Managing Child Behavior, (MCB). MCB provides a needed component that is missing in the SafeCare parenting curriculum, a means to provide incentives for good behavior and penalties for bad. The new module also provides support to foster and adoptive parents as recommended in the Oklahoma Pinnacle Plan as a way to help stabilize placements at risk of disruption or dissolution due to acting out behaviors of children. CCAN continues to evaluate the effectiveness of this new module in stabilizing foster and adoptive placements as well as preventing removal of children or reentry into care for children living with biological families.

## Outcomes

The independent evaluation of CHBS for SFY 2013, including client demographics, recidivism rates and reunification outcomes had not been submitted at the time of this report. Below is a summary of the recidivism data from FY 2012. Because of the nature of the analysis to look at recidivism and the need for time to pass for success to be measured, the Independent Evaluation Team looks at families served over a four or five year period.

- Child welfare reports were examined for families served by CHBS from FY 2008 through FY 2012. At 1,500 days from the date of first service, approximately 50% of the families had a future report of maltreatment. This is down from 60% recidivism for cases served during FY 2003-2006.
- By far, most subsequent referrals are for neglect. Compared to prior years, there was a slight increase in families served during this time frame having no future reports of neglect (up 5%) or abuse (up 2%). This is a promising trend.
- It was noted that there was a shift in CHBS services with respect to Reunification, with less families receiving services while a child was out of the home. The trend seemed to be for utilizing CHBS to help with maintaining reunification shortly after the child was placed back in the home.

## CHILD GUIDANCE PROGRAM | OKLAHOMA STATE DEPARTMENT OF HEALTH PARENT CHILD INTERACTION THERAPY (PCIT)

<http://cgp.health.ok.gov>

Tertiary Prevention →

Agency	Description & Target Population
<p><b>Oklahoma State Department of Health</b> Administered at the County and City-County Health Department levels</p>	<p>Child Guidance provides Parent-Child Interaction Therapy (PCIT) for children ages 3 to 12 with disruptive behavior disorders and their parents. Therapy is provided until the parent achieves self confidence in their parenting. Parents receive parenting assessment and instruction, and then receive coaching, in which parents are provided instruction through a “bug-in-the-ear” receiver while playing with the child in a playroom.</p>
<p><b>Funding Source</b></p> <p>Child Guidance State Appropriations (\$2,014,241) Federal Funds (\$1,367,205) and Local Millage (\$1,649,622) in SFY 2013; CBCAP Funds (\$150,000) in FFY 2013.</p> <p><i>Funding for PCIT programs is included in the Child Guidance overall appropriation.</i></p>	
<p><b>Program Models ~ Specialized Programs within Child Guidance</b></p>	
<p><b>Parent-Child Interaction Therapy (PCIT):</b> PCIT is an empirically-supported treatment for conduct-disordered young children with an emphasis on improving the quality of the parent-child relationship and changing parent-child interaction patterns. In PCIT, parents are taught specific skills to establish a nurturing and secure relationship with their child while increasing their child’s prosocial behavior and decreasing negative behavior. This treatment focuses on two basic interactions: Child Directed Interaction (CDI) is similar to play therapy in that parents engage their child in a play situation with the goal of strengthening the parent-child relationship; Parent Directed Interaction (PDI) resembles clinical behavior therapy in that parents learn to use specific behavior management techniques as they play with their child.</p>	
<p><b>Numbers Served</b></p>	
<p>For SFY 2013, 1,377 total individual encounters for Parent Child Interaction Therapy program were conducted.</p>	
<p><b>Outcomes</b></p>	
<p>For SFY 2013, of families completing PCIT, 87% showed fair, good or very good progress toward reaching treatment goals.</p>	
<p><b>Contact Information</b></p>	<p>Beth Martin, Chief Child Guidance Service Oklahoma State Department of Health 1000 NE 10<sup>th</sup> Street Oklahoma City, OK 73117-1299 (405) 271-4477 <a href="mailto:ChildGuidance@health.ok.gov">ChildGuidance@health.ok.gov</a></p>

Agency	Description & Target Population								
Oklahoma State Department of Mental Health and Substance Abuse Services	<b>Eligibility:</b> Kids 0-21 and their families, with a serious emotional disturbance and involved in two or more child serving systems and at risk for out of home placement.								
<b>Funding Source</b> Federal SAMHSA Systems of Care federal funding – SOC WAFA 4 million 4 years State FY 2013 – FY 2016 SOC Expansion 9 million – 5 years – State FY 2009- FY 2014..	<b>Systems of Care</b> <ul style="list-style-type: none"> <li>• How communities come together to provide a system of behavioral health services and supports for children, youth and families</li> <li>• Families as partners and therapeutic allies</li> <li>• Multi-disciplinary teams and blended resources</li> <li>• Individualized “Wraparound” approach</li> <li>• Strengths-based assessments</li> <li>• Community-based ownership</li> <li>• Coordination with informal and natural supports</li> <li>• Comprehensive service array</li> </ul>								
<b>Counties Served</b> 68 counties (see map below)	<b>Wraparound</b> “Wraparound” is a process which helps a family develop and carry out their own individualized treatment plan. The treatment plan focuses on meeting the needs of the child, youth and the family. Wraparound improves the lives of families by building on their strengths and encouraging them to make helpful, caring connections in their communities. Wraparound is different because it gives the family a choice about the services they receive and a voice in the manner in which they receive them. A trained and credentialed Wraparound facilitator works with the family to identify natural supports and service providers to form a family team. The team then works together to achieve the goals chosen by the family. A Family Support Specialist is provided for every family and helps monitor “family voice and choice” on the family team.								
<b>Program Model</b>									
Wraparound

## MENTAL HEALTH SERVICES

[www.odmhsas.org](http://www.odmhsas.org)

### Tertiary Prevention

Agency	Description & Target Population
Oklahoma Department of Mental Health and Substance Abuse Services	<p>ODMHSAS mental health services encompass a broad range of needs. The department operates a psychiatric hospital for adults, a facility with specific services for children and adolescents, along with a specialty center devoted to forensic services. In addition, ODMHSAS provides a variety of community mental health services through a statewide network of Community Mental Health Centers (CMHCs). Residential care services, housing and access to benefits are just some of the other related support services available. For individuals in crisis, the department provides emergency assessment, mobile crisis, community-based crisis stabilization and inpatient hospitalization. Specialized programs in partnership with law enforcement (CIT) and the criminal justice system (Mental Health Court) have been highly successful, as have other targeted programs related to children and family services (SOC) and community response (Project Heartland). ODMHSAS also provides funding for social and recreational services for individuals with mental illness who live in residential care facilities, as well as support for certain other community-based services such as assistance for mentally ill individuals who are homeless.</p> <p>State-funded services are available for adult Oklahomans in need of mental health and substance abuse treatment who are 200% of poverty or below and have no other means of pay. However, because of limited resources, there are illness severity criteria that must be met for adults to receive services. Eligibility requirements for children include those with no other means of payment. Individuals are free to seek services in any locale they prefer, regardless of service area of residence.</p>
<b>Funding Source</b>	
<p>ODMHSAS receives funding from a variety of sources. For SFY 2013, state appropriations totaled \$311.4 million including matching funds for Oklahoma's behavioral health Medicaid program. The department's total budget was \$439.2 million for SFY-13. Primary Sources: 71% state, 10% federal government and 19% other.</p>	
<b>Services</b>	
<p>While the majority of services delivered by ODMHSAS are center based, there are some home based services provided. Services are provided at state-operated and/or contracted service facilities. However, specialized community-based services for targeted at-risk populations are utilized (such as with PACT, children/family centered wrap around services, targeted outreach, etc.) and have become an integral part of the department's service delivery network.</p>	
<b>Program Model</b>	
<p>ODMHSAS is dedicated to funding best practice models such as Programs of Assertive Community Treatment (PACT), Illness Management and Recovery, Systems of Care for children and support other nationally recognized supportive programs such as case management, jail diversion programs, psychiatric rehabilitation services and services provided by persons in recovery.</p>	
<b>Numbers Served</b>	
<p>In State Fiscal Year 2013, approximately 187,000 individuals received behavioral health services from ODMHSAS-funded provider agencies and as part of Oklahoma's behavioral health Medicaid program (State Fiscal Year 2013: July 1, 2012 - June 30, 2013).</p>	
<b>Evaluation</b>	
<p>ODMHSAS maintains a comprehensive evaluation system of all processes and programs, involving a variety of data collection methods and statistical reports. Access to this information is available through the ODMHSAS website, <a href="http://www.odmhsas.org">www.odmhsas.org</a>, or by calling the department's decision support services division, (405) 522-3908.</p>	

## Outcomes

ODMHSAS monitors program effectiveness based on a variety of outcome measures. Specifically, the department collects information related to changes in at-risk behavior, wellness status and recovery progression of individuals who have received treatment services. Comparisons are made between pre-admission and post-admission history. Significant outcomes related to ODMHSAS mental health treatment services include:

### Mental Health Program Data

1. Percent of customers receiving a medication visit within 14 days of admission: 57.3%
2. Percent of customers receiving a follow up service within 7 days after an inpatient discharge: 78.1%
3. Percent of customers who receive four services within 45 days of admission: 77.4%

*Tertiary Prevention*

Agency	Description & Target Population
Oklahoma Department of Mental Health and Substance Abuse Services	ODMHSAS operates or contracts with substance abuse treatment centers across Oklahoma, many with satellite offices, to provide services for individuals in need. Facilities are located statewide, and offer a variety of services including: assessment and referral, detoxification, outpatient counseling, residential treatment, substance abuse education, transitional living, and aftercare services. Some programs are designed to meet the needs of specific populations, such as criminal justice, women with children, adolescents, Hispanics and Native Americans.
<b>Funding Source</b>	
ODMHSAS receives funding from a variety of sources. For SFY 2013, state appropriations totaled \$311.4 million including matching funds for Oklahoma's behavioral health Medicaid program. The department's total budget was \$439.2 million for SFY-13. Primary Sources: 71% state, 10% federal government and 19% other.	
<b>Services</b>	State-funded services are available for adult Oklahomans in need of mental health and substance abuse treatment who are 200% of poverty or below and have no other means of pay. However, because of limited resources, there are illness severity criteria that must be met for adults to receive services. Eligibility requirements for children include those with no other means of payment. Individuals are free to seek services in any locale they prefer, regardless of service area of residence.
While the majority of services delivered by ODMHSAS are center based, there are some home based services provided. Services are provided at state-operated and/or contracted service facilities, however, specialized community-based services for targeted at-risk populations are utilized (such as with PACT, children/family centered wrap around services, targeted outreach, etc.) and have become an integral part of the department's service delivery network .	
<b>Program Model</b>	
ODMHSAS provides a comprehensive, therapeutic approach to the delivery of substance abuse services targeting individual need and focused on the use of evidence based practices to offer an appropriate continuum of care. Individuals are actively engaged in all processes, with attention also given to behavior modification and development of healthy life skills.	
<b>Numbers Served</b>	
In State Fiscal Year 2013, approximately 187,000 individuals received behavioral health services from ODMHSAS-funded provider agencies and as part of Oklahoma's behavioral health Medicaid program (State Fiscal Year 2013: July 1, 2012 - June 30, 2013).	
<b>Evaluation</b>	
ODMHSAS maintains a comprehensive evaluation system of all processes and programs, involving a variety of data collection methods and statistical reports. Access to this information is available through the ODMHSAS website, <a href="http://www.odmhsas.org">www.odmhsas.org</a> , or by calling the department's decision support services division, (405) 522-3908.	
<b>Outcomes</b>	
ODMHSAS monitors program effectiveness based on a variety of outcome measures. Specifically, the department collects information related to changes in at-risk behavior, wellness status and recovery progression of individuals who have received treatment services. Comparisons are made between pre-admission and post-admission history. Significant outcomes related to ODMHSAS substance abuse treatment services include:	
<p>Substance Abuse Program Data</p> <ol style="list-style-type: none"> <li>1. Percent of customers reporting a reduction in substance use: 62.2%</li> <li>2. Percent of customers reporting a reduction in number of arrests: 58.2%</li> <li>3. Percent of customers NOT readmitting to Detox within 30 days: 96.2%</li> </ol>

## OKLAHOMA OFFICE OF ATTORNEY GENERAL

DOMESTIC VIOLENCE/SEXUAL ASSAULT/ADULT VICTIMS OF SEX TRAFFICING AND BATTERERS INTERVENTION PROGRAMS [www.oag.ok.gov](http://www.oag.ok.gov)

*Tertiary Prevention*

Agency	Description & Target Population		
Office of Attorney General	<p>The Office of Attorney General contracts with twenty eight community-based programs, to provide services for victims of domestic violence, sexual assault and stalking. At a minimum, they provide crisis intervention, safety planning and temporary shelter in a safe environment. Shelter stay traditionally is 30 days, although extensions are granted. Additionally these programs help battered women and their children navigate the court system, obtain protective orders, find legal counsel, seek jobs, childcare, new living arrangements, and locate additional community resources.</p> <p><i>Target Population:</i> Victims of domestic violence, sexual assault and stalking and adult victims of sex trafficking.</p> <p><i>Victims of domestic violence receive services at a certified DVSA programs, shelters, court houses, emergency rooms, and police departments.</i></p>		
Funding Source			
Funding for the domestic violence/sexual assault programs comes from state appropriations, court fees and federal funding through the Family Violence Prevention Services Act (FVPSA)			
Counties Served			
77 counties			
Program Model			
<p>The intervention strategies for the DVSA agencies working with adult domestic violence/sexual assault /stalking victims is to provide <b>SAFETY from physical, emotional, financial, and psychological harm</b> with the ultimate goal of eliminating violence from their lives and their children. These strategies are based on an empowerment model, actively supporting each victim's right to self-determination. Additionally DVSA agencies recognize and promote partnerships with community resources such as law enforcement and the courts in order to reduce violence within our society, promote victim safety, and reinforce abuser accountability and to advance the ethic of zero tolerance for domestic violence, sexual assault, and stalking in our communities.</p>			
Numbers Served			
<p>In federal fiscal year 2013 as self-reported by the domestic violence programs, provided assistance to 13,218 victims of domestic violence sexual assault. There are currently 28 programs certified by the Office of Attorney General offering services to domestic violence victims and their children. And currently there are 26 certified batterer intervention programs in the state.</p> <p><i>Please note: These numbers do not reflect the domestic violence/sexual assault victims served by the Native American Tribes.</i></p>			
Evaluation			
<p>Surveys are collected in four program areas: shelter, support services, advocacy and counseling. Therefore a client may be asked to fill out multiple surveys. The results of the surveys for reporting period October 1, 2012 to September 30, 2013 are:</p>			
Survey Type	Number of Survey's Completed	Number of Yes Responses to Resource Outcome	Number of Yes Responses to Safety Outcome
Shelter Survey	1,901	1,774	1,809
Support Services and Advocacy Survey	3,769	3,671	3,696
Counseling Survey	1,572	1,502	1,526
Support Survey	1,610	1,533	1,722
<b>TOTAL</b>	<b>8,852</b>	<b>8,480</b>	<b>9,873</b>

## OKLAHOMA DRUG COURTS

[www.odmhsas.org](http://www.odmhsas.org)

### Tertiary Prevention

Agency	Description & Target Population
Oklahoma State Department of Mental Health and Substance Abuse Services	The Oklahoma Department of Mental Health and Substance Abuse Services leads the development of drug courts statewide. Drug court pairs the court system with substance abuse treatment for non-violent offenders with addictions. The judicially monitored treatment program serves as an alternative to prison. A team of representatives from the judicial, criminal justice, law enforcement, and treatment fields meet weekly to screen potential drug court defendants and to review participants' progress. It costs approximately \$19,000 to incarcerate one person for a year as opposed to an average of \$5,000 per person per year for drug court. The average incarceration time is seven years if the drug court participant fails the program.
<b>Funding Source</b>	
Funding for ODMHSAS drug court services is from state and federal appropriations. ODMHSAS received specific state appropriations in the late 1990's and mid-2000's and routinely seeks federal appropriations.	
<b>Services</b>	
Drug Courts provide services which are both center-based and home-based to the program participants. Treatment services are provided primarily in the facility of the Drug Court treatment provider and include individual and group substance abuse and mental health treatment. Supervision services monitor participants' compliance with court orders and are provided at any location including, but not limited to, participants' homes, employment, school, as well as supervision offices.	
<b>Program Model</b>	
The Oklahoma State Legislature has set forth guidelines for the structure of the Adult Drug Court programs. Drug Court teams consist of a judge, district attorney, defense attorney, treatment representative, and coordinator, with additional staff being optional. Eligible offenders are adults who have a felony charge pending in district court and do not have a history of a felony conviction for a violent offense. The Drug Court program is a five (5) phased approach including treatment/supervision focused portions and supervision-only focused portions of the program. The treatment period is designed to be completed within twelve months, but has the capacity to extend to twenty-four months. The supervision only portion of the program, also known as aftercare, extends for the twelve months preceding treatment. Program participation does not exceed thirty-six months. At completion of the program, the criminal case is disposed based on the written plea agreement.	
<b>Numbers Served</b>	
The 60 Drug Courts that are operational across 73 counties (some courts serve multiple counties) served over 6,000 participants in fiscal year 2014. The program includes Adult, Juvenile, and Family Drug Courts across the state.	
<b>Evaluation</b>	
ODMHSAS maintains a comprehensive evaluation system of all processes and programs, involving a variety of data collection methods and statistical reports. Access to this information is available through the ODMHSAS website (listed above) or by calling the department's decision support services division at (405) 522-3908.	
<b>Outcomes</b>	
<ol style="list-style-type: none"> <li>1. Data during FFY2013 indicates that unemployment decreased by 93.9% between admission and graduation.</li> <li>2. Data during FFY2013 shows a 42.9% decrease among participants without a high school education between admission and graduation.</li> <li>3. Data during FFY2013 demonstrates that children living with their parents increased by 73.3% between admission and graduation.</li> <li>4. Data indicates that \$23.5 million in total wages were earned and \$1.4 million in tax revenue was generated 3 years after drug court admission (based on 670 drug court graduates from 2007, currently about 1,300 participants graduate per year).</li> </ol>
