

About Us...

Beaver County Partner's in Progress (BPIP), located in Beaver, a rural community in the Oklahoma panhandle, began in 2002 with a specific goal of establishing a Wellness Center in their community. The Beaver River Wellness Corporation was established, became a 501c3 and land was donated for the center. However due to the enormity of the project and lack of funding, progress has been halted. The coalition meets monthly on the third Tuesday of the

month at noon. The coalition is working through the Mobilizing for Action through Planning and Partnerships(MAPP) process and have completed the County Health Assessments (CHA). We are working on goals and strategies for the County Health Improvement Plan (CHIP).

BPIP has made significant strides this year in the development of soccer fields on the donated land. Once completed there will be five new soccer fields.

The coalition also continues to work with the Systems of Care team for families with children with behavioral and emotional issues and with the Regional Prevention Coordinators on substance abuse initiatives.
