Creating a State of Health

This publication was issued by the Oklahoma State Department of Health as authorized by Terry L. Cline, Ph.D., Commissioner of Health. 2,500 copies were printed by the OSDH in September 2012, at a cost of \$725.00.

Children First

Oklahoma's

What Is Children First?

Children First is:

- A voluntary home visitation program;
- Available through your local health department;
- Staffed by Public Health nurses; and
- A program shown to make a difference in pregnancy and birth outcomes; such as, birth weights and length of pregnancy.

Who Can Enroll?

Enrollment is open to women:

- Less than 29 weeks pregnant;
- Expecting their first child; and
- Who meet income eligibility criteria.

How Often Can Visits Occur?

Your home visits:

- Can begin during pregnancy and continue until your child is 2 years old;
- Can be scheduled every other week during pregnancy, infancy and toddler period;
- Can be scheduled weekly during the 6 week period after your baby's birth; or
- Can be tailored to meet your needs.

What Happens During A Visit?

During pregnancy your nurse will:

- Help you find answers about what happens during pregnancy;
- Help you develop your plan for a healthy pregnancy;
- Answer your questions about labor and delivery;
- Answer your questions about how to care for your baby; and
- Help you find resources to meet your family's needs.

After the birth of your baby your nurse will:

- Answer your questions about how and what to feed your baby;
- Help you understand your child's growth and development;
- Provide brief health assessments of the baby;
- Answer your questions about parenting;
- Answer questions about your child's health and safety; and
- Help you find resources to meet your family's needs.

* Services are not intended to replace services provided by you or your baby's healthcare provider.

"The Children First Program was a lifeline for me." -Former Client
