

## **Okmulgee County Wellness Coalition to Build New Greenhouse**

---

Mr. Bob Seebeck, Dr. Ed Osborn and Bobby Howard are spearheading the building of a new 24' X 24' green house that will be built by the Community Garden at 11 Turner Street in Okmulgee.

Construction is slated to start September 1 and be completed in October. The building will be constructed with doubled panel insulated glass.

Another feature will be Harvesting Water here and this water will be collected after rains in 250 container and used to water the gardens when needed.

The building will sit behind the Community Garden and will be gas heated. Children from the surrounding county schools will be able to visit the location for field trips and learn about the vegetables being grown there.
