Public Health: Impacting the Lives of Oklahomans

The Oklahoma State Department of Health provides services that impact the life of each person in Oklahoma in some way every day.

The common thread that binds our employees at the central office in Oklahoma City with those employees in our 69 county health departments is working together to protect and promote the health of Oklahoma’s citizens. Programs range from services for mothers and babies to addressing the latest public health threat, such as West Nile virus.

The September 11 terrorist attack on the World Trade Center and subsequent anthrax crisis provided a compelling opportunity for public health to make a leap toward a more assertive role in protecting our state’s health. In Oklahoma, we have enhanced our public health emergency response system, including improvements in our public health laboratory, clinician surveillance network, communications capabilities, and continuing education opportunities. We recognize that public health must be vigilant in our preparedness for the possibility of future terrorist attacks and crisis public health events.

Yet even though we have increased our crisis response capabilities, we recognize that it is the everyday health threats that are more likely to impact Oklahomans, thus we continue to work toward:

• stopping the spread of infectious diseases such as AIDS, sexually transmitted diseases, hepatitis, whooping cough, and tuberculosis;

• preventing the development of chronic diseases like cancer, heart disease, and diabetes;

• encouraging healthy behaviors such as quitting smoking, increasing physical activity, seeking a healthy diet, keeping immunizations current, and maintaining dental health;

• improving birth outcomes through better prenatal care, the use of folic acid by childbearing age women, reduced smoking and alcohol use;

• promoting healthy families through guidance programs, child abuse prevention, and nurse home visitation;

• monitoring health and long-term care facilities, restaurants, and other consumer establishments to assure that services meet or exceed optimum health standards; and

• reducing the number of injuries, the leading cause of death for persons 44 years of age and younger.

This annual report records our progress in meeting these challenges in fiscal year 2002.
Commissioner’s Message

From abstinence and anthrax, to whooping cough and West Nile, we are experiencing a roller coaster of issues affecting the health of Oklahomans during a time of dwindling support for public health in our state.

How best to describe what it is like to be Commissioner of Health during a time of such historical public health significance? As the Native American proverb on our cover indicates, sometimes you have to jump — and have faith that the decisions you make will allow you to land on solid ground. We make those decisions within the realm of the best scientific, evidence-based pathways we have at hand. Even so, the public health issues confronting us most recently, such as the anthrax threat, the potential for smallpox to be used in a terrorist attack, and SARS, are unfamiliar risks with science that is still evolving, which has led, understandably, to some public anxiety.

Our efforts have been bolstered by a workforce that has exhibited sacrifice, dedication and creativity during a time of tumultuous change in our organizational culture, and during a time when we have been center stage on so many health issues. In addition, numerous partner organizations throughout the state have been willing to take risks and join us as we prepare for potential terrorist attacks and other public health crisis events, and as we battle the day-to-day health risks that can impact Oklahomans.

On some days, we do struggle as we try to allocate our limited resources to those areas that will best achieve an improvement in the health of our citizens. I worry that despite our improvements, change is not happening fast enough, and that as a state, we are falling farther behind in achieving a healthier population. Yet it is during these times that I am heartened by our small victories. They propel us toward opportunities that allow for greater success.

And soon, we are ready to take another jump, to take another risk... so that Oklahoma can leap forward toward creating a state of health.

Leslie M. Beitsch, MD
Services

Public health is people oriented and community focused and nowhere is that more evident than in services provided by Oklahoma’s county health department network. Local county health departments serve an important role in their communities by linking individual health to community health.

The general organization of a county health department includes a medical director, administrative director, nurses, sanitarians, and child guidance personnel, as well as administrative and support staff. Most counties can offer specialized services provided by nutritionists, social workers, nurse practitioners, and others who are assigned on a regional basis to one or more health departments.

Local millage and other revenue sources support county health department services in 69 counties. Eight counties do not have organized health departments: Cimarron, Ellis, Nowata, Osage, Alfalfa, Dewey, Roger Mills, and Washita. Some minimum services, as defined by statute, are provided to these counties by the central office, or nearby county health departments. Oklahoma and Tulsa counties operate city-county health departments autonomously from the Oklahoma State Department of Health’s local health network.

The nurturing of our communities’ health cannot be dependent on government action alone. Many county health departments are using *Turning Point*, a community partnership approach to improve health. This process helps organize citizens, other health care providers, business and labor representatives, educators, community-based organizations and the faith community to participate in public health decisions.

The agency’s Central Office Services located in Oklahoma City provide program design and development; oversight, monitoring and evaluation; and technical assistance. They partner with county health departments in identifying shared values and common goals, specific roles and responsibilities in conducting public health programs, and accountability mechanisms.
Central Office Services pursue fiscal opportunities through federal, state and private sources to fund programs and services. Staff provide public and professional health education concerning disease prevention and health risk reduction. They enforce public health standards and regulations and affirm that preventive health services and protective measures are in place. They conduct surveillance and evaluation to monitor communities’ health status and they identify health disparities.

Sixty-six diseases, conditions and injuries are reportable to the Oklahoma State Department of Health. Central office staff monitor specific disease diagnoses and laboratory readings in case more active public health intervention is required. Thousands of laboratory examinations are performed annually to confirm infectious, chronic or genetic diseases. Several trades and professions are licensed through services provided at the central office. Long-term care and related facilities, as well as hospitals, are licensed and certified for participation in the Medicare/Medicaid programs. And each day, hundreds of copies of birth and death records are issued from the Oklahoma City central office.
Fiscal Summary

Public health programs conducted by the Oklahoma State Department of Health are funded by: federal funds, state funds appropriated by the Oklahoma Legislature, local millage, and fees collected for services.

*Note: Oklahoma City and Tulsa city-county health departments function autonomously; thus expenditures made by these entities are not included in this report.

Community Health Services includes the 69 local county health departments that provide public health services, Nursing Service, Community Development Service, and Record Evaluation and Support.

Protective Health Services includes Long Term Care, Health Resources Development Service, Medical Facilities Service, Consumer Health Services, and Quality Improvement and Evaluation Service.

Support Services consists of the Commissioner of Health, Office of Accountability Systems, Internal Audit Unit, General Counsel, Office of Communications, Center for Health Information, Civil Rights Administrator, Minority Health Liaison, Financial Management, Budget and Funding, Federal Funds Development, Information Technology, Human Resources, and Building Management/Internal Services/Procurement.
Our Vision
Creating a State of Health

Our Mission
To protect and promote the health of the citizens of Oklahoma, to prevent disease and injury, and to assure the conditions by which our citizens can be healthy.

Guiding Values
· Honesty ·
To forthright with our customers, communities, suppliers, stakeholders, and one another; to be truthful in all our endeavors.

· Integrity ·
To fulfill our commitments to our customers and to each other; to say what we mean, and to deliver what we promise.

· Respect ·
To treat our customers and one another with dignity and fairness, appreciating the diversity and uniqueness of each individual.

· Accountability ·
To take responsibility for our actions, and those of our agency and to fearlessly seek clarification and guidance whenever there is doubt.

· Customer Service ·
To provide quality and effective services to all.

· Trust ·
To build confidence in our customers and one another through teamwork and open, candid communication.

</table>
22 Seminars, workshops or lectures presented to health care professionals, tribal nations, medical schools, and local/public health department professionals on the principles and applications of epidemiological methodologies.

35 Presentations on “Hats Off to Women’s Health” given to various women’s organizations statewide.

COMMUNICABLE DISEASE INVESTIGATION & PREVENTION

20,616 Consultations were made with the professional and lay public on the causes and control of communicable diseases.

2,900 Epidemiologic investigations (including follow-up on positive and unsatisfactory rabies specimens) were conducted to identify the source and to control disease outbreaks such as infectious hepatitis and food-borne diseases.

25,000 Disease and laboratory reports reviewed and/or investigated.

6 Onsite or in-depth investigations into outbreaks, clusters, and epidemics of infectious disease.

39,868 Epidemiology Bulletins, disease-specific fact sheets, and disease specific statistical summaries distributed.

285,452 Unique visitors to the agency Web site, generating 6,796,381 page hits.

421 Video/audio production, videoconference, satellite broadcast/distance learning projects completed.

186 Graphics/desktop publishing projects completed.

CONSUMER PROTECTION

797 Bedding licenses issued.

970 Bedding inspections.

11 Body piercing artists licensed.

2 Body piercing establishments received permits.

12 Drug, cosmetic and medical device facilities licensed. (Note: There are approximately 70 to 80 unlicensed facilities, as there is no statutory authority for licensing.)

15 Drug, cosmetic and medical device facility inspections.

980 Hotels/motels licensed.

1,165 Hotel/motel inspections.

107 Accredited and provisionally accredited mammography facilities.

98 Mammography facility inspections performed.

85 Public bathing place permits issued.

8,075 Public bathing place inspections.

20,962 Retail food establishments licensed.

46,038 Retail food inspections.

1,060 Food manufacturers licensed.

1,975 Food manufacturer inspections.

102 Correctional facilities licensed.

273 Correctional facility inspections.

3,000 Permits issued for diagnostic x-ray tubes.

987 Inspections.

COUNTY HEALTH DEPARTMENTS

513,396 Unduplicated count of clients served for clinical and home-based services.

1,166,809 Total contacts with clients in clinical and home-based services.

537,810 Immunizations given.

178,939 Unduplicated count of clients served in immunization clinics.

13 Additional public water systems began providing optimally fluoridated water.

9,285 People began receiving the benefits of fluoridated water.

EMERGENCY MEDICAL SERVICES

198 Ambulance services.

6,307 Emergency Medical Technicians.

4,105 EMT Basic.

770 EMT Intermediate.

1,432 EMT Paramedic.
23,345 Certified First Responders.
47 EMS Training Institutions.
163 First Response agencies.
43 EMS districts.
95 EMS examinations administered.

FAMILY PLANNING
70,895 Clients received family planning and related health services offered in 96 sites in 67 counties through county health department clinics and other contract community partners.
161 Tubal ligations provided with state-appropriated funding.
40 Vasectomies provided with state-appropriated funding.
78 Family planning and sexuality education programs were provided to various community organizations and agencies.

HEALTH RESOURCES DEVELOPMENT SERVICE
10 Health Maintenance Organizations (HMOs) licensed.
880 Written complaints investigated.
506 Telephone complaints handled.
1,626 Requests for information answered.
534,070 HMO members.
445 Nursing and specialized facilities licensed.
468 Total licenses issued to nursing and specialized facilities, including renewals, bed increases, name changes, and changes of ownership.
108 Residential care homes licensed.
74 Total licenses issued to residential care homes, including renewals, bed increases, name changes, and changes of ownership.
30 Adult day care centers licensed.

INJURY PREVENTION
3,571 Reports of traumatic brain injuries were reviewed.
108 Reports of submersion were reviewed.
439 Reports of burns and smoke inhalation injuries were reviewed.
161 Reports of traumatic spinal cord injuries were reviewed.
130 Reports of fatal occupational injuries were reviewed.
739 Reports of intimate partner violence injuries were reviewed.

IMMUNIZATIONS
881,876 Doses of vaccines were administered by county health departments, other public providers and clinics, hospitals, and physicians.

EDUCATIONAL MATERIALS
539 Educational materials regarding injury control were distributed, including posters, brochures, training guides and fact books.
1,694 Bicycle helmets were distributed to children.
1,788 Smoke alarms were distributed to households.
3,475 Car seats were distributed to children.

SAFE KIDS INJURY PREVENTION
1,000 Lifejackets were taken to 10 state lakes through the “Brittany Project,” a life jacket loaner program.
200 Child safety advocates attended semi-annual SAFE KIDS Summit.
225 Youth were trained through “Super Sitters” classes.
390 Free child safety seats were distributed.
493 Discounted child safety seats were distributed to families.
23 Specialized car seats loaned to children with special needs.
12,000 Booster seats were distributed in 70 Oklahoma counties.
260 Free bike helmets were distributed.
26 Bike rodeos conducted.
39 Child safety seat check-up events were conducted.

Board of Health

The Oklahoma State Board of Health has nine members appointed by the Governor with Senate confirmation. The board’s current membership includes the following:

**Ron L. Graves, DDS,** President, is a board-certified oral and maxillofacial surgeon in private practice in Ardmore. He has served as president of both the Oklahoma Society and Southwest Society of Oral and Maxillofacial Surgeons. He has also served as Chief of Surgery and Chief of Staff at Memorial Hospital of Southern Oklahoma. Dr. Graves represents LeFlore, Latimer, Pittsburg, Atoka, Pushmataha, McCurtain, Choctaw, Bryan, Marshall, Carter, and Love counties.

**Haskell L. Evans, Jr., RPh,** Vice President, has served the health care profession as a registered pharmacist in Lawton for more than 35 years. He is Chief Executive Officer of RPH3, Inc., in Lawton. He has served as president, vice president, and secretary of the Oklahoma Pharmaceutical Association – District No. 6. Mr. Evans represents the state at large.

**Ron Osterhout,** Secretary-Treasurer, holds bachelor’s and master’s degrees in civil engineering. He has specialized in domestic and international oil and gas exploration and production. Mr. Osterhout represents Ellis, Dewey, Custer, Roger Mills, Beckham, Washita, Kiowa, Greer, Jackson, Harmon, and Tillman counties.

**John B. Carmichael, DDS,** is a retired Woodward dentist, rancher, and civic organizer. He is a past president of the State Board of Health and long-time member, first appointed by Gov. George Nigh, and reappointed in 1994 by Gov. David Walters. He represents Cimarron, Texas, Beaver, Harper, Woodward, Woods, Major, Alfalfa, Grant, Garfield, Kay, and Noble counties.

**Gordon H. Deckert, MD,** is retired from the University of Oklahoma Health Sciences Center, where he was a David Ross Boyd Professor in the Department of Psychiatry and Behavioral Sciences. He continues to maintain a clinical private practice and is a consultant to hospitals and physicians groups. Dr. Deckert is also a nationally recognized public speaker. He is past president of the State Board of Health. Dr. Deckert represents Logan, Oklahoma, Cleveland, McClain, Garvin, Murray, and Payne counties.
Glen E. Diacon, Jr., MD, is a urologist on staff with the Valley View Hospital, Ada. He is certified by the American Board of Urology and is a Fellow in the American College of Surgeons. Dr. Diacon represents Creek, Lincoln, Okfuskee, Seminole, Pottawatomie, Pontotoc, Hughes, Johnston, and Coal counties.

Dan H. Fieker, DO, is Chief Medical Officer and consultant in infectious diseases, and Director of Medical Education at the Tulsa Regional Medical Center. He also serves as clinical professor of medicine at the Oklahoma State University College of Osteopathic Medicine. He is a past president of the State Board of Health. Dr. Fieker represents Ottawa, Delaware, Craig, Mayes, Nowata, Rogers, Washington, Tulsa, Pawnee, and Osage counties.

Jay A. Gregory, MD, is a board-certified surgeon with a general, vascular and thoracic practice in Muskogee. He has served as president of such organizations as the Oklahoma State Medical Association, Oklahoma Chapter of the American College of Surgeons, and the Oklahoma Rural Health Association. Dr. Gregory represents Adair, Sequoyah, Cherokee, Wagoner, Muskogee, Haskell, McIntosh, and Okmulgee counties.

Ann A. Warn, MD, is a general ophthalmology eye physician and surgeon practicing in Lawton. She also is a clinical assistant professor at the University of Oklahoma, Department of Ophthalmology. Dr. Warn represents Blaine, Kingfisher, Canadian, Caddo, Grady, Comanche, Jefferson, Stephens and Cotton counties.
