Update to Nursing Home Reporting Requirements

April 29, 2020

CDC Nursing Home Reporting

CDC's National Healthcare Safety Network (NHSN) for long-term care facilities (LTCF) is now available for nursing homes to submit the required data for COVID+ residents. This system provides a mechanism to track infections and prevention process measures in a systematic way.

The information on the website mentions "facilities eligible to report into the COVID-19 Module include nursing homes/skilled nursing, long-term care for the developmentally disabled, and assisted living facilities." Although these facility types are "eligible" to report, we anticipate once CMS completes the final rule, it will probably not apply to ICF/IDD and assisted living facilities.

Please visit the [LTCF COVID-19 Module web page](#) where you will find pertinent information, including facility and group resources, data collection forms and instructions, upcoming training opportunities, and more!

Enrollment

LTCFs that are not enrolled in NHSN and submitting COVID-19 data **only** should follow the enrollment steps listed in: [Enrollment steps for LTCFs submitting data in COVID-19 Module](#). Upon completion, the facility will gain same-day access to NHSN.

Training

NHSN LTCF staff will conduct various virtual trainings and office hour sessions to assist LTCFs with enrollment and data submission. A list of upcoming trainings can be found on the [LTCF COVID-19 Module web page](#) under the **Training** tab. We've also listed the training schedule for tomorrow, April 30th, and Friday, May 1st, in the next section of this document. The training webinars will be recorded and posted to the [LTCF COVID-19 Module web page](#) with a PDF of the slide presentation.

Topic: COVID-19 Module Overview for Long-term Care Facilities

When: Thursday, April 30th, 2020

Time: 12:30-2:00 PM, CT

Please click the link below to join the webinar:
