**Invitations are distributed weekly for each training in the series.** [Sign up here for updates](#). **Miss a training? View recordings, slides and resources on [QIOProgram.org](http://QIOProgram.org).**

**This Week's Topic:**

Clinical Care: Managing COVID Positive Residents

The clinical management of COVID positive and presumed COVID positive residents requires understanding the various disease trajectories and having appropriate plans of care in place that align with each residents' goals and preferences. It also requires working with medical directors and clinicians to have the needed medications and other treatments available. This webinar will review the key considerations for the clinical management of COVID positive and presumed COVID positive residents.
