Reopening Phase Status Reporting

July 23, 2020

Reporting When A Facility's Reopening Phase Status Does Not Correspond to the Color-coded Alert Status for their County

The link below is to the online web form the Department developed for facilities reporting their reopening phase status. Facilities must use this form if their reopening phase status does not correspond to the color-coded alert status for their county. Facilities may use this form to report that their phase and alert status are aligned.

This link is for distribution to residential care and assisted living facilities (RCFs and ALFs), adult day care (ADC), nursing and skill nursing facilities (NFs and SNFs), and intermediate care facilities for individuals with developmental or intellectual disabilities (ICF/IIDs) only.

These reports and their updates will be available in a public access file, except for the facility contact information. That public file is located here: <https://osdhphs.co1.qualtrics.com/reports/>
