

About Us...

The Caddo County Interagency Coalition (CCIC) has been an official Turning Point Partner since 2003. CCIC was established to facilitate information/ resource sharing, and networking among residents. The original group of members comprised concerned citizens interested in cataloging services available in the county; then developing innovative strategies to increase public awareness and coordinated use of services.

In addition to maintaining and pro-

moting an up-to-date resource guide, CCIC is committed to achieving a healthier future for Caddo County children and youth through targeted programming and implementation of effective policies to promote good health. To synergize its efforts, CCIC partnered with the Kiowa County Coalition and was successfully awarded two TSET grants. CCIC sponsors the Communities of Excellence in Tobacco Control and Physical Activity & Nutrition for Caddo and Kiowa Counties.

CCIC membership is open to individuals, agencies, or groups that are passionate about promoting health and improving the quality of life in Caddo County.

Meetings are held monthly on the 2nd Wednesday - 12:00 Noon
