

About Us . . .

The original **Choctaw County Coalition** was established in 1996, to provide input for the Teen Pregnancy Prevention Program implemented by the local county health department.

This group of individuals was very active throughout the community in addressing the high teen pregnancy rates in Choctaw County. Since it's development, the coalition has expanded its priority focus from adolescent health issues to include comprehensive health and wellness, community beautification/economic development, recreation, collaboration and networking, youth and family enrichment and education.

The role of the coalition provides guidance for implementation of multiple prevention and

intervention grants and coalition action plans.

The coalition has provided the necessary leadership to mobilize the community around important issues that have been identified by the community members it serves.

For two years now we have been funded through a Drug Free Communities Grant which has successfully worked hard to increase coalition membership and awareness of substance abuse.

The coalition now has two TSET grants funded and a Community Transformation Grant working in tobacco prevention and control and nutrition and physical activity.

The coalition hosted several large events this year including

the 2nd Annual Hey Baby Conference in the spring where mothers and daughters were given tools to strengthen their self esteem and build life skills. The second annual 5K Shape Your Future Run was held in June during homecoming week.

The coalition applied for and received CHIO (Community Health Improvement Organization) certification in May. This certification will allow us to work more closely with primary care physicians in our county.
