

About Us . . .

The Believers In Boswell Community Coalition, Inc. (BIB) has been a legally recognized non-profit organization in operation and serving the community of Boswell since 2004.

BIB is a community-based organization that provides educational, economical and environmental development programs and projects beneficial to the citizens of Boswell and the surrounding areas. "Working together for a Greater Boswell", is the simple Mission

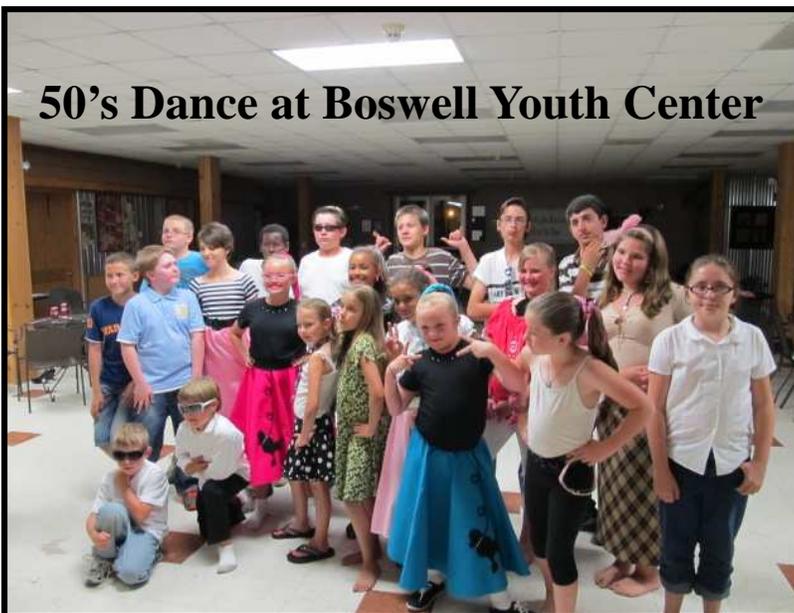

Statement of the Believers in Boswell.

During the 2012 year, the Believers in Boswell have continued to work in promoting programs and projects designed to assist the Boswell Community and to inform the youth and senior residents through an assortment of educational programs i.e., Choctaw Nation Teen Pregnancy Prevention and on a clothing drive delivering clothes to many families. And this dynamic partnership worked with the New Life Family Church and Youth Advisory

Board in a food drive supplying food for 331 needy people.

The Boswell Youth Center (BYC), which has been open for almost four years, also serves as the headquarters for the Believers in Boswell organization. Many of the BIB's community programs are held at the center.

The BYC is also open to the community for programs sponsored by the BIB partners and other non-profit organizations. It is the home for the Boswell Plan4College Center.
