

## About Us...

The Craig County Community Partnership (CCCP) was formed as a Turning Point Coalition in 2003. This diverse group of stakeholders focused on health and related needs in Craig County. Through two grants provided through Cherokee Nation, Community Anti-Drug Network grants, both Vinita and Ketchum have provided resources, education and community based events targeting drug abuse prevention, awareness

throughout the county, and resources for intervention.

This year, CCCP is working to organize and build capacity. The partnership is meeting at a great new location, the Cherokee Nation Health Clinic in Vinita. They are currently

reviewing their mission and vision to determine its relevance to the current needs of the community. They are also working to revise the bylaws previously adopted by CCCP and to fill any voids that currently exist in the leadership/elected officers.

The partnership recently signed a new MOA with Turning Point and will work to align their goals with the OHIP flagship issues.
