

## About Us...

Delaware County Community Partnership (DCCP) is dedicated to improving the health and quality of life of citizens in Delaware County. Over the past year the partnership has focused efforts on impacting the prevalence of diabetes in Delaware County.

In coordination with the CHIO Board, DCCP organized a Diabetes Expo in March. This event provided the community with access to diabetes education from local doctors and medical providers as well as a

one stop shop for local diabetic resources.

The CHIO board is now working with local doctors to review the health status of a select group of diabetics who attended the Expo. This information will be used to determine the effectiveness of the Expo and will help the coalition and CHIO Board set goals for the future.

Integris hospital also played an integral part in the success of the Expo by recruiting doctors and specialist to provide the community education, and through ongoing diabetes education classes.

This year the coalition also began the MAPP (Mobilizing for Action through Planning & Partnership) process. They have completed all four assessments and will set out to identify areas of focus and plan strategies for intervention this fall.
