9. Enclose the following documents:
   ______ Proposed Menu or complete list of food and beverages to be offered (including seasonal, off-site and banquet menus)
   ______ Plan of food establishment (if available) showing location of equipment, plumbing, electrical and mechanical services (Plan should be drawn to scale or show dimensions).
   ______ Equipment schedule including location, plumbing, drain and electrical connections
   ______ Manufacturer specification sheets for each piece of equipment to be used in the establishment. (This includes custom fabricated equipment)
   ______ Site plan showing location of food establishment location of building on site including alleys, streets; and location of any outside equipment or facilities (dumpsters, well, septic system - if applicable)
   ______ Affidavit of Lawful Presence and Copy of ID if individual Owner (Prior to Licensure).
   ______ Copy of Certificate of Incorporation if owned by LLC, INC, etc. (Prior to Licensure)
   ______ Copy of Oklahoma Sales Tax ID (Prior to licensure)
CONTENTS AND FORMAT OF PLANS AND SPECIFICATIONS

It is recommended that plans be drawn to scale or have dimensions indicated. Plans should be submitted at a minimum of a 8.5 X 11 sheet of paper.

Proposed menu, seating capacity, and projected daily meal volume for the food establishment.

Location of all food equipment. Each piece of equipment must be clearly labeled, marked, or identified. Food equipment schedule which includes the make and model numbers and listing of equipment that is certified or classified for sanitation by an ANSI accredited certification program (when applicable) must be submitted. Elevations may be necessary for equipment and storage (ie. height of storage from floor).

Provisions for adequate rapid cooling, including ice baths and refrigeration, and for hot and cold-holding Potentially Hazardous Foods.

Handwashing sinks
Warewashing sinks
Food preparation sinks

Auxiliary areas such as storage rooms, garbage rooms, toilets, basements and/or cellars used for storage or food preparation.

Entrances, exits, loading/unloading areas and delivery docks.

Complete finish schedules for each room including floors, walls, ceilings, and coved juncture bases.

Plumbing schedule including location of floor drains, floor sinks, water supply lines, overhead waste-water lines, hot water generating equipment with capacity and recovery rate, backflow prevention, and wastewater line connections.

Location of lighting fixtures.

Source of water and method of sewage disposal.

Ventilation schedule if required for mechanical warewashing, ventilation hoods, etc.

Service sink or curbed cleaning facility with facilities for hanging wet mops or similar wet cleaning tools and for the disposal of mop water and similar liquid waste.

Storage location of poisonous or toxic materials.
Areas for storage of employee personal care items.

Location of refuse, recyclable, and/or returnable containers.
FOOD ESTABLISHMENT OPERATIONAL PLAN

CLEVELAND COUNTY HEALTH DEPARTMENT

Mailing Address:   ______________________________________________
Telephone:    __________________________________________________

Submitting incomplete plans will delay the plan review process. You will need to allow up to 2 weeks after the completed application is submitted for review and approval. Please answer every question that applies to your food service operation. If it does not apply write N/A next to the question. Every section must be filled out by the operator and submitted prior to licensing or with the plan review application. Add documents or pages as needed to describe your operation. The Oklahoma Food Code Chapter 257 Title 310 can be obtained at: www.ok.gov/health2/documents/CPDOSDH%20257%20FDA2009%20Finalized%208-31-11.pdf

Type of Service (Check the food service that best describes your operation):
  □ Cook and Serve
  □ Cook, Hold Hot and Serve
  □ Cook, Chill, Reheat, Hold Hot and Serve
  □ Hold Cold and Serve
  □ Commercially prepackaged food only (except beverage)
  □ Other _______________________

Will food be transported to another location as with a catering operation or satellite kitchen? Yes /No

FOOD PREPARATION
Check categories of Time/Temperature Control for Safety (TCS) Foods to be handled, prepared and served.

<table>
<thead>

FOOD PREPARATION PROCEDURES
Explain the handling/preparation procedures for the following categories of food. Describe the processes from receiving to service including:

- How the food will arrive (frozen, fresh, packaged, etc.)
- Where the food will be stored
- Where (prep table, sink, counter, etc.) the food will be washed, cut, marinated, breaded, cooked, etc.
- When (time of day and frequency/day) food will be handled/prepared

**FOOD SUPPLIES:**

1. Are all food supplies from inspected and approved sources?  YES / NO

List all food distributors for your facility.

2. List food from animals that you will serve raw or partially cooked such as sushi, steak tartar, and oyster shooters:

3. If serving raw fish (sushi, lox, ceviche), will parasite destruction be done on-site or by the supplier? *(310:257-5-49)*
   - ☐ On-site Provide your procedure on parasite destruction *(A freezer used for parasite destruction must maintain – 4°F for 7 days. Measure and record temperature of freezer unit daily.)*
   - ☐ Supplier Provide the name of your supplier and documentation to show parasite destruction. *(Each invoice received from the supplier shall state the specific fish by species that have been frozen to meet the parasite destruction requirements under 3-402.11.)*

4. List your food suppliers for the following *(310:257; Chapter 5)*

<table>
<thead>
<tr>
<th>Category</th>

<td></td>
</tr>
</tbody>
</table>

5. What are the projected frequencies of deliveries for:
   - Frozen foods _______________________
   - Refrigerated foods ___________________
   - Dry goods ________________________

6. Provide information on the amount of space (in cubic feet) allocated for:
   - Dry storage ________________________
   - Refrigerated Storage ___________________
   - Frozen storage ______________________

7. How will dry goods be stored off the floor? __________________________________________

**COLD STORAGE:**

1. Is adequate and approved freezer and refrigeration available to maintain frozen foods frozen, and store refrigerated foods at 41°F (5°C) and below?  YES / NO
   - Provide the method used to calculate cold storage requirements.

2. Will raw meats, poultry and seafood be stored in the same refrigerators and freezers with cooked/ready-to-eat foods?  YES / NO
   - If yes, how will cross-contamination be prevented?

3. Does each refrigerator/freezer have an ambient thermometer?  YES / NO
   - Number of refrigeration units: ________  Number of freezer units: ________
4. Is ice made on premises ( ) or purchased commercially ( )

5. Will there be an ice bagging operation? YES / NO

**THAWING FROZEN POTENTIALLY HAZARDOUS FOOD:**
Please indicate by checking the appropriate boxes how frozen time/temperature control for safety (TCS) foods in each category will be thawed. More than one method may apply. *(310:257-5-56)*
Indicate where thawing will take place.

<table>

</tbody>
</table>

*Frozen foods: approximately one inch or less = thin; more than an inch = thick.

**COOKING:**

1. Will food product thermometers be used to measure final cooking/reheating temperatures of TCS Foods? YES / NO
What type of temperature measuring device(s) will be available? ______________________
__________________________________________________________________
__________________________________________________________________
__________________________________________________________________

2. List types of cooking equipment.
__________________________________________________________________
__________________________________________________________________
__________________________________________________________________
__________________________________________________________________

**HOT/COLD HOLDING:**

1. How will hot TCS foods be maintained at 135°F or above during holding for service? Indicate type and number of hot holding units.
__________________________________________________________________
__________________________________________________________________
__________________________________________________________________
__________________________________________________________________

2. How will cold TCS foods be maintained at 41°F or below during holding for service? Indicate type and number of cold holding units.
__________________________________________________________________
__________________________________________________________________
__________________________________________________________________
__________________________________________________________________
3. Will time (4hr) be used as a control for TCS foods?  YES / NO

If Yes, a written procedures for all foods that will be held via time rather than temperature, shall be prepared in advance and submitted to the Health Department for approval. See attachment A of this document for a guidance document (310:257-5-62)

COOLING:

Please indicate by checking the appropriate boxes how TCS foods will be cooled to 41°F (5°C) within 6 hours (135°F to 70°F in 2 hours and 70°F to 41°F in 4 hours). Also, indicate where the cooling will take place. (310:257-5-57 & 5-58)

</table>

REHEATING:

1. How will TCS foods that are cooked, cooled, and reheated for hot holding be reheated so that all parts of the food reach a temperature of at least 165°F within 2 hours? Indicate type and number of units used for reheating foods.

__________________________________________________________________
__________________________________________________________________

PREPARATION:

1. Please list categories of foods prepared more than 12 hours in advance of service.

__________________________________________________________________

2. How will cooking equipment, cutting boards, counter tops and other food contact surfaces which cannot be submerged in sinks or put through a dishwasher be wash, rinsed and sanitized? _____

__________________________________________________________________

3. Will ingredients for cold ready-to-eat foods such as tuna, mayonnaise and eggs for salads and sandwiches be pre-chilled before being mixed and/or assembled?  YES/NO
If not, how will ready-to-eat foods be cooled to 41°F?
4. Will all produce be washed on-site prior to use?  YES / NO

Where is the planned location to be used for washing produce?

Describe the procedure for cleaning and sanitizing these sinks before use.

5. Describe the procedure used for minimizing the length of time TCS foods will be kept in the temperature danger zone (41°F - 135°F) during preparation.

6. Will the facility be serving food to a highly susceptible population?  YES / NO

If yes, how will the temperature of foods be maintained while being transferred between the kitchen and service area?

7. Will the facility be using specialized processing methods that require a HACCP plan?  YES / NO

HACCP (310:257-15-8 & 15-9) - Processes include but not limited to:

- Packaging food using a reduced oxygen packaging method
- Using food additives or adding components such as vinegar as a method of food preservation rather than as a method of flavor enhancement
- Smoking food as a method of preservation
- Curing foods such as hams, sausages
- Sprouting seeds or beans

8. Will there be any foods that will be partially cooked before service?  YES / NO

If yes, a written procedure is required to be submitted with application for review and approval, see (Attachment B, Non-continuous cooking or Partial Cooking (310:257-5-48.1); complete all sections on written procedure sheet.

**FINISH SCHEDULE**

Indicate which materials (quarry tile, stainless steel, Fiberglass Reinforced Panels (FRP), ceramic tile, 4" plastic covered molding, etc) will be used in the following areas.  *You are required to indicate the wall color or provide a color sample with this application.*

Identify the finishes of cabinets, countertops, and shelving:

__________________________________________________________________
__________________________________________________________________

**INSECT AND RODENT CONTROL**

1. Will all outside doors be self-closing and rodent proof?  
   - YES  NO  NA

2. Are screen doors provided on all entrances left open to the outside?  
   - YES  NO  NA

3. Do all openable windows have a minimum of #16 mesh screening?  
   - YES  NO  NA

4. Are electrical insect control devices identified on the plan?  
   - YES  NO  NA

5. Will all pipes & electrical conduit chases be sealed; ventilation systems exhaust and intakes protected?  
   - YES  NO  NA

6. Is area around building clear of unnecessary brush, litter, boxes and other harborage?  
   - YES  NO  NA

7. Will air curtains be used? If yes, where? ____________________________  
   - YES  NO  NA

**GARBAGE AND REFUSE**

**Inside**

8. Do all garbage containers have lids?  
   - YES  NO  NA

9. Will refuse be stored inside? If so, where? ____________________________  
   - YES  NO  NA

10. Is there an area designated for garbage can or floor mat cleaning?  
    - YES  NO  NA

**Outside**

11. Will a dumpster be used?  
    Number ________ Size ________ Frequency of pickup ________________
    Contractor ___________________  
    - YES  NO  NA
12. Will a compactor be used?
Number ________ Size ________ Frequency of pick up ____________
Contractor ____________________

13. Will garbage cans be stored outside?

14. Describe surface and location where dumpster/compactor/garbage cans are to be stored

15. Describe location of grease storage receptacle: ________________________________________

16. Is there an area to store recycled containers? ____________________________
Indicate what materials are required to be recycled;
( ) Glass  ( ) Metal  ( ) Plastic  ( ) Paper  ( ) Cardboard

WATER SUPPLY

1. Is water supply public ( ) or private ( )
If private, has source been approved?   YES / NO / PENDING
You are required to attach a copy of written approval and/or permit from the Department of
Environmental Quality (or provide prior to opening).

2. Is ice made on premises ( ) or purchased commercially ( )
Describe provision for ice scoop storage:______________________________________________

3. Provide location of ice maker or bagging operation_______________________________

4. Is the hot water generator sufficient for the needs of the establishment?  YES / NO
What is the capacity and location of the water heater? _____________________________
Provide calculations for necessary hot water to verify needs are met_____________________

SEWAGE DISPOSAL

1. Is building connected to a municipal sewer?     YES / NO
If no, is private disposal system approved?     YES / NO / PENDING
You are required to attach a copy of written approval and/or permit from the Department of
Environmental Quality (or provide prior to opening).

2. Are grease traps/interceptors provided?     YES / NO
If yes, indicate the location__________________________
Provide schedule for cleaning & maintenance_______________________________________

DRESSING ROOMS/EMPLOYEE PERSONAL STORAGE

Are dressing rooms provided?    YES / NO
Describe storage facilities for employees' personal belongings (i.e., purse, coats, boots, umbrellas, etc.)

GENERAL

1. Where will all toxics for use on the premise or for retail sale (this includes personal medications), be
stored so that they are away from food preparation and storage areas?
Indicate location: ______________________________________________________________
2. How will all containers of toxics, including sanitizing spray bottles clearly labeled?

3. Will linens be laundered on site? YES / NO
   If yes, what will be laundered and where? __________________________________________
   If no, how will linens be cleaned? _________________________________________

4. Is a laundry dryer available? YES / NO

5. Location of clean linen storage: ________________________________
   Location of dirty linen storage: __________________________________________

   Are containers constructed of safe materials to store bulk food products? YES / NO
   Indicate type: __________________________________________________________

   How often is each listed ventilation hood system cleaned?
   Whole system __________________________________________________________
   Filters __________________________________________________________________

SINKS

1. Is a mop sink present? YES / NO
   If no, please describe facility to be used for cleaning of mops and other equipment:

DISHWASHING FACILITIES

1. Identify methods that will be used for warewashing?
   Mechanical Dishwasher ( ) Two compartment sink ( ) Three compartment sink ( )

Mechanical Dishwashing

1. Identify the make and model of the mechanical dishwasher: ______________________________
   Type of sanitization used:
   Hot water (temp) _____________ or Chemical (type) _______________

2. Do all mechanical dishwashers have an audible or visual alarm to signal detergent or sanitizer needs to be added? YES / NO

3. Do all dish machines have accurately working temperature/pressure gauges? YES / NO

4. Are test papers and/or kits available for checking sanitizer concentration? YES / NO

Manual Dishwashing

1. Identify the length, width, and depth of the compartments of the 3-compartment sink:

2. Does the largest pot and pan fit into each compartment of the 3 compartment sink? YES / NO
   If no, what is the procedure for manual cleaning and sanitizing? ____________________________

3. Are there drain boards on both ends of the pot sink? YES / NO
   If no, indicate location and type or air drying space of wet equipment (wall-mounted or overhead shelves, stationary or portable racks) ____________________________
4. What type of sanitizer is used?
Chlorine _____ Quaternary ammonium _____ Iodine _____ Other (list) ______________

5. Are test papers and/or kits available for checking sanitizer concentration? YES /NO

**HANDWASHING/TOILET FACILITIES**

1. Is there a handwashing sink in each food preparation and warewashing area? YES /NO

2. Do any of the hand washing sinks, including those in the restrooms, have a mixing valve or combination faucet? YES /NO If yes, where? ____________________________

3. Do self-closing metering faucets provide a flow of water for at least 15 seconds without the need to reactivate the faucet? YES /NO

4. Is hand cleanser (soap) available at all handwashing sinks? YES /NO

5. Are hand drying facilities available at all handwashing sinks? YES /NO

6. Is one covered waste receptacles available in women’s restroom? YES /NO

7. Is the hot and cold running water under pressure available at each handwashing sink? YES /NO

8. Are all toilet room doors self-closing? YES /NO

9. Are all toilet rooms equipped with adequate ventilation? YES /NO

10. Is a handwashing sign posted by every handsink - including restrooms? YES /NO

**BACKFLOW PREVENTION**

ESTABLISHMENT NAME: __________________________________________________________

ESTABLISHMENT ADDRESS: __________________________________________________________

Time only, rather than time in conjunction with temperature control, up to a maximum of 4 hours, will be used as the public health control for the following food item(s):

<table>
<thead>
<tr>
<th>Food</th>
<th>Method (e.g. chart, time stamp)</th>
</tr>
</thead>
<tbody>
<tr>

</tr>
</tbody>
</table>

1. Food shall have an initial temperature of 41ºF or less if removed from cold holding temperature control, or 135ºF or greater if removed from hot holding temperature control;

2. Food shall be marked or otherwise identified to indicate the time that is 4 hours past the point in time when the food is removed from temperature control (Method used to identify food will be submitted with this sheet for review)

3. Food shall be cooked and served, served if ready-to-eat, or discarded, within 4 hours from the point in time when the food is removed from temperature control; and

4. Food in unmarked containers or packages, or marked to exceed a 4 hour limit shall be discarded.

</tbody>
</table>

*The cooking time and temperature clock starts at 135°F or the final initial heating temperature if <135°F.

After complete cooking, food must be held hot at ≥ 135°F; served immediately; held using time as a public health control; or cooled from 135°F to ≤ 70°F within 2 hours and from 135°F to ≤ 41°F within a total of 6 hours.

How will food, after initial heating, but prior to complete cooking, be marked or otherwise identified as foods that must be cooked to ≥165°F for 15 seconds prior to being offered for sale or service? __________________________________________

How will food, after initial heating but prior to cooking to ≥165°F for 15 seconds, be separated from ready-to-eat foods to prevent potential cross contamination? __________________________________________
