**V. Critical Access Hospitals. The Health Care Financing Administration has authorized the Oklahoma State Department of Health to designate rural nonprofit hospitals as Critical Access Hospitals.**

As of May 23, 1999, the State Health Department has given preliminary approvals to five hospitals that requested critical access hospital designations. The five hospitals are Prague Municipal Hospital, Prague; Jane Phillips Nowata Health Center, Nowata; Atoka Memorial Hospital, Atoka; Watonga Municipal Hospital, Watonga; and Mercy Health-Love County, Marietta. Before a designation becomes final, the federal Health Care Financing Administration must authorize the State Health Department to conduct a certification survey at the prospective critical access hospital. Additional requests were pending at press time from Johnston Memorial Hospital and Roger Mills Memorial Hospital.

**A not-for-profit hospital with no more than 15 acute care beds that is located in a rural county and at least 35 miles from the nearest hospital may be certified as a critical access hospital. The hospital may have up to 10 additional swing beds, and the distance to the nearest hospital may be as low as 15 miles if the drive is by secondary roads. The critical access hospital can keep each patient no more than 96 hours. The critical access hospital may cut services and staffing to the point of closing the facility temporarily when no inpatients are present. An on-call emergency service must be provided. Critical access hospitals qualify for cost-based reimbursement, instead of payments based on Diagnosis Related Groupings (DRGs). In Oklahoma, the certified critical access hospital likely will be licensed as a rural primary care hospital.**
