Health Workforce Action Plan

Health System Transformation: Moving from Workforce Planning to Implementation
Health Workforce Plan Overview: Core Area Strategies

Coordination of Workforce Efforts
- Integrate health workforce into workforce and economic development efforts
- Leverage efforts and scale successful demonstration projects

Workforce Data Collection and Analysis
- Ensure availability of comprehensive, high quality health workforce data
- Establish centralized health workforce data center

Workforce Redesign
- Achieve collaboration necessary to support team-based health care delivery
- Ensure training and education matches the needs of a redesigned health care system
- Support the utilization of telehealth

Pipeline, Recruitment and Retention
- Facilitate collaboration and achieve consensus on statewide strategies for education, training, and development
- Align and integrate strategies with economic development priorities
# Coordination of Workforce Efforts

<table>
<thead>
<tr>
<th>Organization</th>
<th>Responsibilities</th>

</table>
| Governor’s Council for Workforce and Economic Development | • Workforce Investment and Opportunities Act (WIOA) State Plan  
• Oklahoma Works |
| Health Workforce Subcommittee | • Develop comprehensive set of research questions  
• Convene Workgroups  
• Submit recommendations to Governor’s Council for Workforce and Economic Development |
| Center for Health Innovation and Effectiveness  
“Health Workforce Data Center” | • Facilitate collaborative research and planning efforts  
• Establish data warehouse and research clearinghouse |
| Oklahoma Health Improvement Plan (OHIP)  
Workforce Workgroup | • Broad range of health workforce stakeholders  
• Convene ad hoc subcommittees as needed |
Data Collection and Analysis

Data Collection and Analysis

Identify and prioritize a list of critical health occupations

IN PROGRESS

Identify Critical Occupations
Create supply and demand forecast for each occupation
Identify supply and demand gaps

Develop state-specific criteria to identify existing and predict emerging shortages

Revise assessment process to link broader range of data
Redefine rational service areas based on health systems analysis
Incorporate APRNs and PAs into state primary care assessment

Publish long-range outlook based on new models of health care delivery

Identify geographic shortage areas
Identify occupational/specialty shortage areas

Data Collection and Analysis
Assess, evaluate, and thoughtfully address requirements for physician and ancillary health providers to meet the demands of innovative care delivery models.

Convene interdisciplinary group to guide development of strategy to address regulatory and policy issues that affect health professions.

Assess barriers to health workforce flexibility and optimization.

Utilize findings from demonstration projects (e.g., H2O, Comprehensive Care Initiative, Health Access Networks).

Develop policy and program recommendations that support health care transformation.

Recommend strategies to establish career pathways for new health professions.

Review and analyze findings from current research and statewide initiatives IN PROGRESS.

Define positions and competencies required for emerging health professionals, focusing first on community health workers and care coordinators IN PROGRESS.

Develop training, policy and reimbursement recommendations that support new and emerging health professionals PLANNED.

Workforce Redesign
<table>
<thead>
<tr>
<th>Increase statewide opportunities for training and professional development for health professionals</th>
</tr>
</thead>
<tbody>
<tr>
<td>Develop statewide training and education plan for the health care transformation</td>
</tr>
<tr>
<td><em>In Progress: Will be included in processes Health Care Industry Report</em></td>
</tr>
</tbody>
</table>

| Develop plan to utilize technology to increase statewide opportunities for training and professional development for health professionals on health transformation innovation, including practicing team-based, goal directed care, using EHR to advance population health, and incorporation of telemedicine. |

| Create a plan to leverage existing initiatives to create learning networks, virtual communities of practice, and other evidence-based practices |

| Develop business plan to secure resources and sustain effort |

<table>
<thead>
<tr>
<th>Develop a plan to optimize telehealth and telemedicine capabilities</th>
</tr>
</thead>
<tbody>
<tr>
<td>Develop a statewide telehealth plan</td>
</tr>
<tr>
<td><em>In Progress (ASTHO Technical Assistance)</em></td>
</tr>
</tbody>
</table>

| Develop statewide policy recommendations.  |
| *In Progress (Policy analysis complete)* |

| Develop recommendations for public/private health education programs for tobacco cessation, diabetes, and other chronic disease management initiatives |

| Convene rural telehealth committee to examine and identify potential telehealth innovations to provide robust support to rural hospitals and health care providers |

**Workforce Redesign (2)**
<table>
<thead>
<tr>
<th>Increase the number of physicians trained and retained in Oklahoma</th>
</tr>
</thead>
<tbody>
<tr>
<td>Sustain and leverage current state Graduate Medical Education (GME) resources In Progress</td>
</tr>
<tr>
<td>Expand community-based residencies and rotations In Progress</td>
</tr>
<tr>
<td>Maximize impact of pipeline, recruitment and retention efforts In Progress</td>
</tr>
<tr>
<td>Address community factors (e.g., economic viability, community support and quality indicators) In Progress</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>Develop and enhance pipeline, recruitment and retention programs for nurses, physician assistants, and other ancillary health care providers</th>
</tr>
</thead>
<tbody>
<tr>
<td>Develop a state plan to address provider shortages and integrate inter-professional education, recruitment and retention strategies</td>
</tr>
<tr>
<td>Increase number of community-based training sites for ancillary providers</td>
</tr>
</tbody>
</table>

**Recruitment and Retention**
Assess and improve the distribution and accessibility of health professional training and professional development programs

Develop objectives to include conducting a needs assessment, identifying barriers to implementation, providing recommendations to overcome policy barriers, and securing a plan for developing resources for implementation

Explore shared services for higher education that would increase the distribution and availability of health professions training and professional development programs

Develop recommendations to be proposed to the Health Workforce Subcommittee for the Governor’s Council on Workforce and Economic Development
