

Our mission is Haskell County Coalition is committed to improving the quality of life for everyone through efficient and effective partnerships.

Since becoming a Turning Point partnership in 2006 they have expanded the partnership to not just provide an opportunity for important community networking but provide resources and services to the County. The coalition partnered with three other county coalitions to provide a Smart Start Program for all four counties. The group also utilized School Enrichment data collected from County Schools to develop an 5th Grade Rally to meet the needs of area schools while providing youth education and empowering them to live healthy by making better

choices.

Haskell County Coalition has taken a more active role in ATOD prevention. In addition to substance abuse and underage drinking prevention efforts they have began to address tobacco control. The coalition partnered with the Latimer County Coalition to form a consortium and apply for a Tobacco Control Grant in which they were awarded.

From sponsoring Back to School Roundups, 5th Grade Rallies, holding annual March Against Meth events and participating in many community events they have proven to be a valued community partner that is continually bringing needed resources and services to their community.

About Us...

The coalition has partnered with regional Turning Point coalitions to bring resources and programs funded by grants to the community. In addition to the tobacco grant, they partnered with three other coalitions to bring a Smart Start grant and program to the county. They are now an active partner in addressing school readiness and have implemented the “Raising a Reader” program in county daycares and head start programs.

They have recently started looking at plans to effect health in a more long term and strategic manner. The coalition has begun to assess the community needs and will then work to create a comprehensive County Health Improvement Plan.

Partnership Priorities

- Tobacco Control
- Community networking and information sharing
- Child & Family Enrichment
- Youth education and empowerment
- Alcohol tobacco and other drug prevention
- Child and Family Health
- Access to Health Care
- Economic Development

“Stand for the Silent” Founder and presenter Kirk Smalley, his wife and coalition members.

HCC brought Kirk to Haskell County and assisted schools in addressing bullying and starting Stand for the Silent Chapters.
