     - 1: Assessment of market effects – many items in this deliverable are related to the federal exchange and may not be relevant to all insurers.

     - The workgroup members are asked to help identify any models that are not listed in the scope of work
     - 3: High cost populations – these were chosen because they are specifically mentioned in the SIM application.

     - Notes: deadlines are tight, and workgroup input will be included to ensure the best information will be included in the final state plan

   - **Meetings dates around deliverables**
     - Meeting dates will be related to the deliverables as outlined in the scope of work for the contractor. There will be two meetings around each deliverable to ensure adequate discussion.
