-  Medically Underserved Area
-  Governor's Designation
-  Medically Underserved Population
-  Not an MUA/P

Total General Medical Hospitals in Rural Areas: 51

Total Critical Access Hospitals in Rural Areas: 34

Total General and Critical Access Hospitals in Rural Areas: 85

Notes (General Hospitals): General Medical Hospitals include institutions capable of diagnosis and treatment of medical conditions in an inpatient setting. GHs provide a wide variety of laboratory, diagnostic and surgical services related to the treatment of medical conditions.

Notes: Critical Access Hospitals: Critical Access Hospitals (CAHs) are limited service hospitals located in rural areas. CAH is a special Medicare designation for payment that is limited to hospitals with 25 beds or less and an average length of stay less than four days. Critical Access Hospitals receive payments for providing care to underserved populations.
