

2016 VACCINE STORAGE INCIDENT REPORT (VSIR)

(For use when vaccine has been involved
in a storage or power failure incident)

Name of Provider _____ Date of Incident _____

VFC Pin # _____ Phone # _____ OSIS # _____

1. **Correct the situation. Adjust temperature control as appropriate**, close the door, plug in the refrigerator/freezer or transfer vaccine to a working storage unit with temperatures in the correct range. **Contact Immunization Field Consultant (IFC) or Immunization Service at 405-271-4073 if IFC is unavailable.**

2. Quarantine the vaccine. Bag and label the vaccine **“DO NOT USE”** so the vaccine is not administered until a response has been received from Immunization Service. Keep the vaccine stored in a VFC approved storage unit at required temperatures until viability is determined by Immunization Service. Do not automatically discard the affected vaccine.

3. **Record the following:**

The current temperatures of the unit in which the vaccine was stored:

Refrigerator: _____ Freezer: _____

The minimum and maximum temperatures reached (minimum/maximum):

Refrigerator: ____/____ Freezer: ____/____

The amount of time the temperature was out of range:

Refrigerator: _____ Freezer: _____

Has the vaccine previously been exposed to temperatures outside the recommended range? Y _____ N _____

4. **Fill out the VSIR form completely. List number of doses and Lot # for each vaccine. Calculate the cost of the doses for each vaccine and record** the total cost of vaccine involved on the Vaccine Inventory Form (pg2).

5. **Describe in detail the incident** that resulted in vaccines being compromised; describe actions taken to prevent a similar loss in the future on the Vaccine Storage Incident Report Form (pg3).

6. **Sign the report. Fax the following documents to Immunization Service at 405-271-6133:**

- Completed 3-Page VSIR Report;
- Current inventory from OSIS;
- Temperature logs for excursion period;
- Any other related documents.

7. **Immunization Service will contact the manufacturer** regarding all vaccines that were stored at temperatures out of range. Manufacturer’s recommendations will be documented on the Vaccine Inventory Form (pg2) by Immunization Service.

8. **If the manufacturer recommends the vaccine be discarded, Immunization Service will contact the clinic or IFC with the following instructions:**

- Immediately remove the vaccine from the storage unit and mark “Do Not Use” on the box;
- Set aside full boxes and vials in a designated area until shipping label(s) arrive;
- Complete the Vaccine Return Form and fax to OSDH Immunization Service at 405-271-6133;
- Properly destroy partial boxes or vials of vaccine;
- Remove the spoiled vaccine from OSIS Inventory (If not on OSIS, call assigned IFC or 405-271-4073 for further instructions).

9. **If the manufacturer recommends vaccines are still viable**, Immunization Service will contact provider or IFC that vaccines are safe to use.

Vaccine Inventory Form

Prices are subject to change/Replacement cost may be higher per dose.

Vaccine Brand Name	Manufacturer	Lot #	# of Doses	VFC Cost per Dose	Total Cost	OSDH Use Only-Manufacturer Instructions
DTaP (Daptacel)	Sanofi Pasteur			\$16.00		
DTaP (Infanrix)	GSK			\$16.00		
DTaP-IPV (Kinrix)	GSK			\$39.00		
DTaP/HepB/IPV (Pediatrix)	GSK			\$54.00		
DTaP-IPV/Hib (Pentacel)	Sanofi Pasteur			\$54.00		
IPV (IPOL)	Sanofi Pasteur			\$13.00		
Hep A Pediatric (VAQTA)	Merck			\$17.00		
Hep A Pediatric (Havrix)	GSK			\$17.00		
Hep B – Ped/Adol (ENGERIX)	GSK			\$11.00		
Hep B – Ped/Adol (Recombivax) Vials	Merck			\$12.00		
Hep B – Ped/Adol (Recombivax) Syringes	Merck			\$12.00		
Hib (PedvaxHIB)	Merck			\$12.00		
Hib (ActHIB)	Sanofi Pasteur			\$9.00		
HPV (Gardasil)	Merck			\$121.00		
HPV 9(Gardasil 9)	Merck			\$134.00		
HPV (Cervarix)	GSK			\$108.00		
Trumenba	Pfizer			\$96.00		
Bexsero	GSK			\$123.00		
Meningococcal Conjugate (Menactra)	Sanofi Pasteur			\$85.00		
Meningococcal Conjugate (Menveo)	Novartis			\$84.00		
MMR (MMR II)	Merck			\$20.00		
MMR-V (ProQuad)	Merck			\$109.00		
Pneumococcal Conjugate (Prevnar)	Wyeth			\$117.00		
Rotavirus (Rotateq)	Merck			\$64.00		
Rotavirus (Rotarix)	GSK			\$85.00		
Tdap (BOOSTRIX)	GSK			\$31.00		
Tdap (ADACEL)	Sanofi Pasteur			\$31.00		
Varicella (Varivax)	Merck			\$84.00		
Influenza - Fluzone QD 6-35M VFC	Sanofi Pasteur			\$18.00		
Influenza – Fluzone QD 6M-18Y VFC	Sanofi Pasteur			\$13.00		
Influenza – Fluarix 3Y-18Y QD VFC	GSK			\$14.00		
Flumist QD VFC	MedImmune			\$19.00		
Hep A – Hep B (Twinrix)	GSK			\$54.00		
Pneumococcal Polysaccharide (Pneumovax)	Merck			\$44.00		
Td (Tenivac)	Sanofi Pasteur			\$19.00
