,OK -

**Description of Amendment:**

a. This is to incorporate the following:

Line Item 6: Extron Touchlink System:

Are the additional monitors, amplifiers, security DVR, etc. shown in the diagram pieces that you already have and if so, will we need to hook them up to the new system or will that be done by your people? Yes, they are already installed and in place and the EOC Manager will be doing the installation.

Will the Touch panel be required to control the SW4VGA for KVM switching system or will this be manually controlled by the user? The 4-way switcher will remain manual and under local control.

Will the GUI need to be set up to control outputs 1-4 as a videowall? TouchLink 10" panel and associated customized software will provide an intuitive graphical user interface that allows set-up of control outputs 1-4 as a videowall.

b. All other terms and conditions remain unchanged.
