

Enhanced OSIS Training

Immunizing a Patient

Immunizing a patient

Make sure you are logged into the correct provider/clinic.

The screenshot displays the OSIIIS web application interface. At the top, the header shows 'OSIIS' with a blue arrow pointing to the user identifier 'ITSTESTING1, ITSTESTING1' and a search icon labeled 'PATIENT SEARCH'. The main content area is titled 'WELCOME TO THE Oklahoma State Immunization Information System'. Below this, the 'Default Provider/Clinic' section features a dropdown menu with the selected value 'Provider/Clinic : ITSTESTING1, ITSTESTING1'. A blue arrow points from the 'Patients' menu item in the left sidebar to this dropdown. The dropdown menu is open, showing the text 'SELECT A CLINIC BY TYPING PROVIDER, CLINIC, VFC PIN, OR CLINIC CODE' and a close button 'x'. Below the dropdown, the 'News' section contains a warning icon and the message 'There are currently no news items available.' A note at the bottom states that the application requires Adobe Reader, with a link to download a free copy. A 'Get ADOBE READER' button is visible, and a 'Modify News' link is located at the bottom of the page. The left sidebar contains navigation links: Home, Patients, Immunizations, Education, IZ Quick Add, Inventory, Hepatitis B, Reports, VTrckS Interface, Administration, and HL7 Management. The version number 'Version 20.6.2007.0' is displayed at the bottom left of the sidebar.
