

Goal of the Partnership Conference

To educate nursing facility staff to manage dementia without relying on medication in order to improve the quality of life for these residents and to reduce the unnecessary use of antipsychotic medications by 15% by the end of 2012.

Objectives of the Partnership Conference

- Improve knowledge of risks and benefits associated with use of antipsychotic medications for residents with dementia;
- Learn alternatives to antipsychotic medications in the treatment and management of dementia;
- Improve communication among the interdisciplinary team to provide appropriate care to the resident with dementia without the use of antipsychotic medications;
- Learn skills to assist residents with dementia with their activities of daily living;
- Learn how to reduce antipsychotic medication use through the professional experience of a director of nursing, medical director and pharmacist; and
- Obtain tools to aid in evaluating and reducing antipsychotic use for residents with dementia.

Oklahoma's Partnership To Improve Dementia Care in Nursing Homes Conference

October 10, 2012

Oklahoma City

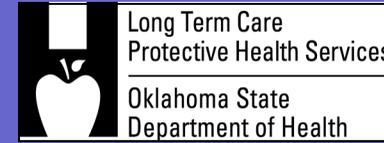

CMS Initiative

To ensure appropriate care and reduce the use of unnecessary antipsychotic medications for residents with dementia in nursing homes.

Partnership Conference Speakers

And Partners Supporting the Conference

Please join the partnership in welcoming the following speakers:

Diana Sturdevant, MS, GCNS-BC, APRN— Director of Nursing Service at Mitchell Manor Convalescent Home in McAlester, OK., will share best practices for dementia care in nursing homes.

Richard Taylor, PhD— Diagnosed nine years ago with "dementia, probably of the Alzheimer's type." Today he speaks of his experiences living with Alzheimer's from the inside out. He promotes what he terms humanizing dementia care. A transactional approach to care giving that humanizes the giver and the receiver, both at the same time.

Carrie Ciro, PhD, OTR/L— Assistant Professor, Department of Rehabilitation Sciences in the College of Allied Health where her research agenda is focused on improving functional performance in people with dementia.

Peter Winn, MD, CMD— Professor, OU Department of Family Medicine, OKC; Board Certified in Family Medicine in the US and Canada; qualifications in geriatrics and palliative medicine through the American Board of Family Medicine; Certified Medical Director in LTC through the American Medical Directors Association (AMDA); current President of the OK Chapter of AMDA; and National Board member of the AMDA Foundation

Keith A. Swanson, Pharm.D., CGP— Associate Professor of Pharmacy Practice at the University of Oklahoma College of Pharmacy; adjunct professor in the Department of Geriatric Medicine, College of Medicine, OU Health Sciences Center. As a Certified Geriatric Pharmacist his practice is based in LTC facilities in the OKC area where he provides pharmacotherapy care services.

Can't make it for the whole day?

Although we believe you would benefit from all presentations, we realize nursing facility staff are busy. If you are unable to arrange to attend all sessions, please come and go as your schedule permits. We ask that you register for the entire day, so we will have a seat for you!

Please share this brochure with your interdisciplinary team, facility consultants, medical director and attending physicians.

Family and friends of loved ones with dementia are also invited to attend.

If you have not received confirmation of registration by October 8, 2012, or if you have questions regarding registration, please contact Donna Bell at 405.271.9444, Ext. 57221 or via email at ladonnab@health.ok.gov or

Karen Gray at Ext. 56049 or via email at karenag@health.ok.gov
